The Story of the Slur against Desiré

WARNING!
This book contains provocative material not for children or the sexually immature.

ISBN 978-615-5169-44-1 The Slur of Desiré
The False Persecution of Desiré

Desiré has been slurred and slandered to cover-up the false beliefs of the Ultra Rich and to protect their profit. She has been falsely accused, maliciously maligned, and wrongfully persecuted all to divert and distract people from hearing her messages. The Ultra-Rich fear her truth; the small minds dread her courage, the petty minds tremble at her integrity and honor. They have tried to smear and malign her to stop her messages and books. The case is here in this book for you to hear the other side of the story and to open the door for honesty integrity open communication, honor and heartfelt compassion. If you have any comment or criticism of Desiré please give her a chance to explain rather than backstab her. If someone badmouths her ask them to have a conference call. If they won’t, then consider their ethics and see their motivation. For when we turn on the light of truth, the cockroaches run for the wall.
Known Facts

- Fact: Synthetic drugs are an insult to the body and they are not fully compatible with the human body.
- Fact: Natural medicine works and is a viable choice in the world today.
- Fact: Muscle testers and point probe users completely control the results of their tests. They do not measure the patient, they determine all results.
- Fact: There is a body electric. We are completely made up of energetic fields. These fields can be measured and corrected with the EPFX technology.
- Fact: Big Tobacco, Big Sugar, Big Pharmaceuticals, Big Medicine are the largest killers of people today.
- Fact: There have been NO reports of any significant risk to anyone from the EPFX technology. It has been correctly registered, researched, published, taught in medical schools, used in hospitals, tested safe and effective.
- Fact: When I got acupuncture needles registered as medical equipment in America some in the FDA trumped up charges to stop me. In 1996 Federal Judge Matsch made the FDA drop their case. They illegally made a new charge against me as a vendetta. This has nothing to do with the EPFX.
- Fact: I am the man who left America to find freedom who is no longer a man. It is against the law to present evidence related to sexual identity.
- Fact: It is against the law to market an unvalidated unregistered adulterated software plugin.
- Fact: Greed, Anger, Arrogance, Delusions of False beliefs and Conformity drive people to slur Desiré

I have always been deeply religious and devoutly connected to God. I have tried to let God work with me and through me in everything I do. I give full credit to him for everything in my life. My eldest son Daniel was born autistic with learning disabilities in 1979. We were asked to join a
So I got into Natural medicine and as an ex-electrical engineer I was able to develop the best energetic medical devices ever conceived. My respect for the law and due diligence meant that I was able to register and research each step along the way to develop the finest drugless energetic medicine devices in the world today.

In the fifth grade we learned that our bodies are made of atoms. And atoms are made mostly of protons, neutrons and electrons. There are great spaces between these electrons and protons and other atoms. These electrons never touch each other. Thus the outer electrons in my left hand can never touch the outer electrons in my right hand no matter how hard I slap. The only things that touch are photons. So we are completely 100% electrical energetic fields.

The electrons and atoms of our complex Fractal body obey quantum, QED, photonic, electromagnetic-static laws. This is a mouthful so we abbreviate and since these are all energy let’s say ENERGETIC. There is undeniably a body electric and there is indeed an Energetic Medicine. There is pressure from the chemical companies and their vast wealth and pervasive influence to view the body as a set of chemicals. But these chemicals are all made of energetic fields and they obey energetic laws like quantum, electro-magnetic, static, quantum electro-dynamic photonic laws.

It is clear to see that no medical doctor or any scientist is fully aware of the real nature of what our bodies truly are. Few medical personnel even know what an electron is. And they arrogantly fear new ideas as an attack on their ego. Medicine has made the mistake of ignoring the body electric and frowning on energetic medicine. Traditional medicine invested its future into synthetic chemistry and we now all know that SINthetic chemicals cause side effects that the some of the public does not want. Doctors depend on their prescription pad, and some people are tired of it. Some People want to exercise their freedom of choice and use natural medicine with minimal risk, and safe forms of energetic medicine.

Most of the electrons in the human body are bond very tightly, but there are enough free electrons to permit the functions of life to occur. All functions of life involve electrons and photons. There are specific patterns of energetic interactions that are healthy and normal and disease states occur when there is an upset in the energetic stability.

Energetic medicine in the past has made several scientific mistakes. First the hand delivered point probe was too sensitive to operator control and it was too slow to measure the body electric’s changing activity. The muscle testing was also found to be 100% under operator control in all tests and thus was not measuring the patient’s body but measuring the therapist’s intent. Many claims were not supported with research or with clinical evidence. There were many charlatans selling illegal even complete bogus fraudulent devices with exorbitant claims. Certain Russian devices were not supported with research or with clinical evidence. There were many charlatans selling illegal even complete bogus fraudulent devices and exorbitant claims. Certain Russian devices and others were found to be completely deceptive shams and doctors have lost their license using them.

I found the alternative medicine community full of backstabbing charlatans who would sell their mother for a nickel and send her COD. So now I was hated by both sides of the medical world. None of these doctors knew what an electron was and they feared to admit that I was smarter than them. The drug companies, fraudulent device competitors and the muscle testers feared exposure and they both take any opportunity to slur my name.

This book is the story of these slurs. Here we can see there are two sides to every issue, at least two.
device? Many homophobic people wanted to say something but did not because they would look stupid. And to my surprise everybody loved the sincerity and we started to sell. I then decided to be Desiré full time and the first lectures I was nervous and sweat, but the people loved the honesty. I was me and they saw a self actualized person. They saw the integrity candor and openness. They listened and we sold more and more. The science, experience, and honesty come across. Desiré built the business and did not hurt it but flourished it.

Science has been so Male and restricted in thinking. Male logic, linear, Male verification, over verbal and Male driven. The typical doctor is as an example. However, The intuitive female softer side of compassion, inspiration, sympathy, visual empathy of the Female side is often suppressed. Example the nurse is told to be quiet. The doctor and nurse are needed for healing. So now using both sides I was able to transcend the limitations of one sided philosophy and let the two sides merge into a partnership of genius. The male and female united science to capture the essence of life, health and medicine. The EPFX became better and better. As Desiré the intuitive compassion and flow of God consciousness entered into every line of code. It became the largest most versatile medical program in the world.

As we see from the pic above we can go beyond self actualization as in Maslow’s pyramid. We can pass to a level of transcendence. As I transcended the rules of sexual identity and let my big head chose my sexual identity, I then let my big head listen to God and let him work through me. But when people transcend to a higher level the other people around them rear them and they try to attack and take them down. Great spirits get incredible resistance from mediocre minds.

I had the courage to be me and I saw how almost everybody was living in fear. I sought to inspire people to not live in fear but to live in the light of honest self discovery. My dedication to the law was paramount in shaping the intense devotion to legal compliance.

The genuine honesty of Desiré and commitment to make a system of medicine using both sides worked very well. Some have said it hurt the business, just the contraire. Desiré made software that was so powerful and my energy as Desiré was so real and authentic that people loved it. The business flourished and the testimonials of healing, success and the studies flowed in.

Desiré made software that was so Powerful and Intellectual and Desiré was so factual and genuine that people respected it. Desire is an example of Courage, Integrity Dedication, Freedom, Grace, Tolerance, Openness, Sincerity, Honesty and Incredible Intellect. We should Honor her not Despise her. We were doing very well with our safe and effective device. That is till the time of the publication of the Seattle Times article. Then it seemed rumor became more important than truth. For any who see me lecture live and interact with me are instantly relaxed at the honest frank authenticity of me. It is only either those who are troubled inside themselves or those who don’t know me that care. But for others they can be swayed by articles like the ones we address here. The hospitals were told rumors and innuendos to stop using the devices that they were getting results. Fear was rampant as everyone feared everything. Everyone except me, for God gave me the inspiration and strength to fight the fear.

I am either Hero or villain. There is no middle ground here. I am either telling you the truth or telling you lie. As you read this book you will see many things and if you wish to challenge anything even the spelling please do so. But at least let me respond and stop backstabbing and talking behind my back.
The Story of the Slur against Desiré

Imune Stimulation
The True Health Care Debate

Years ago I was excited to see some infomercials about alternative medicines and treatments for diseases. The speaker talked a good show and sold me to buy his books. But there was absolutely no real advice in the books, only multilevel companies with more to buy. This made me angry and then decided to write the best self-help books on natural medicine. Editing and collecting the best in real substantiated advice.

Desiré has written two incredible books and made movies to go with them. What to do for influenza and specifically what to do when the next major virus hits. A movie and a self-help book designed to really help you and your families understand what to do to protect yourself.

Also cancer is such a devastating disease, and there are ways to help yourself in the kitchen with cooking for cancer patients. Full advice on soup to nuts on exercise, medication, cooking, and more. Coupled with a video for the science of how it works.

The health care debate is bringing a question of health and care. In this incredible new book Desiré has outlined a very thorough review of the real problems of Health Care. This book will tell you the truth the chemical companies do not want you to hear.

The Story of the Slur against Desiré

The Key issues are the SYNthetic drugs...

The Genuine Honesty of Desiré and commitment to make a system of medicine using both sides of the brain and sexuality worked very well. Some have said it hurt the business, just the contraire.

Desiré made software that was so powerful and intellectual and Desiré was so real and authentic that people loved it.

Desiré is an example of Courage, Integrity, Dedication, Freedom, Grace, Tolerance, Openness, Sincerity, Honesty and incredible Intellect.

We should honor her, not despise her!

The Story of the Slur against Desiré

PROOF that SYNTHETIC DRUGS are incompatible with the Human Body

1. The Synthetic drug companies do not know how to properly place the electrons around the atoms in making a drug. Nature uses QED via Photosynthesis to put some of the electrons into high energy quantum states. This is how we get energy and life.

2. The Synthetic Drug companies use antiquated outdated reductionism philosophy to assemble and test their drugs. The Fractal Complexity of Nature with its incredible complexity must be revered rather than ignored. The height of IGNORANCE is to ignore nature. An IGNORANCE that makes money.

3. There is no study known that ever shows a synthetic drug completely equivalent to its natural counterpart. The reductionism studies only measure the required variables. They DO NOT measure side effects. Side effects are observed and often only observed years or decades later. The laws and the FDA protect them.

4. Side Effects dominate and proliferate the Synthetic Drug scene. Look at the Physician Drug Reference and see that all drugs have a list often a long list of side effects. This is not natural. Almost Every year over a hundred drugs are removed from the market because they are hurting people. It’s just a matter of time before the hurtful side effects are seen.

5. Our society has now learned conclusively that synthetic foods are incompatible with health. We have now rejected all synthetics and we know that the finest quality comes from the natural. It is the next step of simple human consciousness and thought to see clearly that synthetic drugs are incompatible with the human body.
Next the muscle testers.

Proof of the Sham that Muscle Testing, Applied Kinesiology CAN NOT be used to test your reaction to vitamin or Medications

1. No double blind study has ever shown it valid
2. Where thousands of studies have shown that it is only the therapist affecting and controlling the results.
3. The therapist do not use a constant weight or force
4. When measured, the therapist changes the amount of force greatly.
5. When the therapist does not know what he is testing he cannot get results

Muscle testing to sell nutritional supplements is the biggest con game in the world today

Small minded people are most always selfish people. They do not see past their own needs. They are only concerned with themselves. They do not understand other people having a life unless it pertains to them.

In the case of Desire small minded people in the Quantum community do not care about Desirés freedom to be what she wants to be. Small minded petty people do not care about her making movies to help the world, or writing books to change medicine or her music to inspire people.
Small selfish minds only care about themselves. They see conventionality over freedom.

For small minded people if a man wears a nice suit he can do anything he pleases.
The Story of the Slur against Desiré

Seven to ten per cent of the population is born left handed. The choice of hand preference takes place in the brain in the first year of life. 90% are right handed and some percent is left. We call this cross dominance or preference.

Seven to ten per cent of the population is born with cross gender ideation. They sexually prefer different than the norm. A man might want a man, a woman a woman, a man feels a woman, or a woman feels like a man. The choice of sexual identity takes place in the brain. The choice of sexual identity takes place in the big head not the little head. Our society thinks too much with the little head.

Now 7 to 10 % have this but only 2% live it. That leaves more than 5% of the population suppressing and repressing their feelings. They work a life time to cover up their true feelings from others and themselves. They drive their true feelings down deep, but to ignore a truth is to give it power. In some cases men have to reject all that is female. The latent homosexual might shave his head to remove the female image of hair. They will never ever wear pink, so they wear army colors. Anything even slightly feminine they must run away from. They can become a skin head. Ask a skin head to hold a ladies purse for a second on the street, he would rather die. Ask him to give his friend a kiss on the cheek he would rather die. The social turmoil and fear of humiliation has repressed these feelings deep. So deep that they are most often below the verbal mind, but the lay dormant. When they are touched the person gets angry. And he feels that if he attacks the feminine one he will help to convince his friends and himself that he is not gay. When in fact his over reaction is a tip off to his real latent feelings.

So as they see someone who is comfortable with their cross preference and living their truth they get troubled. All it takes is a simple trigger where part of them sees the inner turmoil and it trigger intense hatred, intense hatred of self but it is turned to intense hatred of the trigger. They then for no real reason or for some trumped up reason hate me. If they slur me then they can repress their feelings.

This inner turmoil they feel is within themselves as that all thoughts are inside one' own head. They try to repress the feelings that have triggered their discomfort. They have spent a lifetime suppressing these feelings. They were scolded by their parents when they let their true persona out. They were tortured by their own friends when the slipped a little feminine manner out. They have struggled to drive their feelings down deep into the unconscious nonverbal cave within. They have lived a lifetime trying to cover up and hide their true identity.

And then there in front of them is Desiré comfortably living her truth. The turmoil inside drives them to suffer and the inner pressure mounts up till they have a choice, face the truth or attack the truth. They want to shoot the messenger of truth me; and they unconsciously make up criticisms of me. Well none of their real criticisms work so they must resort to name calling. They sense something wrong inside themselves but seek to blame it on me. They can’t deal internally they must assail the external.

At 5 plus % of the people repressing, this means that in more than one out of twenty there will be someone driven to attack me out of their own self turmoil. One out of 17 or so will be driven to hide their own mental instability by attacking me.
The Story of the Slur against Desiré

They won’t do so in public because they know that others will see their mental illness. But on the internet they can release their attack. Now there are other false beliefs that I expose that make people attack the messenger of truth. My views on SINthetic drugs, muscle testing, global warming, the war machine etc. but latent homosexual attack is by far the worst. Almost all of those attacking me have real inner issues with personal freedom versus conformity.

So I have poured over the rumors and lies about me. I have spent hours going over the insults, the innuendos, the deceit, and the falsehoods. And I have seen just unsubstantiated fabrications, only vague unclear insinuations. The internet is full of hazy blurred overblown insinuations, no substance. The competitors need this because an open debate is not possible with so much science and experience behind me. It is a tribute to the honor and perfection of my character to have so many people concerned to print lies about me. When all I am doing is being me and I use controversy to teach.
HISTORY OF THE SCIO AND BIOFEEDBACK

THE Angel of God DESIRE SAYS

The World is contained in our Minds... to Change the World we must change the Way We Think

If you want things to be Different then Something Must Change

Repetition is the key to change...

If you need more information on the SCIO and purchase details please get in touch with us:

The Story of the Slur against Desiré

Everything entered the Universe via a Singularity, thus all photons from the Big Bang share a twin commonality.

The Cosmic BG Microwave Radiation photons share all information. These photons tickle the free protons they encounter, thus there is scientific proof for a Collective Unconscious, a Universal Consciousness, the Mind of God...

There are truly powers of the mind and truly a Subspace Connectivity of all things in the Universe.

THE BIBLE SAYS THERE WILL BE 100,000,000 ANGELS AT THE END TO SAVE THE HUMANITY

The Black Hole at the center of the Milky Way will align with the Sun on 20.12.2012, this will pull at the unbalanced Gravity of the Earth.

It could produce a dramatic catastrophe.

If these 100,000,000 Angels can learn to use their power of mind together maybe they can avert the gravity catastrophe, but standing in our way is the Small Minded Scientists who do not have the power of mind to see the power of the mind...

The Angel has come to Save Humanity and lead us to 1,000 years of Peace, Prosperity and Harmony

Her Science and Dedication was so Good they had to attack Her Instead

25
The courage...  
  to be yourself

The courage...  
  to fight convention

The courage...  
  to fight against false beliefs

The Athenian Lawmaker Solon decreed that is should be a law against anyone shrinking from controversy.

In America most have shrunken away and are fearful of controversy. They fear the law, the rich, and humiliation. They are told lies by the government and the puppet media, misled by their educators, and manipulated by the Ultra Rich.

It takes massive courage to oppose and explore controversy and exercise freedom of thought and speech.

Solon would be saddened at today's America. It is time for a change and time for COURAGE.

It's been a tough time to be proud of being an American. I have been prosecuted, persecuted, wronged by rumours, innuendo, and out right lies. They have terminated my passport, and attacked me behind my back.

But still I have faith that there is good in people and that justice and truth will prevail.

I will defeat the small and petty minds and bring hope to the people...

For a true Democracy there should be an opportunity for the people to express themselves on each and every issue.

Not with biased poles, but with active debate and discussion. With today's technology and the Internet we have the ability to have a true democracy and take money and lobbyists out of influence.

New representatives could run and contractually guarantee that the true wishes of the people be done.

Not just the needs of Big Money.

We must take back our country.
As I grew up in a religious family I learned to pray daily and to talk to God and to study the Bible and its foundations. As a young child God told me I was to be integral involved with the Armageddon. (see Angel Book)

I prayed to God to give me the Wisdom of Solomon, he gave me a World of Problems to Solve and Clarity of Mind.

I asked God for Strength, he gave me Resistance to make me Strong.

I asked God for Intellect, he gave me the light of Enthusiasm and the breath of Inspiration.

I asked God for Courage, he gave me Obstacles to Overcome and Hatred and Anger to Defeat.

I asked God for Love, he gave me Suffering People to Help and Troubled Minds to Soothe.

I asked God for Help, he gave me Opportunities to Grow and Opportunities to Help Others.

I did not get what I Wanted... but God gave me what I Needed Day by Day.

Later in the Seminary I was studying to become a Lutheran Pastor when I got the calling from God. He spoke to me and said I want you to re-write Molecular Biology. I said I don’t know what that is. He said don’t worry I show you what to do. I have let God work thru me daily ever since then. It is thru God’s inspiration that the SCIO is made.
The Story of the Slur against Desire

The Sexually Insecure and Latent Homosexual Give Desire the Greatest Resistance
The more the Mental Insecurity the greater the Resistance
The whole brain is dedicated to twisting the truth to defending illegal plugin use and grandizing looney gurus.
I have made a life dedicated to helping people and to get people to get over their clinging to false beliefs that hurt and limit them.

The greatest false belief is that of existence. In 5th grade we are taught that our bodies are made of atoms and atoms are made of protons neutrons in the nucleus and outer electrons far away in energy states in the outer layers of the atoms. The electrons never touch because they repel when they approach each other. So the outer electrons of any item never touch the outer electrons of any other items. So no matter ever touches any other matter. The electrons, protons, atoms, molecules in fact all things have an energetic field around them and this field is what we really are. No one has ever seen or experienced this truth of our existence but we know it is true. We are energetic beings in an energetic world.

As a bio-electrical engineer, licensed diagnostician health care doctor, mathematical genius, and expert in natural medicine, I developed a medical device that would assay the energetic body, and measure and correct problems of voltage, amperage, resistance, hydration, oxidation, and pH. My enormous respect for the law mandated that I properly register the device and did so in 1989. My respect for statistical research drove me to continue research and make the device better every day since.

After 5th grade, Later in school we are taught about photons and how photon from the sun make the electrons in plants go to higher energy states in a process of photosynthesis. Plants can do this, not synthetic chemical companies and from here we get the proof that the SINthetic chemicals are incompatible with the human body. We all know this about our foods. We will not order synthetic foods, or drink synthetic wine we have learned over the years that the chemical companies have tried to make synthetic chemicals compatible with the body and they have failed. If the menu has SINthetic foods on it we will exercise our freedom to choose and not order synthetic chemicals. But the menu at the hospital only has SINthetic chemicals on it. Only patented SINthetic chemicals get funding for research and use in medicine. Natural herbs and plants are not protected by patents and thus no one will invest in the research. Well not no one, I invested in the research on cancer patients in Kiev to test synthetic chemotherapy versus natural chemotherapy. I invested to test natural treatments for AIDS versus SINthetic treatments in Budapest. Both series of studies done in qualified WHO registered medical hospitals. The results confirmed that it is a false belief that synthetic chemicals are better or safer. Our extensive research all over the world now has shown that the natural is much more effective, and vastly incredibly safer. But this false belief of synthetic drugs efficacy and safety makes lots of money.

People with small minds cling to false beliefs and especially when the false beliefs make money. The drug companies ostracized me, they pressured the hospitals and I was removed from further research.

In 1990 the acupuncturists asked me to help register acupuncture needles as medical devices. For free, I wrote a 400 page treatise on the law to make the needles real medical devices not experimental. It is a false belief that acupuncture is not real medicine. Some small minds in the FDA did not want this to happen and they fear all forms of drugless therapies. They trumped up false charges against me. In 1996 judge Maitch the Oklahoma City case judge made the FDA drop the charges. The FDA was angry and continues their vendetta against me. This is chronicled in the true to life movie “Sworn on the Altar”.

People with small minds cling to false beliefs and especially when the false beliefs make money. The drug companies ostracized me, they pressured the hospitals and I was removed from further research.

In 1990 the acupuncturists asked me to help register acupuncture needles as medical devices. For free, I wrote a 400 page treatise on the law to make the needles real medical devices not experimental. It is a false belief that acupuncture is not real medicine. Some small minds in the FDA did not want this to happen and they fear all forms of drugless therapies. They trumped up false charges against me. In 1996 judge Maitch the Oklahoma City case judge made the FDA drop the charges. The FDA was angry and continues their vendetta against me. This is chronicled in the true to life movie “Sworn on the Altar”.
The drug companies tried to kill me as we see in the true to life movie “Water, Wine, Homeopathy”. In breaking up an international pedophile ring in Romania I was tied to a table and they tried again to kill me. This is displayed in the movie “The Greatest Sin 1, 2, 3”. Then when I decided to use my big head and choose my sexuality rather than my little head, I mustered up tremendous courage and made my freedom of choice and put on the dress. The drug companies stopped trying to kill me. It is another false belief that you should let your little head choose your sexual identity.

I prayed to God to give me the Wisdom of Solomon, he gave me major Problems to solve
I asked God for Strength, he gave me Resistance to make me Strong
I asked God for Intellect, he gave me the Light of Enthusiasm and the Breath of Inspiration
I asked God for Courage, he gave me Obstacles to overcome and Hatred and Anger to defeat
I asked God for Love, and he gave me Suffering People to help, he gave me Opportunity to grow and Opportunities to help other
I did not get what I wanted... but God gave me what I needed day by day
Then over the years I was able to prove that muscle testing for remedies was not only invalid it was a complete sham, a fraud, a lie. The muscle testers or point probe users were altering the speed of delivery or the pressure to force the results they wanted. Mostly they used muscle testing to push the client into buying a vitamin or some sort of remedy. Muscle testers laugh when they admit they change the pressure to affect the patient. Now as we all know most of alternative medicine is built on this lie. With no double blind study ever showing that remedy muscle testing is in any way accurate, this lie has reached massive proportions.

Now how would the drug companies ever sell a SINthetic vitamin if the false belief of SINthetics was exposed? Who would ever attend another muscle tester’s lecture if the false belief of it was exposed? Both of these are definite false beliefs. There is no doubt that the synthetic is not the same, there is incredible evidence proving this. And there is no doubt that the muscle testers are changing pressure and using suggestions to sell their remedies. They cannot debate this so they must slander or shoot the messenger of truth rather than have these truths exposed.

The science of electrical reactivity starts with the shark. The shark lives in salt water and he has a powerful well documented electro-sense. The literature knows that the electro-sense of the human is very weak. We have to amplify the electro signal over a million times for us to see human electro reactivity.

All items have an energetic field around them this is 5th grade science. This field is known in science as the Voltammetric field. I patented a 3 dimensional Voltammetric field detector first developed in 1988. With several patents and copyrights I work every day to perfect the system. With hundreds of medical articles in peer reviewed medical journals it is the only scientifically proven way to measure remedy reactivity.

I purchased and procured each item in the matrix and test them for their 10,000 frequency patterns. It is a false belief that a single frequency can define a remedy. Now since this is the only true way to measure reactivity for medication testing the other companies with inaccurate devices often only using words, or pendulums to get results. These companies cannot debate the extensive science. Most of them are not developed by someone with electrical engineering techniques, medical backgrounds, statistics backgrounds, so these companies have to also slander the messenger to protect their sales.

Several Russian devices have been proven complete frauds. There are many charlatans in the alternative industry telling lies to sell and lies about me to distract.

So all of these people use WMD “Weapons of Mass Distraction” to sell. They all have a common goal to stop Desiré from exposing them, stop Desiré from telling the truth. There are conventions of alternative medicine around the world but they will not invite the most published, awarded, significant, charismatic lecturer because as they say Desiré will spoil the party. She will tell us the law and how we break it, she will tell us the science and how we affront it, she will show a system so superior to ours we can’t ever sell another one. So we can’t invite Desiré.

Money seems to be more important than truth. And this is not enough they have to lie about me to distract people from the truth. You see synthetic chemicals are incompatible with the human body. Muscle testing cannot be used to tests remedies. Altering a medical device is a crime. And all of the slander against me does not change this.
The Story of the Slur against Desiré

Muscle Testing Proven a Sham

Kinesiology can test a muscle, but not your reaction to a substance or whether you are lying or not,
I have a standing offer to do a three way phone conversation with any who have a criticism of me in even the smallest detail. I have said this for more than three decades and nobody wants to take their slander to me. Nobody wants to turn on the light of truth.

After authoring and editing over one hundred books, over 120 medical journals, over five patents, thousands of copyrights, developing a accredited medical university, establishing a major ISSN peer reviewed medical journal, being nominated for the Nobel prize for two decades, and a long long list of credentials and accomplishments you would think that someone could find one error other than spelling to really critic me.

The Weapons of Mass Distraction users have said horrendous things of me. They will tell you I am a 9 foot tall black man if you will believe it. They work very hard to make up lies and they try to see just what they might say to distract you. Some of the people are sensitive to sexual identity, so they will tell you I am gay. (Being a hermaphrodite I am not). If you are religious they will tell you I am a heathen, I am not. They will tell you anything but just not on the telephone with me on the line to confirm or dispute. They will do whatever it takes to distract you and keep you away from the truth. And what they fear most is my courageous dedication to truth, freedom of choice, and nature.

I can’t defend myself from the backstabbing if you don’t help me. I can’t defend you the users if you don’t allow me to help you. So please listen to the truth and if you have a question let me know.
1. Quantum Electrodynamics has proven that just putting the atoms such as calcium or copper in it’s place in a compound is not enough.

2. The realization of Fractal and Chaos mathematics has shown us that reductionism has failed as a technique for safety and efficacy of the new drug.

3. Allopathy does not work as a form of medicine.

4. Doctor prescribed drugs are one of the most prolific killers. Over a million die each year from doctor prescribed drugs.

5. The social experiment of synthetic chemistry is over. Synthetics are not compatible with a human.

6. At the very least, in the smallest manner, it should at least be a matter of opinion and a freedom of choice for informed consent for any use of a synthetic medicine.

The Psychology of the Timid and Fearful versus the Warrior Spirit

Please read the two articles supplied with this treatise on Appreciation and Desi vs the Golieths at the end of this chapter and a certificate we just found after the death of my father.

There are incredible variations of human personality. Some fostered by nature (genetics) some fostered by nurture (learned behavior). There is always a mix. There are many issues basic to human I cover these thoroughly in my new book on Psychology. But now just a brief banter

One subject is respect for authority. Some extremists have complete blind faith in authority and they become conservatives. Others have no respect for authority and they become liberal. There are shades of gray in between. The conservatives and liberals can debate any issue but there base belief will make them argue about everything.

Another subject is Purity, Modesty and Innocence. Some will have extreme total respect for purity and they become pedantic prudes. Others have little respect for it and they become over flamboyant exhibitionists.
Another subject is fear. Some extremists have little and they are often the heroes who throw caution to the wind and risk themselves to save others. Some are fearful of everything and cannot defend themselves. On this subject the hero is undaunted by strong noises or forceful words, he steps into the fray. The timid are afraid of any perceived threat of violence and any loud noise can make them cringe in fear.

Most people only hear the tone of a conversation for they are unable to intellectually participate in reality. If they are timid or fearful they do not judge the message but are afraid of the tone when someone speaks forcefully. They can’t react to the message.

Some people are afraid of loss or failure more than others they fear loss and seek to minimize risk. Others are bolder and they fear mediocrity, they try to maximize gain. Often the fearful ones are afraid of big personalities that do too many things. Motivation determines perception. And the fearful cannot see risky behaviors that the bold engage in every day. Albert Einstein said that great spirits get incredible resistance from mediocre minds. This might be what he was talking about.
Another subject is Optimistic versus Pessimistic world View

About half of the population genetically makes enough or more serotonin than needed and they can see the glass as half full. The other half genetically does not make enough serotonin and they see the glass as half empty. This means that in any given political issue there are about fifty percent in favor and fifty percent opposed.

Seven to ten percent of the human population is born left handed. The choice of handedness takes place in the brain, not the hand. All People have both hands, but tend to chose one more frequently. This is called the preference or dominance of hand choice. The choice of handedness takes place in the brain not the hand.

A long time ago people killed left handed people. Not now, for we now know that these people are just different, and even though the bible has many references against the left hander, it is possibly colloquial. We have learned not to fear someone who is different at least not different in handedness.

Seven to ten percent of the human population is born with cross gender feelings or cross sexual preference. The choice of sexual preference takes place in the brain (the big head), not the penis (the little head). All People have both sexual feelings, but tend to chose one more frequently. This is called the preference or dominance of gender choice. There are differences of the female brain and the male brain. Some men are born with a more female brain. Some females are born with a more male brain. It just happens. It is a scientific fact.

Our society today more than ever needs to think with the big head. If you look at marketing and the media we see too much emphasis on the little head. And we all know that the consequences of thinking with the little head seldom turn out well. In the animal world the phenotype differences of hand preference and sexual preference happen in a much smaller percentage, as to be negligible.

It is a fact that 7 to 10 percent of the people are born with cross gender brains. But only two percent of the population expresses this. That means that some 5 to 8 per cent of the population suppresses these feelings. So some 550 million people or one person in 12 is a repressed or latent homosexual. The one who laughs the loudest or says mean things or write obits is most often just trying to divert himself and others from seeing the hidden sexuality.

In places such as Russia, Iran, Turkey, and other repressed societies, the percent of those expressing their emotionality is even much less than the 2%. This is because of the social stigma of non acceptance and it is illegal. Those born with a more emotional and female brain must hold back, repress and suppress their true nature and push their feeling down. They fear humiliation, torture, or death.

These frustrated, suppressed, and repressed latent homosexuals will be most angry, when they see a homosexual they will be incensed. They will be afraid, meaning they will be Phobic, Homophobic. This makes for overreaction. In some this produces drastic over reaction, Even violence.
The Story of the Slur against Desiré

We're Not Hypocrites We're Just Drawn This Way

The Slander of Desire is done by the Greedy Liars

Will No One Help Desire' + Truth

The QCC trivector device passes a changing low level field thru the item and generates a sophisticated picture of the electrical field of the item. It makes a 22x22x22 3D field that means over 10,000 separate frequencies to make one pattern. The shark senses these fields and they are amplified by the salt water. This senses these fields and they are amplified by the salt water. This

Every item has such a field. Living things have a changing reactive field, non-living things have a static field non-changing reactive field. Non-living things have a static field. Non-living things have a static field. We now know that the electro-sense in humans is the surface of the skin and most concentrated in the sense of smell.

So by measuring the Voltammetric electrical field of items and then amplifying the field 10 million times we get to really measure the patient’s reaction to items, really. So by applying a trivector Voltammetric pattern we can measure the response or evoked potential and we see the patient’s reactivity.

So 5 million dollars were spent buying and producing the items in the matrix and testing these items with a patented registered in the matrix and testing these items with a patented. This is why the QCC device technology of modern science. This is why the QCC device technology of modern science. This is why the QCC device technology of modern science.

QCC signatures are at the heart. Real science, real technology, real legal compliance, real items, real results, real honesty and integrity.

In 5th grade we were taught we are made up of atoms made of electrons and protons and neutrons. The electrons in the outer layer are so charged they never touch. We are made of electrical fields.

The QCC is a very advanced patented technology with a CE mark. It measures in a very sophisticated process the Voltammetric electrical field of any item. If you look up voltammetry in Google you see thousands of references for a world recognized very scientific chemical process also referred to as polarography. You can see our patented process at http://www.voltametriaqqc.ro/

Shark Senses
Mary Ann Badawi & Stephanie Parker

Electricity

A shark’s ampullae of Lorenzini are able to feel electric currents at short ranges.

All living things emit a small electrical current, a shark can feel it from 0-8 Hz.

The bonnethead shark has an electroreception that is five million times greater than the electrosensitiveness of humans.

The Story of the Slur against Desiré

The only thing that makes you over react to something is a hidden fault in yourself. The greater the reaction the greater the hidden fear of unleashing your own feelings. Most people are not over annoyed by homosexuals. Most people feel that what consenting adults do is their business. But the emotionally suppressed latent homosexual is driven to anger. Shakespeare said “The lady doth protest to much”. Meaning that an overreaction is the best tip off of a hidden or covered up truth. When people have an irrational fear such as homophobia, the illogical fear drives extra anger. They become secretly and often unconsciously angry at themselves.

The people of the world now know that over reactivity of homophobia is a sign of hidden latent homosexual feelings. After this statement becomes common knowledge people and your friends will be better able to see through your charade. This wisdom will allow people to detect latent homosexuals. Information that might extend to helping them resolve their anger.

Male chauvinistic stupidity and pigheadedness makes homophobic hardheadedness intractable. Homophobia is an irrational fear. What are you afraid of?

There are many traits of diversity. Another is the way to handle attacks. Long ago when a tribe of warriors attacked your village there were two main types of personality defense techniques. The warriors would take up a sword and fight. Their response was quick and their actions of defense increased their ability to live. These were people of action. Others weaker would freeze. Whenever they hear a loud sound or forceful words their reaction is to freeze, they could increase survival by meek passive submission increased their survival because they might survive to be slaves.

So we have incredible diversity of humans. It is wrong to think everyone thinks like you do. There is diversity. I am a female brained person of action, flamboyance, with respect for authority. I am a fighter who works within the system. People say they do not like my outrageous videos. But I ask them what I was saying. They respond they only heard the harsh tone, and they felt fear. I told them that a young gay boy was tied to a tree and killed by latent repressed homosexuals; there was blood in the streets of Europe when latent suppressed homosexuals beat up openly gay people. I tried to tell the story to CNN, SKY and others but the latent homosexuals who work for them do not want to have their cover blown by my story. There is rampant hatred and illogical fear that could easily be dismissed by my story, but the drug companies fear that any exposure of my persona would draw attention to the proof I developed that SINthetic drugs are bad. So my movies, music, stories, books are all held back by a biased press.

People falsely believe that conformity is belonging. They have 2 second attention spans and judge people solely on appearance and outward show. The music has been stripped of intellect, the movies deprived of mental challenge, and the cerebral people have been exiled. Drugs, lust, smoke, and pretty pictures have taken over as our society slips to the stupid side.

The drug companies with the FDA are plotting to make SINthetic drugs standard care. For each disease there will be a drug and the doctor will have to prescribe it and the person will have to take it. To beat the FDA we need to play by their rules to beat the petro-chemical cartel we have to get thru to the media.

People have different talents. Some are softhearted and are best at prayer, some have paperwork skills, some have the talent to talk, to network, some are warriors. In our battle against the ultra rich, Big Sugar, Big Tobacco, Big Pharma etc. we need people of many talents. We can’t do it thru prayer alone, not meditation alone, not paperwork alone, not warrior alone. We need to work together and network. There is strength in numbers.

We must stop them now for they have plans.
The drug companies must tyrannize the minds of the doctors and public. If there is freedom to choose natural medicine their profits are diminished. As Thomas Jefferson once said “I have sworn on the altar of God to oppose any tyranny over the minds of men.”

The drug companies have not proven safety in their vaccines but panic will make the vaccines mandatory. And those who refuse will be put into concentration camps.

Alternative medicine people are prone to suspend disbelief and they can be easily duped into believing most anything. They need to be protected.
One woman writes my video made her feel bad.
The video does not create an emotion, You do, something inside of you reacts.
Most people love the video and reward my courage in making it. Most people get the joke.
At any level only your heart can make the reaction if you have seeds of discontent in your heart
then anything can touch you adversely. This video might touch it and if you are afraid of social
outrage then it might scare you.
If you are over sensitive do not watch Friday the 13, or Freddy Kruger movies, watch what you
watch. I reserve the right to fight for the rights of others too weak to fight for themselves.
Sensitive people cannot take loud noises and might want to not listen to Rock and Roll music and
maybe be selective in choosing what they listen to. People with no sense of humor should not
watch YOU TUBE to begin with.
Small minds will always hate me and they will find any reason.
“Expansive spirits always get opposition from average intellects”
The people who make the difference in this world are not the fearful ones who conform to the
powers that be but the fighters who stand on the bridge and say You will not pass.

I am here to protect those who cannot protect themselves and the drug companies want to force
their drugs on us and I will stand against them not quiver in fear.
Some people are afraid of loss or failure more than others they fear loss and seek to minimize
risk. Others are bolder and they fear mediocrity, they try to maximize gain. Often the fearful ones
are afraid of big personalities that do too many things. Motivation determines perception. And
the fearful cannot see risky behaviors that the bold engage in every day. Albert Einstein said that
“Great spirits get incredible resistance from mediocre minds.”

There are many traits of human diversity. One is the way to handle attacks. Long ago when a tribe
of warriors attacked your village there was two main types of personality defense techniques. The
warriors would take up a sword and fight. Their response was quick and their actions of defense
increased their ability to live. These were people of action. Others weaker would freeze. Whenever
they hear a loud sound or forceful words their reaction is to freeze, they could increase survival by
meek passive submission increased their survival because they might survive to be slaves.
You wish me to conform to your standards of conformity.

So before the Drug companies take us away to be their slaves perhaps the meek fearful ones
should thank the warrior for standing up to the enemy for them rather than berate the warrior
and ask them to speak softly. Each of us have our own ways of handling life challenges, and small
minded people always want to tell others how to react. We should encourage courage, and support
bravery not attack it and criticize it. I am outraged at the injustice and will speak out against it. I
am outraged to the point of being outrageous.

People falsely believe that conformity is belonging. They have 2 second attention spans and judge
people solely on appearance and outward show. The music has been stripped of intellect, the
movies deprived of mental challenge, and the cerebral people have been exiled. Drugs, lust,
smoke, and pretty pictures have taken over as our society slips to the stupid side.

The drug companies with the FDA are plotting to make SINthetic drugs standard care. For each disease there will be a drug and the doctor will have to prescribe it and the person will have to take it.

They are building concentration camps to house those who refuse vaccination, drugs and tobacco are freely allowed to kill millions and they attack me and prevent me from seeing my father who died last year, and my dying mother.

When will the rest of you be outraged? And for those who do not have any outrage in you, I will fight for you whether you like how I do it. I will fight for your rights and when we win nobody will thank me they will still not like my warrior spirit.

Did the villagers thank the Magnificent Seven and include them into their society; do the people appreciate the soldiers who fight for them? Most often not. The Vietnam and desert storm soldiers are often not integrated well into our society.

Often the public does not understand the warrior spirit.

But we need warriors from time to time. Why can’t people find the space in their hearts for me to be me and stop trying to make me different from what I am? What makes one try to control others rather than trying to understand others. If you only like soft quiet people fine it is your choice but don’t try to make everyone else conform to your standards of life. It is a karmic sin.

Someone writes that a person had something crammed up his ass in Vietnam. And my video offends him. Then don’t watch it. Don’t go to the comedy store or rent comedy videos from certain comedians. I can show you hundreds of comedians who tell anal jokes. The movie road trip and American pie have Anal jokes as does the many other movies. And when you write letters to Eddie Murphy, and others let me know. But before you would write such a letter a little voice in your brain would kick in and it would say “what the Fuck is wrong with you, you don’t ask a comedian to change his material because of one unfortunate viewer”. But this little voice is silent when you talk to me.

People are seeing the negative, not the positive. They are playing into certain people’s hands. How can we get the SINthetic drug companies attention with mamby pamby it’s ok message.

Someone ought to draw the line and fight for the rights of people. When he got back from Vietnam many small minded fearful people rejected him saying Oh you are too violent, you fought to protect us but now we object to violence and we will not let you back into our society. Society always rejects the warriors. If someone would say to him, do you want to be in a concentration camp because you refuse vaccination, or would you like to be forced to take risky SINthetic drugs for every disease, or perhaps a warrior might be able to change this? Maybe there was something good coming from your suffering maybe this is the message that wakes up a FDA official. It sounds crazy but just maybe a warriors approach might work and your pain was not in vain. believe me I was tied to a table and they tried to kill me but if that experience would have any positive effect in the tiniest degree then it would make life better.
enough is enough, or would that be too much for the weak stupid conformist who would criticize things no matter what.

Someone writes to me

One of the main reasons that people do not want to upgrade to the new software is that the person in that very violent video is the person that has written the new software and as Tatiana mentioned that is the energy that is coming into our computers through the new software. We want to use the older versions of software before Desiré's energy shifted and while Bill Nelson was still present.

Response to this disturbed quote

I wrote the original software I have been Desiré for over 15 years now I wrote the whole software, every line of it in high heels, if that bothers you, you are seriously disturbed. In fact the 2006 version I specifically wrote while wearing white lingerie and pink 5in heel pumps. If reading this bothers you, look inside. What is wrong with you? I met Ildiko 16 years ago and became Desiré shortly thereafter and then I started on the Clasp software. Has Nobody heard me lecture about my meeting Ildiko and the "let’s go shopping line". I met her over 15 years ago. So now that this excuse is absolutely removed, what is your next excuse?

As to the video

The video is an expression of outrage not violence, it is protest not brutality, and it is a message and a wakeup call. It is comedy I have modified and borrowed from Sam Kinison. It’s comedy with a message. I apologize for being a good actor and scaring your children and the childish minds.

If you think the video makes your software less you have severe mental problems most probably repressed latent homosexual fear of self or an ulterior motive

My name is Desiré and I wrote the whole software using the scientific male and the intuitive female energies, that is how the software works, a true mixture of ZEN, NLP, Behavioral medicine, Homeopathy, Electro-acupuncture, Herbology, EEG, ECG, EMG, GSR, MCES, MTENS, TVEP, and much much more. All written with the inspiration of God as he works thru me, Both old and new software are all written with prayer and pious devotion. God did not care what clothes I wore. He gave me an extra chromosome and I am part man and women. Only when I fully tapped both sides with Ildiko’s help could this software have been written with the inspiration of God. Since I am both sexes (technically hermaphrodite) your homosexual fears do not apply.

Whoever I sleep with is my concern but I am not homosexual. Stop using this as an excuse to not upgrade your software.

Jesus knocked over the tables in the temple when he protested against the money makers. There is a time for protest. David smote Goliath to save his people. Preachers shake tier fists and scream at the congregation. The Bible has many more examples of the fact that we must stand up and fight for our rights. Believe me God wants you to knock over a table or two now and then. There is a time for all things under heaven. I don’t do such violence as Jesus did, but God my heavenly father inspired me to make a noise of protest that would draw attention to causes and just maybe be the catalyst that brings some tiny ray of light to the world. He gave me a warrior’s spirit and a will to defend the weak even if they are overly timid and fearful. The word angel comes from the
Greek word for messenger. An angel is a messenger and sometimes the message comes from a vengeful angel. Several of the angels in the bible make expressions of outrage.

Right now there are vastly more positive comments posted to the video than negative. 90% of the comments are thank you for helping and saying what we all want to say but we were afraid to say. The thank you (now I understand comments) are vast in numbers. There are some comments from deranged homophobes threatening my life and family with very very disturbing remarks. The video touches homophobes very deeply and provokes them to anger. As you can all see. I also make the weak and timid people cringe as that they are over sensitive to forceful language.

Several people commented that the video was like a preacher from his pulpit that shakes his fist on Sunday morning to wake up the congregation and make them think. Many people were awakened by the message. The video is designed to draw attention to the message. It is comedic entertainment with a message. At least that what most people say. Some compare me to Don Rickles, or Richard Pryor. Many love the humor.

Now someone is using this video as an excuse to cover up a crime, the adulteration of the software is a crime in the FDA eyes, and when the FDA confiscates your system and freezes your bank account perhaps the you will feel some outrage and perhaps then you will raise your voice in protest, but some of you will not even then, some people will just freeze like a deer in the headlights. Some of you are warriors like me and might want to stop being distracted by this video distraction made up by the criminals who still do not want to cooperate with me in helping to save the users of the plugins from harm. No one is putting pressure on them, they have accomplished their distraction.

The Sugar coated message is part of my comedy routine that I borrowed from Sam Kinison the comedian. Watch his videos on the web and see the similarity, please. I have used the sugar coated message bit in over 15 of my movies as a running comedy gag and as an expression of creative protest. These movies have won awards at film festivals around the world.

Warriors must knock over a few tables of the money makers from time to time. Since now less than one percent of American owns almost 90% of the wealth, there are some big tables. How could 90% of the people get appreciation and positive feelings from the video? Easy they actually got the comedy, the message and actually listened to the significance. The others trembled in fear and quivered as they missed all meaning and People should be more concerned about the enemy rather than the warriors defending you. And the video in question has been posted by an outside agency and cannot be removed. And even if they did others will repost it because there are those who know it will help change the world.

There are several sad sad things happening. But by far the Most sad is the fact that not one of you protesting the video has ever mentioned a word about what I was saying. Not one of you heard a word I was speaking. Not one heart was touched by the injustices, the killing, and the ludicrous and senseless continued prejudice. Not one of you has ever said a word about the content, you are all just mindless timid rabbits afraid that someone will not conform, that someone will knock over a table. Afraid that maybe there is someone free from conformity. Does not one of you really care? Not one of you even mentions the subject matter. Does not one of you have an intellect to debate the content, to express an opinion, to do anything more than whine because some raises his voice in protest? Not one. SAD SAD SAD. I feel sorry for you to live in a world where you have no intelligent interaction with your environment and are just responding to emotional banter. This is what the ultra rich want. Mindless people never concerned with protest or change, more concerned with conformity and how to buy the next item, how to live in a little illusion world and not see what is truly happening around you.
Can’t any of you take off the blinders long enough to see that the message is a joke meant as
diligent spiritual protest to knock over the tables of the ultra rich controlled media.

Can’t one of you send a comment on that without trying to change me?
Can’t any of you see that there is a problem with an adulterated software that could not only
dramatically hurt some users but hurt the entire industry as well.
Can’t any of you put pressure on the software adulterer to cooperate and simply fix this quickly
and once and for all.
Not one, Sad So Sad So exceedingly incredibly Sad.
Anyone who thinks that the comedy of my creative protest weakens the software is disturbed,
seriously disturbed. Is there not one warrior among you to stand with me? Well sometimes a
warrior must fight alone. Is no one going to help the adulterated software users defend themselves
from FDA confiscation or worse?
If I am the only one with the intellect and the spirit to help then so be it. I will try to help in any
fashion I can. I am what I am and I am a Warrior with a message. Can’t someone get the message?
Now why is David not cooperating? Think now. Think carefully, why does he not want to help
protect the users? It is simple, free, quick, easy and it will bring out the TRUTH.
Ah, now you know why.

Samuel Buri “Sam” Kinison (December 8, 1953 – April 10, 1992) was an American stand-up
comedian and actor. Kinison was known for his intense, harsh humor. A former revival-style
preacher, he performed stand-up routines that were most often characterized by an intense style,
similar to revival preachers, punctuated by his trademark scream. Sam Kinison once said “Dying is
Easy, Comedy is Hard”.
At the end he was driving to work and a car hit his. He got up and staggered from the severe
accident. His brother and the others begged him to lie down and he did with his best friend, Carl
LaBove, who had been in the following van. Holding his head in his hands, Carl said at first it looked
like there were no serious injuries to Kinison, but within minutes he suddenly said to someone
nobody else could see “I don’t want to die. I don’t want to die.”
LaBove later said “It was as if he was having a conversation, talking to some unseen somebody
else” some unseen person. Then there was a pause as if Kinison was listening to the other person
speak. Then he asked “But why?” and after another pause LaBove heard him clearly say: “Okay,
Okay, Okay.” LaBove said: “The last ‘Okay’ was so soft and at peace...Whatever voice was talking to
him gave him the right answer and he just relaxed with it. He said it so sweet, like he was talking
to someone he loved.” Kinison then lost consciousness.
Efforts to resuscitate him failed.
Kinison died at the scene from internal injuries. He was just thirty eight years old.
The Story of the Slur against Desiré

Fornication Under Control of the KING

The king of England once took such liberties with his people that he said that the first sex of marriage was to be the right of the king to have. We see this in Charlton Heston’s movie Warlock and in the movie “Brave Heart” by Mel Gibson. This was also called the right of “Prima Notre”. The king said the Fornication is Under the Control of the KING. It is a sad truth that the king thought he could plant his seed to the people and take away the most valuable thing in life. This was the greatest insult imaginable. Such a large unbelievable insult to the people that the powers of authority have spent large efforts to cover up this story. This ludicrous instance of power by the king started people to realize that the power that govern us must not be allowed to have ultimate control. These powers of authority can be abused. The people saw they were being abused horribly and they coined a word for this abuse. They took the letters for an acronym “Fornication is Under the Control of the KING” and they called it FUCK. Whenever the authorities exceed logic and reason we say we get fucked.

As William Wallace said they can take away our wives, but they’ll never take away our freedom. He coined the word Fuck.
is also a tribute of how certain people can be lead to do things. Fuck is an offensive word not to religion or God but to the powers of authority that sometimes abuse their power.

About 30% of the people develop blind obedience to authority; it is in their nature to do so. They become conservative. Some 30% of the people develop total mistrust of authority they become liberal. The basic foundations of their belief make it impossible to communicate, so they always argue. There are always enough blindly obeying conservatives to keep even stupid authority people in power. The middle 30 plus % know we need governmental organization and sometimes the powers go too far. We need powers of authority but we must have constant vigil and never trust blindly.

When David Frost asked me to make a movie about the “Story Of” a rock and roll band called Fuck, I jumped at the chance. But only if I could play one of the lead parts and if I could get this story of FUCK into the movie. We got several good English actors into it and I spent over 3 million dollars on the project. But my controversial stand on drugs and the story of the insult to authority has made it impossible to sell the movie. At least so far that is.

And if you want to express your disdain for authority yell with me FUCK.

The following is from the angel book.

---

**SUGAR COATED MESSAGE**

_for the WORLD and ALL OF YOU_

They say that the Tone you talk at is more important than the Message. 70% of what people hear is just Tone.

A Thoughtful Message of Tact and Diplomacy. With Careful Attention to be Serene, Smooth and Graceful.

_Because this is the most Important Message the World has ever Heard._

---

In olden days there were two main ways to react to an attack on your village. The women and children would freeze and increase their chances of survival. If they did not fight back they might be taken as slaves. The warrior would attack back. The men took up a sword and increased their chances of survival by fighting. A modification of flight or fight to freeze fast or battle back. There are the two major defense mechanisms when attacked. Most are like sheep and dislike or even fear any confrontation. They panic and cringe in terror even if there is just a loud tone of voice. When they hear a loud tone of voice they freeze like a deer in the headlights. Others feel outrage at injustice and take a warrior stance and a warrior tone. The small minds and the Ultra Rich use this to manipulate the masses, but before we are all lead into their slavery maybe some will respect the warriors sense of outrage. The Angel is an outrageous warrior and expresses outrage to defend intellect, freedom, equality and the children. This is a time where we need warriors not sheep, outrage not timid fear, courage not subservienceness.
The Story of the Slur against Desiré

Muso Kokushi once said when the pupil is ready, a master will appear.

The bond of a student master relationship is a sacred one and the student should call the master Master. But for a person to push the moniker master elsewhere shows a delusion of grandeur. In all of the literature Master is used by students who have chosen him. In the case of david he appears to want to convey that his martial art skills give him a particular spirituality competence that I don’t see. So it is an insult to the rest of us who do not see him as a master to be asked to use this term. Stuart Lachs writes the following we paraphrased:

Our fictional master is defined by simplicity, innocence, and lack of self-interest or desire. The master is said to be a person whose actions flow solely out of compassion for other sentient beings. He is imputed to possess a timeless and trans-cultural wisdom, the ability to see the truth behind appearances and to have the prerogative to speak expertly on all subjects. In fact, he is taken to be last in an unbroken chain of enlightened, unblemished masters reputedly going back 2500 years to the historical Sakyamuni Buddha. But, this portrait can only exist if we ignore the irritating complexity and contradictions of actual lives and real history. The master, as in this myth supposedly, is beyond the understanding of ordinary people because he always acts from the enlightened mind. Unfortunately, they have found the myth without recognizing it for what it is. What they really have found, all too often, is another story of ordinary, flawed human behavior. However, imputing qualities and attainments to people that do not really possess them usually has consequences. These consequences, including psychological, financial and sexual exploitation, will likely be heightened when the context is one of extreme hierarchy.

It also makes the master into a disingenuous role player, alienated in Peter L. Berger’s sense. In viewing how this spiritual dynamic plays out in America, please keep in mind that no living master need ever make claims for his own attainment. Rather, this is done by holding up the great attainment of his teacher and his teacher’s hallowed line of ancestors. It is never necessary for any particular master to make claims concerning his/her own level of perfection. The Zen institution does it for him by repeating the claim in the form of stories, koans, rituals,… An environment is created that predisposes both students and masters to act in certain ways. In the end, both fall prey to these fantasies. Paraphrased and excerpted from an article by Stuart Lachs

Tzu-kung said: “The Master learns it by his warmth and honesty, by politeness, modesty, and yielding. The way that the Master asks is unlike other men’s asking.”

When david wrote an obit for me it was proof that he does not have the spirituality to be a true master for spiritual guidance. The incredible backbiting slur against me then also proved that when he did not step in and defend some truth that there was indeed some kind of non-spiritual exploitation going on. Namely there was income derived from the sale of an illegal adulteration of a medical device.

We have given him two official cease and desist notices and a plea for cooperation and it has gone un-responsive. As Confucius once said; “To guide a land of a thousand chariots, honor business, be true and sparing, love the people, and time thy claims upon them.” And “The Wise man, on coming to a country, learns all about the government: he asks what is correct, and he learns how to be correct”. Jesus said “give unto Caesar the tribute need for Caesar”. This is my base dictum to always be correct and very straightforward in all things, our friend david appears to consider
himself above the law.

But the Bible says “Do not slander a master to his servant, or he will curse you, and you will pay for it. Proverbs 30

So when I say anything bad about david his servants hate me for it. For this I apologize, but we must all now listen closely to be advised on how to proceed and protect yourself. We will give one more legal plea for cease and desist and cooperation and if there is any way you might be able help wake up david please try. But it appears that exposure of the truth will be harmful to his ego for he has stated lies about the system he fears exposure of. So what we are faced with is simple fear for david’s ego.

If the cease and desist is unheeded, we are required by law to inform the FDA authorities. They will then launch an investigation into the illegal plugin adulteration. This would take about 6 months or more to organize but it must be done. They could confiscate any device with the plugin and in their investigation they could impound anything else they find suspicious. To stop this first update your software in your main computer, and keep the plugin in another. If you find it valuable send it to me for me to integrate it into the device legally. I would be happy to do so. I have tried to get david to work with me and maybe one of you could do what he is unwilling to do.

Write a letter to us that once you became aware of the illegality of an adulterated software plugin you stopped its use and also write to david asking for your money back. I doubt you get it but this is the only way to stop and FDA investigation of you home and or office. These two letters and a clean computer to show and you will be protected. You will be asked if you sent the letters so send them. And this should protect you. If you do these two things you will be able to get yourself out of harm’s way. As for the 2006 activation here is a conversation I had with heiko I am willing to help anyone heiko in blue desi in black

Ok we are not going to continue playing this game. You either meant what you said and would help all practitioners and activate old code. I will help ALL practitioners I mean ALL practitioners with the best personal attention to each case. As I have said I would, this is the best way to help anyone, if any will explain to me their device history, play ethically, tell me what operative system they use, and openly communicate with me their request for activation of whatever they need including the 2006 will be honored on an individual basis, as of yet after over a month of hearing about this none have stepped forward. Of course I mean what I say I am a very ethical and straightforward person with impeccable honor.

You simply can tell Quantum Alliance it is fine to activate old code for registered practitioners. There is no legal issue if they were delivered before the import alert. I cannot do that QA has been given a cease and desist for legal reasons and they are men of honor and won’t disobey it

That’s the way the system was and that’s the way to do it. If you aren’t ready to do that it just proves that this is all meaningless rhetoric and you still are not responding to the request that 97% of the users want the ability to have their code activated by calling support. Just like they were told when they bought them.

I am willing to help any who need help. I have told you this five times now and still you resist. and your slur of me is not only offensive is malicious as I have said if any will step forward and communicate with me directly I will help them. It appears you have an ulterior motive for this 2006 version.

That’s it. It is that simple. All you have to do is advise QA that is OK with you to activate code for SCIOS that are registered. No it is very very simple just tell anyone who has a problem to openly step forward and ask me to help, what is wrong with you. I am saying yes, what is the matter with you. If you want a loving and supportive user group then give them the ability to activate their code, and then they will have a reason to respect you.

This slur of me after my reply is ludicrous and malicious, I must act within the law and with honor. You ask me to not be honorable. If you won’t do that, then the light of truth shines on your lie, and I won’t keep engaging you.

What lie do you infer. I have not told a lie about anything. I will turn on the lights and help any who ask for help and the truth is none are asking me for help. You would not know what truth was if it bit you on the ass. It seems you are the one who is lying or a least hiding something.
There are Basic Modules of Human Instinctual Innate Morality - The incredible Bio-Diversity of Humans

People have human instincts in several areas. But there is incredible biodiversity in the amount of these instincts people have. People vary. There are extremists on both poles of every issue of morality. Some are excessively free, some are excessively controlled. People develop a level of morality in each of the following moral topics. The choice of level they choose comes from a mixture of nature and nurture. So there is an inborn tendency towards a preference and of course we are taught ways of being from our parents and others.

Everybody has inborn innate instincts in these areas:

1. To Care for self and others / not Harm self or others
2. Right vs. Wrong- (do not cause suffering to others)
3. Loyalty to Tribes -- (Innate need to cheer for the Home team or to belong to the home team, national pride)
4. Respect for Authority-- (taught to obey our parents, we then need to have a set of rules and a set of authorities to enforce these rules)
5. Purity -- (we all have some respect for and we are endeared to Purity, Innocence, Modesty, and Virtue versus risk takers, provocative people, exhibitionists, rebellious daredevils, or over sexed maniacs )
6. Juxtaposition - Laughter, Genius, a need for an altered state of consciousness or a release from the standard (Laughter is a way to see someone downgraded and release tension. The best sign of mental health is to be able to laugh at one’s self. Laughter and Genius are just ways to see things differently. There is a need to be able to sometimes shift consciousness. Everyone can laugh and juxtaposition some do it quite often and are funny people others do it quite un-often are we call them sticks in the mud)
7. Fear versus Vision— Some people are afraid of loss or failure more than others they fear loss and seek to minimize risk. Others are bolder and they fear mediocrity, they try to maximize gain. Often the fearful ones are afraid of big personalities that do too many things. Motivation determines perception. And the fearful cannot see risky behaviors that the bold engage in every day. Albert Einstein said that great spirits get incredible resistance from mediocre minds. This might be what he was talking about.
8. Optimistic versus Pessimistic

All except psychopaths agree on 1+2, liberals more on 1+2 while much less on 3,4+5. Conservatives more on 3,4,5. Liberals develop little respect for respect for authority and purity. They tend to always feel that the authorities are wrong. This is a mistake. A compassion professional authority is needed. Conservatives have excess respect for authority and purity. Conservatives have a hard time believing that the authorities could be corrupt. Sometimes they follow the authorities of their tribe blindly. Liberals and conservatives often differ on point 7.

Liberals like laughter especially at the expense of the authority figure. Conservatives have less of a sense of humor, especially at the expense of the authority figure. All of this points to the fact that there is a great amount of bio-diversity in humans. This gives us all kinds.

Some humans are born with no level of morals; some are made into a deficiency by the pains of life. These immoral people are the psychopaths governed by their reptilian brains. When such a person can mask his lack of compassion well enough to be elected then our society is in trouble, but conservatives will support him anyway.

What has happened is that there is truly a compassionate professional competent authority. So the liberals need to gain respect, while always keeping an eye on the authorities. Conservatives must all agree that vigil is always needed to manage the authorities. However there is a corruption of a few from greed, anger, arrogance or delusion of false beliefs that has indeed compromised the authorities. Liberals and conservative must join to end the corruption and expose the psychopaths. Behind it all is the problem of mankind.
These eight common moralities of humans are the core of social morality. There is a great amount of variance in the amount of moral issues we all have. Some people will use these morals against us. They will manipulate greed, tribal clinging, xenophobia, fear, anger and manipulate our false beliefs. It is a constant vigil to protect our human rights.

To do any of the above eight tasks we need to make judgments.

We all need to teach our children how to judge things. They need to be taught what to eat want not to eat. For the most basic above modalities #1, #2 to live and right versus wrong our children must be taught to judge. We have to teach our children not to eat off of the floor and just put anything into the mouth. As they grow older we want them to learn to not be over judgmental. We try to teach them to be free and make their own choices so they can live free on their own. It is a balance point of freedom versus conformity. Everyone has their own line of taste.

We need to teach them to judge things. We all have an inbuilt sense of purity and we try to cultivate it in our children. The instinct of virtue, purity covered #5 is of importance to protect our children. We teach them about being sexually pure to get and keep a good mate and increase the chances of happiness.

We try to teach them not to go away with strangers. We try to teach them how to pick good friends not bad ones. We try to instill good values and good family values. They should learn to love their neighbor as themselves, and the golden rule. Do not unto others what you do not want done to you. And first they need to love themselves and this is very often overlooked. Everything is a balance act. Too much or too little is a problem. As Benjamin Franklin once said “moderation in all things” and the Buddha said take the middle path.

We are all sexual beings and many like Freud said that our sexuality is the guiding factor. I don’t believe it is the top factor but it is in the top five or at least the top ten for most of us.

We try to teach our female children to not be too sexual. We tell them the dangers of how a bad reputation will harm their chances of finding a mate. We scare them with the reality of sexually transmitted disease. As their sexuality blossoms we are terrified with the risks of going too far.

In the Mid East the fear of overt sexuality having deleterious effects on men is controlled by covering up the women. Her sexuality is a danger and a distraction so they cover it up and remove it from sight. To us it seems over reactive but to them a way of life. Women are often mutilated and their clitoris removed or disfigured to stop them from wanting sex and prevent the risk of hurting a man. This is an extreme position on topic number 5, Purity.

The opposite extreme is promiscuity. Too open sexuality creates many dangers for individuality and for our society. God destroyed Sodom and Gomorrah for being too extreme in this area. And until today anal sex is called Sodomy. Balance and moderation are the keys. Younger and younger children are having sex and our society is pushing to the limits of extreme again.
Others are meek and timid.

Everyone has the right to be what they want to be. This is what we call a free society. Everyone has the right of expression to criticize others and try to get others to see their side. Our society draws the line at hurting people. We should not do things too extreme and we should never put another at risk or cause undo suffering. Sexual paintings or provocative art should not be pushed onto people but the factors of free choice are to be considered. So our society recognizes that it cannot get rid of or dismiss porn but it should be available to adults who consent to its use.

So with this in mind my books on health and life that have excessive nudity and provocative sexuality will be marked so for freedom of choice and an alternative book made when possible. The programmed inhibitions our parents teach us are almost always excessively reserved. Our parent over teach to protect us, but then we gradually soften our inhibitions with the help of our friends and we grow up. Until we can get over Programmed Inhibition about sexuality instilled at an early age we do not really grow up. Life is broadening and challenging beliefs and finding out that some of our beliefs are false. False beliefs need changing. It is a false belief that your sexual identity is best chosen by your penis or lack of it. Your sexual identity is a choice made in the brain. A choice best made after the age of 20. The brain has two parts of right and left and the corpus callosum that connects them is the largest set of nerve fibers in the body. It does not fully myelinate or become totally functional till you are past 20. Till then you cannot completely know yourself and should not make a life choice of sexual ID or of life Vocation. And still either is a choice that can change throughout life. Small minds hate choice. Larger minds encourage and defend choice.
The Story of the Slur against Desiré

Extremism is the problem. We need to be considerate of others and work together.

The SCIO device can use the Trivector and Cybernetic Loop to rectify aberrant and disharmonious energy patterns in the body. This has profound effects on all body functions but affects the corpus callosum most intensely.

This means that the ability of the conscious verbal mind to relate to the subconscious is increased with the rectification process. The patient will probably not feel the effect. There will always be a positive effect. If there is a negative effect, it is because there is shielded or covert feelings or memories in the subconscious. These will cause disease if left untreated. A simple release may solve the problem.

The changes include:

1. Activate the innate intelligence to balance the body energies. This is the basis of chiropractic, acupuncture, and osteopathy medicine.
2. There is an easier exchange of energy and information from right brain to left brain via the corpus callosum. The corpus callosum is the largest energy form in the body and the rectification process has profound effects on it so dramatically reduces switching phenomena.
3. The SCIO thereby increases the ability of the conscious to interface with the unconscious. This allows greater knowledge of self and of the higher self.
4. There is a greater memory access, a more true access of memory without emotional clouding.
5. There is a greater flexibility of connective tissue, allowing for more resilience.
6. There is a greater oxygenation and hydration ability of the body.
7. There is a smoother muscle control.
8. There is a general increase in well being that the conscious mind is so often unable to perceive. And thus there are thousands of subtle improvements to be found.
When I say together I mean to work for the better good.

The rational was why can a man show his nipples and not a women, if people are looking a Bill what is the problem for a man to show his nipples, if they see Desire it is art and camp. A man's nipples are just as erogenous as a woman's.

Nipple fear is a sexist discrimination and maltreatment of women. The public fear about them is that a sexually insecure person or the mentally unstable person would not know how to handle them and might lose control. So they should not be shown in public where a mentally unstable or sexual insecure person on the street could see them. In a book, if you don’t like it you put it down. Most places have restraints on the public but not in books.

Pornography is defined as:

The representation in books, magazines, photographs, films, and other media of scenes of sexual behavior that are erotic or lewd and are designed to arouse sexual interest. There are many grey areas. The material that clearly is sexually explicit in many contexts today: in particular, is audio, written or visual representations of sexual acts (e.g., sexual intercourse, oral sex) and exposed body parts (e.g., the vagina, anus and penis-especially the erect penis).

Obscenity is defined best by the legal Roth test for obscenity is "whether to the average person, applying contemporary community standards, the dominant theme of the material taken as a whole appeals to a prurient [lewd or lustful] interest. Since now by law it is illegal to discriminate against people for their sexual orientation, it is illegal to apply a standard to a transsexual different from a woman."

The law in California says that you cannot show your nipples in public, I do not do this, I always obey the law. But in a text book on a subject involving biology or art, it is allowed; the Book shop is full of art books with nipples, full of photo models in sexy pose, all sold in the book stores freely.

Statues of the Bible King David show his dick. Greek and Roman statues show nipples, and nobody freaks, unless you are really mentally unstable and sexually insecure.

How do you know someone is sexually insecure?

Well you can’t ask them, they don’t know they have a problem. The problem of sexual insecurity is always unconscious.

There is a key way to find out.

If they freak out about my pictures then they are sexually insecure and mentally unstable at some level that they themselves do not perceive. It is a test. It is not the purpose of the my pictures to illicit sexual interest but to illicit thinking and to provoke thought.

My books are designed to free the mind and get people to confront their own key issues, the clinging to false beliefs, it is a false belief that there is a law prohibiting my nipples from being in a book. The level of uncomfortableness the pictures generate is correlated to the level of sexual insecurity. The more sexually insecure the person the more uncomfortable they feel.

The sexual secure mind is mildly entertained and aroused to a state of higher learning and memory retention. A repressed mind cannot grow to maturity, it is held back by fear and false beliefs. Sexual insecurity blocks growth and diverts and distracts the intellect. Till people overcome their inner fears and become less judgmental they cannot reach their true intellectual capacity. My new book on super-learning addresses this issue.

You just gave me a good idea; I will make all of my books into two issues. One for the mentally competent adult mind and one for the sexually insecure and mentally irregular people.

This way people could choose if they can handle the sight of my nipples or not. I believe in freedom of choice and I believe in mental and spiritual growth. This way there is both worlds.

I am a leader in the ways of freedom, truth and the growth of intellect. How can I be a leader on these topics and hide and lie and not be free. By being provocative I get people to think. You ask why I am not concerned with other people ideas.
It is more important to be concerned with how you see yourself and less concerned with how others see you. You must have a balance, but slightly more about how you see yourself. If you go through life worrying more about how others see you than how you see yourself, then you will have great trouble and sorrow.

What I do is because as a 60 yr old fat man who has found new life as a super-model, TV and movie star, and niteclub entertainer, I am an example of freedom. I am not a role model. In fact I do not want others to be like me. If my daughter age 26 did this I would sit her down and talk to her. My son of 12 and I talk about this all of the time. I tell them this is a personal choice I made after the age of 45. After I became the boss and did not have to answer to anyone. And still I discourage them from being flamboyant. They give me unconditional support and unconditional love. They respect my choice and defend my choice. If they chose to be flamboyant I would talk to them consult with them try to tell them not to because if you do sexually insecure persons will write you on the internet and harass you. But whatever they chose I will support, defend, and love them unconditionally. I would never deprive them of support, understanding or love.

You write that no celebrity ever goes topless. When I type in topless celebrities into Google a long list of most everyone comes up.

http://www.metacafe.com/watch/230396/madonna_x/
http://www.ministryofskin.com/

She markets a drugless electrical device and the internet abounds with her nude photos. A friend of mine works with the Life wave system and when I asked him how they deal with comments about her naked photos he said advertisement is advertisement, press is press. We simply say what does her private life have to do with the device see how well it works. Then they sell them. He said truth is truth. If you hide it people sense you’re hiding something and they don’t buy.

The difference with our organization is stupid whiny assholes run and hide and avoid the truth. They cower in fear and they want to hide and twist. People sense it and they don’t buy. In light of our discussion I will make everybody happy. I will make all of my books in two types one for mature adults and one for the children and the FEEBLE minded. You know the stupid, quivering in fear, asinine. Idiots that criticize and condemn everyone, but at home parade around in garters and nipple open bras. There was an ex-president of Lithuania who was one of the most ardent persecutors of homosexuals ever to live. Arthur my friend tells me of horror stories of his persecution of gays. He was found dead last month at home wearing stiletto high heels, fish net hose, garters, and a negligee. The hypocrite was masturbating and had a heart attack. J. Edgar Hoover the founder of the FBI was a cross dresser. A man who rose to power by attacking gays was secretly dealing with repressed energy.
History is full of such examples of repressed hypocrites attacking others to divert attention from their own feelings.

Yes the FEEBLE minded books would give people a choice, but there is a problem. There are people with such incredible sexual insecurity that they will not just want a choice. There are stupid hypocritical bigoted extremist who do not want a choice they will not want any such books to ever exist. These disgusting bigots, these disturbing pedantic prudes, these sexually insecure feeble minded judgmental fools, will want to stop growth and freedom at every level.

So intense is their sexual insecurity, so extremely powerful their fear of themselves confronting something that could trigger them to face their own issues that these nauseating sickos want to control everything. They fear freedom like snails fear salt. They are frightened by anyone who has a great spirit and has transcended past stupid social rules. The fact that there even is one chick with a dick makes it impossible for them to sleep. Their own insecurity drives them to writhe and twist, to lie and trick, they will do anything rather than deal with their own problems.

These sick twisted prejudice souls can’t see their own problem of repressed sexual identity so they focus on the ones they see. We cannot let them determine our actions. This is what they want to control us by writing stupid e-mails, diverting attention from truth, writing obituaries for people they could not hope or aspire to ever be like. These are little petty minds. If they stood on top of the highest mountain they would still be too little to touch the boots of a great spirit. You know the types that just can’t let go of the fact that my tits have nothing to do with the quantum biofeedback device.

We cannot let such feeble minded petty immature people control us. These insecure people feel compelled to be in control and they are the ones who take the jobs in the regulatory industry. They tell everyone around them what to do and when to do it. You all know such immature control freaks. They seek power over others to compensate for the lack of power over themselves. They fear freedom of choice. They fear freedom. They want everyone to suffer like they do and everyone to conform to their ways of tormented anguish.

Here is the problem we have let these people attempt to take control of our businesses. Every time you struggle with freedom you let these people come closer to the control and the destruction of what is a powerful help for our society. We must be constant in our vigil for truth and honor. We must never give in the small feeble minds. We must deal with them with what they fear most. They fear freedom, they fear truth, they fear exposure in any fashion. They fear a conference call to make their silly accusations to my face. The mere thought of talking to me makes a puddle in their seat. To help them we must expose all and tell the truth even when it is slightly provocative. Lying in the tiniest detail or hiding a comma is not the way forward. The way forward is open hearted truth.

I will make two books for mature people and for the FEEBLE minded. For the feeble minded people I will cover up my nipples. And if that does not satisfy you well for the first time ask yourself why you don’t like people to be free. This won’t end it for these small minded tortured latent repressed sexual insecure people can never face themselves. They will always backbite, slander, and try to pull down great spirits.

They will perpetually wince and use petty smears and slurs with all of the backstabbing machinations the mind can develop to avoid making themselves better when they think they make themselves better by trying to take others down. Our vigil against such attacks must be constantly ready to openly and honestly get to the bottom of every concern and to bring such concerns into the daylight for people to see. But when the concerns of the device are from the fear of my tits, then our vigil must be able to see the troubled repressed sexual insecure person behind the comments and to help him to grow and get the help he truly needs.

The idea is that any photo does not affect the device
Shooting the messenger does not destroy the message,
Judging the teacher does not destroy the teaching
The idea is so what she has tits, What’s the point
The Idea is that you will quickly defend, protect and explain Suzanne Somers
But you only attack and criticize me
Americans Live in Fear of Humiliation

In America the number one fear is not of death but of public speaking or of being humiliated. Homophobia is an irrational fear. What are you afraid of? Answer only humiliation, you are afraid people will think you are homosexual if you talk to one. For many Homophobia is more important than anything. The fear they have over being associated and thus humiliated is greater than any other emotion. For some men you could put gasoline on their children. Ask them to carry a woman’s purse on the street or you will light the kids on fire and for some men the irrational rear of homophobia and humiliation they associate with it and some men will say goodbye kids. The fear is not homophobia. The homosexual will not hurt you or pillage your village. Perhaps he will redecorate your village but not hurt you.

The fear is being humiliated by someone thinking you are homosexual. Thus sexual insecurity, discrimination, illegal bias, false beliefs become a way of life.

There is the belief that homosexuals are less in some way than others. The intellectual people have seen that this is not true, and laws have been past to stop the hurtful discrimination. Laws are designed to end this foolishness. But the false belief that homosexuals are inferior persists, when just the opposite is true. Some of the most productive and important people in the history of our world and today have differing sexual ideation. Julius Cesar, Leonardo Da Vinci, J Edgar Hoover and millions more are all known cross dressers and have differing sexual ideation. In fact studies have shown the homosexuals are more law abiding, more fruitful at work, smarter, healthier, cleaner, and make more productive citizens than quote heterosexuals. There is no evidence that they are less in any way. It is a false belief that they are less.

Seven to ten % of our population is born left handed. It just happens. The choice of your handedness takes place in your brain not your hand. We call this cross dominance preference of handedness. Long ago our society killed left handed people. They were different. There are many colloquial terms used to refer to a left-handed person, e.g. “southpaw” or “goofy” (USA). Some are just slang or jargon words, while other references may be offensive or demeaning, either in context or in origin (e.g. the British “cack-handed” meaning you wipe your ass with the left hand not eat with it). In more technical contexts, ‘sinistral or sinister’ may be used in place of ‘left-handed’ and ‘sinistrality’ in place of ‘left-handedness’. Both of these technical terms derive from sinestra, a Latin word meaning ‘left’. Left hand shakes are a sign of disrespect because in the old days this was the hand used to wipe your ass with. There are 10 places in the Bible where they demean the left handed. Being different is not evil. The invention of toilet paper helped to put an end to the false belief that left handed people are bad. Toilet paper, soap and water and sanitation helped to stop the diseases from the anus. And society went on to limit the false belief that the cross difference people are bad.

Seven to ten % of our population is born with cross gender ideas but only 2% live it. The fear of humiliation drives over 5% of our society to repress and suppress their feelings and their true nature. The 2% that live it are still hated and feared by most of our society. But the over 5% that repress their feelings will hate the homosexual the most. They will be violently angry at any display and they will seek to end any and all such displays with even violence. The sexual insecurity of the society is at excessive levels. At the core is the fear of humiliation of being different. Antiquated social views on homosexuality are taught everyday in the schools. Not in the classroom, but in the schoolyard. Here homophobia is at its height. And in America children are tortured physically, mentally, emotionally to levels rivaling the holocaust. An everyday event that makes children homophobic and unable to deal with their own feelings. Children forced into choices that limit their mental development forever. Fear, confusion, distrust, apprehension, anxiety, pressure to conform, trepidation, suspicions, violence, rejection all driven deep into our children daily.

These children grow up with confusion, distrust, apprehension, anxiety, pressure to conform, trepidation, suspicions, violence, rejection and irrational fear all driven deep into their hearts. This is to such an extent that there is nothing more important than defending sexual insecurity and homophobia. Sexual insecurity increases susceptibility to peer pressure. To prove they belong to a group the children will do things they know they shouldn’t, such as smoking. Nobody takes a
first cigarette without the body trying to tell you not to. The body says no by coughing, sneezing, distaste, wincing. But the insecure person’s insecurity makes them conform. Smokers will not want to accept the truth that insecurity led them to smoke, but it is 99.999% true. Emotional insecurity, immaturity and stupidity all are the cause of smoking.

Great Spirits get Incredible Resistance from Mediocre Minds

Small Petty Minds hate to see a Powerful Alive and Free Intellect.

Small Minds often become bureaucrats so they can compensate for their insecurities.

They hate thinking big words like holistic, international, freedom: the powers of the mind, the powers of the spirit.

These concepts scare them and they use every rationalization technique available to deny, twist, distract, divert, degrade, and discourage all from thinking big.

Their favorite technique is to shoot the messenger.

Desiré has proven the powers of the mind, the failure of synthetic drugs and many many more false beliefs.
Battle of the Milennia:
David Desi vs. Goliaths
by Heather Swanson

There’s a battle outside your door, shaking your house. The battle cry has reached your ears, it’s raging in them. Only this is between the big guy and the little guy, and you don’t think he has a chance. Or are you already getting prepared to live under the big guy for the rest of your life?

We all remember the story of David and Goliath. Well, today, it’s not just one Goliath, it’s a host of THE GOLIATHS that freely roam the earth, victimizing the human race all in the name of greed and money.

So, about now, you’re thinking: This is a big fairy tale, right? Let’s meet our modern-day corporate Goliaths.

1) Big Sugar. Don’t tell me you don’t eat it. Dig your teeth into this white, sweetened sugar, weakens the immune system and causes obesity. Once consumption of sugar is linked to lethal health problems and terminal illnesses such as diabetes and heart disease; it happens to be one of America’s top money makers.

2) Big Tobacco. The one in every five deaths in the United States is smoking related. Need we say more? It’s legal, socially acceptable, and though a consumable drug (right?) the FDA happens not to be responsible for it.

3) The FDA. A kind of Iain, Frankenstein’s assistant, for these Goliaths. A polysynaptic agency, which has risen to its Goliath stature by consuming billions of dollars fed to it by pharmaceutical, big sugar, and other bribes. The FDA protects big sugar, big pharmaceutically, and big tobacco more than it protects the American people.

4) The Music Industry. Think the death of Woodstock and the birth of MTV. Opposing independent ideas, free creativity, and a host of concepts related to freedom of expression, music has become a bloody battle for sales and power for this race of Mega-Popstars. It’s all about hype and nothing about talent.

5) The Pharmaceutical Industry. A multi-billion dollar business, the backbone of current atherogenic medical practice, a leading cause of death in the USA and a killer of over one million Americans yearly.

$5.29 billion from world video sales, and $17.7 billion from world television licensing. Hollywood is a media monopoly with no room for protest or true idealism.

Now, meet David J. mean. Desi, Peet, and Desi’s henchmen. Battle-armed only with her special superpowers – clairvoyant mind, and the SOGI – a satellite tracking machine Desi patented that caught the FDA’s attention because it doesn’t mesh with their “regular” clients. It’s chemical-free and doesn’t need the FDA to market it because people buy it because it works. In 2002, 785 died from falling over furniture to date, no one has died due to the SOGI. So, why don’t they go investigate furniture manufacturers?

With her independent media company Change the World Productions, Desi has been fighting the propaganda that has monopolized media for generations. If you take a billion dollars and stack them up, they would reach to the moon and back. Well, these trillion dollar incalculable Goliaths are putting themselves against one, solitary individual who has stood up, and showed that there is a different way – a better, more noble path to the future betterment of this planet. After all, it isn’t an accident that her company is called Change the World Productions. It’s Desi’s Davids fate.

Take a stand today! Behind truth and justice. Join Desi in the fight against these malformed modern-day Goliaths that now terrify our lives.

Appreciation
(This article appeared in a Hungarian Journal on Alternative medicine in 1997.) - written by Nagy Rosa

On a gray early winter’s day in Ohio USA, a drama of a struggle for life unfolded some thirty years ago. In Mill Creek Park in Youngstown Ohio there is Lake Glacier. A beautiful spot in all seasons, but on this day the lake was starting to develop its white icy cover for the winter.

The ice was thin this day and a group of dogs were playing on the ice. The largest dog was a young strong Great Dane. His weight was too much for the thin ice to support. The Dane had fallen through the ice and was struggling in the icy cold water. A crowd of people was building on the shore to watch the struggle for life. No one in the crowd dared to step out on the ice for the Dane was 200 metres from shore and the ice could not support anyone attempting to get close.

Anxiety built in the observers as they watched the young dog struggle to survive. Strength drained from the dog as the cold water sapped the Danes’ life energy. Fear, hesitation, and sadness filled the minds of the people on the shore. Then a car door opened next to the lake and down the hill ran a young man. Fully clothed he ran out on to the ice and raced towards the dog.

The ice groaned and cracked. Getting to within 25 yards of the Dane the ice gave way totally and the young man dropped into the icy water. The crowd gasped as he disappeared under the water. Silence seemed to last for hours, but a cheer went up as the man surfaced next to the dog. Using his weight, arms, and willpower the young man struggled to break the ice and carve a path to the safety of the shore. But the cold water started to sap his strength as well, when miraculously the Dane sensing the taste of life regained strength and started to support the young man. Frozen watching this drama of life unfold the people watched as together the dog and his saviour fought through the ice and water till the man could stand.

Then pushing the dog to safety, the man struggled for a few more yards till he could be free of the icy water. The crowd cheered as the Dane shook of the water. The people rushed to the dog and petted him. The dog then ran off to the north while the young man got into his car and drove off to the south. The crowd’s attention was focussed on the dog as they both left. No one in the crowd knew the young man’s name.

Most said it was impossible

In 1970 three men on their way to the moon had difficulty. The two separate navigation systems had to be altered to do functions that they were not designed for. Someone had to have the vision and skills to calculate the mathematics for the navigation system. Most said it was impossible. One man said nothing is impossible. This man successfully reprogrammed the gyros. The three men landed safely.

No one had ever registered an alternative medical device for electro acupuncture. Most said it was impossible. In 1989 one man was able to register such a device for medical use. The device was then registered in Hungary and Europe when others said it was impossible.

In 1976 in America a law was passed that required all things used in health care to be registered with the FDA. All items in use before 1976 were grand fathered in as registered. Acupuncture needles were purposely left off of this list. The small medical minds of the modern medical community could not understand acupuncture and thus they illegally rejected them as medical instruments. The way was clear to confront this injustice, but everyone knew that the FDA would attack anyone who stood against them.

One man saw the illegality of their action and took a case against the FDA. The FDA was infuriated and a FDA agent promised to find something to attack this man. This led to an indictment and an arrest. This was the only way to stop the registration of the acupuncture needles.

In Federal court in Denver in 1996 judge Match remarked that there appeared to be something wrong with the charges. As he reviewed the case he remarked that there appears to be no crime. The FDA dropped their case. One week later the acupuncture needles were accepted as real medical devices. The truth had triumphed over oppression.

In 1996 there was a need for an affordable computerised bioresonance device. A device that would operate at millisec speeds, be autofocus, have real homeopathics in it, have extensive data processing skills, and be easy to buy and use. There was one big problem no one would program the computer at moderate expense. No one had the computer skills, a medical background, and skills in quantum theory, fractal dynamics, subspace theory, an electrical engineering background and the determination to complete the project.

One man had most of these skills but was not a competent programmer. They said it was impossible to learn programming and program such a device in a short time. Professional estimates were that 5 programmer would need 2 years to complete such a project. This one man learned programming in one month and one year later the 50 meg program was done, registered and in medical use all over the world.

Under communism homeopathy was illegal. With the demise of the communist regime each new country developed new laws for alternative medicine. Hungary said that no medical art was legal unless it was taught in some medical college. Many homeopaths tried to get their classes accepted by the medical establishment. All were rejected as being not medical in presentation. Most said it was impossible. But one person said nothing is impossible. Some things are hard to do. In 1996 the postgraduate medical college approved one man to teach a course in homeopathy. Now homeopathy is legal in Hungary, thanks to the efforts of one.

They said that only Hollywood could make successful and entertaining movies. They said it was impossible to make a major motion picture for less than $100,000. They said that it was impossible to expose the story of the greed and criminal action about the drug companies. They said that powers would stop such a story from being told. One person said it’s time for a change, it’s time for someone to make a stand.

All of these stories are of one person. A person with over 2000 homeopathic registered in America, a US patent in homeopathy, three Irish patents, licensed to practice medicine, and a teacher who has lectured all over the world on alternative medicine. Few have done more for natural medicine, than this true genius. And now it is time to thank our friend William Nelson / Desiré Dubounet for the energy, work and resolve.

When you raise your children and you want to tell them that one person can make a difference, tell them about Bill/ Desiré. Bill/ Desiré has shown the world that one man can. The man who left America to find freedom who is no longer a man deserves your appreciation.
Here is a brief list of my credentials

These are the certificate related qualifications of most of my life. These are at least the ones I remember best.

Many of these have been lost in moving and in divorcing some of my Five wives. I have seen little reason to bother in replacing them and less reason to satisfy the small petty minds of persons motivated to find fault in others.
The Story of the Slur against Desiré

The certificates I still have are in a folder. If there is any difficulty verifying any of these please call. But petty small minded people with negative agendas, often are only interested in slanderous lies, not truth. Due diligence and open honesty would be a more professional manner.

But the picayune mediocre minds are not professional. It is always amazing that one person with an open mind can read this list and be astounded, and another will find one or two simple discretionary misunderstandings and be dissuaded. In other words people find what they want to find not what is there. But for the exercise of due diligence, I print this record of the partial pathway and just the certificate record of my life. Belief me my life is far more incredible than this list.

Ultimately the experience of education is an internal one not an external one. As such a person learns where ever they are. This list is just a historical documentation of the travels of my mind and a record of stops along the way. It is not very important for intellect people who go thru life judging teachings not the teacher.

But for the small minds that value paper over people, I publish this list with pride and dismay at it’s length. If there is any concern what so ever please call and we can have an anal retentive conversation about the items. A discussion of history and a recollection of the path of my life, but this path in no way validates my persona. They validate the path. The books, the articles the ideas come from me not the path. To validate me you should encounter me, my books movies, music might offer you the only way.

My path was dramatically less traditional than most. Some of the Institutions have closed or were pressured to renig me reputation. I am not aware of most of these slanderous efforts. As I become aware they are removed from the list. The most important legal validation will come from my Ohio license and the IMUNE credentials, call if there is any difficulty finding validation of anything.

- 1957 built a radio to listen to Sputnik

see list of books, medical journals, films, TV channels, Radio channels, music etc.
Even when I brought the Apollo 13 astronauts back, I was Desiré inside. Funny how none of them refused my help, but of course they were intelligent men.

Lastly, all of our perception is thru an internal review of an external event. We cannot perceive anything directly. All perception takes place in the brain. If your own brain is full of negativity everything you see will have some negativity. At first Every hotel will not be right. Every restaurant will be not right at first. It will always be a while before you can conquer your negativity and see things better. Some people will always have negative things to say. It is just their nature. Please don’t go thru life trying to please everyone. Certain petty people will consume your time and energy.

Now Why does the SCIO work so well

QQC vs Test Tray vs Hololinguistics

In 5th grade we were taught we are made up of atoms made of electrons and protons and neutrons. The electrons in the outer level are so charged they never touch. We are made of electrical fields. The QQC is a very advanced patented trademarked technology with a CE mark. It measures in a very sophisticated process the Voltammetric electrical field of any item. If you look up voltammetry in Google you see thousands of references for a world recognized very scientific chemical process also referred to a a Polgraphy.
The QQC trivector device passes a changing low level field thru the item and generates a sophisticated picture of the electrical field of the item. It makes a $22\times22\times22$ 3D field that means over 10,000 separate frequencies to make one pattern. The shark senses these fields and they are amplified by the salt water. This study leads to the discovery of the electro-sense. Researchers have found that humans also have such a system but it is weak.

Every item has such a field. Living things have a changing reactive field, non-living things have a static field non-changing.

We now know that the electro-sense in humans is the surface of the skin and most concentrated in the sense of smell.
So by measuring the Voltammetric electrical field of items and then amplifying the field 10 million times we get to really measure the patient’s reaction to items, really. I mean for real.

So I spent over 5 million dollars buying and procuring the items in the matrix and testing these items with a patented registered technology of modern science. This is why the device works so well, at each treatment from calibration, test etc these QQC signatures are at the heart. This is 90% of the operation at least. Real science, real technology, real legal compliance, real items, real results, real honesty and integrity. I want the best for all users.

I built the test tray function to get some vector analysis into the box for clients to use their own remedies. It is weak but has some efficacy but most of it is simple hololinguistic and virtual intention. But it works at some level and it works better because the real QQC signatures help to reinforce the action. I stand behind the process but I encourage all to try to use the QQC when you can and I still do the QQC testing for free on items sent.

Now does anybody understand this? ANYBODY.

There is a problem here in that since I am the only one doing it for real all of the other competitors must either ignore this or slander me. For once this becomes day to day knowledge they won’t be able to sell any competitive system.

Now does anybody understand.
The Story of the Slur against Desiré

Since I wrote the software and I am the one who knows each operation let me respond to this document on the CCP3.

Ray Foley Document in normal, Desiré response in bold black.

CCP3 Explained by Ray Foley

Here is an explanation of how the Comprehensive Care Pack works with the Clasp 32 software. First, let me give kudos and gratitude to Professor Nelson for creating this amazing program called Clasp 32. It has certainly revolutionized many people’s health options including mine.

Thank you

CCP3 is an aftermarket software package that enhances the performance of the SCIO in the same way that purchasing a state of the art sound system from a retailer like Sound Advice improves the sound that you experience from factory installed speakers. Of course, the results are more profound and life-changing than a mere audio upgrade. In researching how the SCIO works, Grand Master David realized that Professor Nelson’s frequencies are very linear and at times harsh with a one size fits all component.

This is not only inaccurate but it displays a lack of knowledge in bio-electronics. The frequencies from the device are my frequencies and they are not linear nor does one size fit all. This is an absurd lie.

They have already admitted to a crime of adulteration of a medical device. Any change must be properly validated as safe or it is deemed illegal for sale. This is an illegal misbranding claim already.

Grand Master David’s frequencies are multi-plexing and wobbling frequencies that customize to each individual’s needs.

The additions of david have no such aspects at all the software does not operate outside of the original matrix with any consistency. This is an out and out lie. The use of the words multiplexing and wobbling are lies properties of my original matrix and are used at each item within the design each item I add to the matrix is assigned it multiplexing and wobbling properties based on the QQC trivector test of real items. This patented proprietary system is only used by us.

Items outside the matrix are only words typed into a computer. It can only use the hololinguistic event I designed and no more consistently. I do not think that any one in david camp understands these terms correctly.

The main reason why the SCIO works so much more efficiently and powerfully when the Comprehensive Care Pack is added is due to the specific programming code added to each line. Each line engages the artificial intelligence component of the Clasp 32 to respond to the specific feedback it is receiving from the client.

Thank you but this only works inside the original matrix items beyond the limits are not properly assigned AI intervention, I wrote the code, I wrote the AI intervention.
This eliminates the preconceived notions and beliefs of the practitioner from interfering with the correct course of action.

Thank you, but only as I wrote it to do this
e.g. The Rife frequency for blood cleansing is 66.5 and works well for 85% of the people. But there are times where 66.7 or 65.9 would be more accurate. GMD’s program would pick the exact frequency needed.

Thank you but that is how I wrote the system you are once again taking credit for my work.

Additionally, the line item entries in the CCP3 are mini protocols. By simply activating 1 line of code you are telling the computer’s artificial intelligence to utilize whatever it needs from the entire Clasp 32 to fulfill the goal.

Thank you but that is how I wrote the system you are once again taking credit for my work.

I’ll use this example to illustrate. As a zone manager for QA in Tampa, I became known as a headache specialist. I had a 95% success rate and would clear any headache within 45 minutes to an hour. Then I met GMD and now I have the same success rate but I achieve it in 5 to 10 minutes. I use 1 line of code: “Create a custom cure for all aspects of all variations of all causes and symptoms of headaches and migraines.” When entered into one of the command lines of the Clasp 32, it tells the computer to eliminate the problem, and the computer finds the solution based on the feedback it is receiving from the client; not a predetermined multi panel protocol that is one size fits all.

Thank you but that is how I wrote the system you are once again taking credit for my work, your displaying a misunderstanding of what I wrote the software to do

Once Grand Master David figured out how the SCIO worked,

Thank you but that is how I wrote the system you are once again taking credit for my work.

He (David) was able to take his impressive programming skills to write code that maximizes the efficacy of the Clasp 32 software. Practitioners who have been using his Care Pack report stronger, faster and more accurate results.

This is rather grandiose lie befitting a grand master liar who thinks people would in some way believe that he has broken into the system and further adulterated the medical device. As to his programming skills I would think he has none if he proposes you to believe he can rewrite the source code. What he did was use his skills as a typist to add words into a matrix file illegally.

So how does the SCIO work? Picture a triangle. At the top point is the SCIO. At the bottom left is the client. At the bottom right is the practitioner. There is a psycho-spiritual connection between the client and the practitioner.

Thank you but that is how I wrote this chart in 1989 you are once again taking credit for my work. What was david doing in 1989

The SCIO acts as a bridge and elevates the belief level of either the client or the practitioner or both. We use about 10% of our brain consciously. The SCIO interacts with the 90% unconscious bio-electric field of both the client and the practitioner. The battery or electrical outlet is what powers the SCIO computer; but the Clasp 32 is powered by your chi or energy. That is why so many of us feel very fatigued after running several clients back to back. The magic is in each one of us. Professor Nelson created a device that taps into the healing ability God put in all of us. I do things now without the SCIO, that were beyond my imagination 2 years ago; but I still recognize the value of my computers. I run individuals or groups of people 24/7. There are maybe 6 people in the whole world who really understand Quantum Physics. I am not one of them; however I successfully utilize the principles every day. I have clients all over North America who are beneficiaries of God’s healing power through this fabulous SCIO technology.

Thank you and since I am one of those six people, having written a 1250 page book the first book on Quantum Biology in 1982, and since I wrote the quantum trinary logic code of the system, I would appreciate you networking with me to make any additions so we could properly validate and make full legal any changes. I have never said your additions do not have some value, but your blatant circumvention of me and ensuing lying and slandering me speaks to ignorance, fear, prejudice, or simple cowardice. Since your obit of Bill and insinuation about Desiré shows you do not know me and you must harbor latent homosexual fears inside you that prevent you from dealing directly with me. Get over it.

GMD has clients all over the world who are beneficiaries of God’s healing power through this fabulous SCIO technology. What Grand Master David has done is elevate the ability of the SCIO to impact people all over the world. By simplifying the process, it levels the playing field for all practitioners. Those who are not comfortable with computers or the vast complexities of the SCIO as taught to us in training can now run an effective session with just a few key strokes. Advanced practitioners can add more than 40,000 weapons into the battle against ill health. Additionally with the CCP3 you have access to martial arts healing techniques and remedies that have been developed over thousands of years. You will be able to utilize energetic frequency patterns of Traditional Chinese Medical Formulations that have been successfully used all over the world.

Thank you but you have only added words not frequencies, I could help you add frequencies but you refuse to network with me and your slander of me prevents you from honest straight forward talk.

You will have all the weapons you need to combat any emotional issue that manifests. You will be able to tap into energetic frequency patterns that emulate the spiritual healing evidenced in the Bible. You will be able to stack hundreds and even thousands of entries in combination to attack issues with maximum power and effect.

Thank you but what is happening is that any users of adulterate unvalidated changed medical software can have their devices confiscated and maybe worse.

I hope this helps to clarify what the CCP3 is all about.

Thank you but I hope that now you know what this is really all about.

I am going to close this message with Grand Master David’s bona fides. Perhaps that will help you understand how privliged we are that he has embraced SCIO technology and is committed to using his impressive skills to enhance its usage. Two weeks ago Grand Master David celebrated 30 years in the Martial Arts. He is Supreme Grand Master of Shun Shen Tao. (tenth degree black belt) He is a Grand Master of 3 additional martial arts disciplines. (9th degree black belt) He has been entrusted with passing on each of these to the next generation as he was honored as the official caretaker for all 3 and the protector of centuries of family martial arts secrets. During the heyday of his fighting career, he was world Kumite champion for 2 years.

The Story of the Slur against Desiré
He set world records for power breaking. 18 concrete blocks with his arm. 10 concrete blocks with his groin. He has masters degrees in 3 separate forms of herbalism. Western medicine calls these doctorates. He has a masters degree in metaphysics. Western equivalent is a doctorate. He has written herbal formulations that have been included in the International Lexicon of Traditional Chinese Medicine. He is an originator and master of multiple hands on and spiritual healing techniques that have benefited thousands of people worldwide. 2 months ago he received several honors at the Annual Martial Arts Hall of Fame Banquet. He was installed as a director on the board of directors of the Black Dragon Fighting Society (the oldest and most respected society in modern day martial arts). He was inducted into the Hall of Fame as a Founding Member. To give you perspective on that honor, Bruce Lee is a Founding Member. He also received the highest honor available. The Wong Fei Han award was given to him for his contributions to both the fighting and healing facets of martial arts. Wong Fei Han is considered to be the greatest martial artist ever. In the world of martial artists, this is akin to receiving a Nobel prize. Personally, I cannot begin to tell you how much Grand Master David has impacted my life. I consider him my mentor because we share a common belief: all healing comes from God whether it is by our hand, our spirit or our SCIO. I look forward to assisting anyone interested in adding the CCP3 to their repertoire.

By the way, on December 3rd Grand Master David celebrated his 33rd birthday. Thank you, I have no doubt of david’s intention to help, but his lack of respect for his intellectual betters and the developer of the system both being me are putting people into harm’s way. Let us pray that he will wake up and work within the laws of the USA.

PS.

As a friend of the SCIO and a medical doctor who has used the system for over 10 years now I have asked Desiré to let me add a paragraph.

First of all any professional person could instantly see thru the charade of the charlatan David Harris who has a major problem with ego and an inexperience with the law, medicine, bio-electronic, and computer software. I have seen the CCP3 system and I can say that it is obvious David has not broken the code if he had he would have changed the ownership in the about box. This means instantly that the only person who knows the system is Desiré. David circumventions and defamation of this great person is atrocious. A professional sees thru this instantly, but less intelligent operators more naive and inexperienced can be duped. To these people please think and if you have questions do not circumvent Desiré. Please do not be duped into a crime or into slander of a great spirit.

Dr. Mesli

Three strikes and you are out you’re Out.

Maggie asks what was the reason for david to be denied entrance to Canada?

It is the law, Americans can freely go to Canada, but not to commit a crime. The only reason to be denied entry into Canada is some sort of criminal involvement not suspected but documented. I did not do anything regarding this, but here is what will happen if circumstances do not change.

By legal ethics we will give one more warning (the third warning) then nobody can dispute we did not give david a chance to cooperate and work together. After that we are required by law to report the crime fully of adulteration. If there is no cooperation by the end of July, We will have to tell the truth that someone david and others have marketed a software change that has not been properly tested as safe by the manufacturer. We will show the FDA the three letters of cease and desist and asking for legal cooperation and Ray Folley’s reply. The FDA will launch an investigation and start to find out who is selling the adulterated software plugin. And they will be able to confiscate any such system. Also on the inspection of sites with the illegal plugin they will impound any other suspicious or illegal items. They can ask for patient’s list and look into the computers to see who has been a patient and ask them if they want to log a complaint and get money back.

The FDA will notify david of the crime and when he plays stupid they will show him the three warning letters and ask why he continued after an official cease and desist. I am sure that david will explain that it is ok because he can break a brick and that I am the problem because I wear a dress. This will not stop the FDA, although they will have to take a break to laugh.

Any who have washed their hands of the plugin after reading this and put it into writing by asking for their money back and terminating the plugin might be able to save some hardship. All of this still could all be diverted from happening if david will cooperate and then we could validate the plugin, internalize the plugin, give him proprietary access so he could sell his work to others and all of this for free because I am glad to help and I do not want a penny. I am gracious but I don’t lie about anything. Hell I wear a dress, I don’t lie about anything. But david’s ego prevents him from seeing the truth or maybe it is his advisors. Either way we could still stop the freight train with honesty and cooperation.

The ego of david is the problem, why else would he ask people to call him master? Why else would he not want to help you users and your patients? Simple, ego.

Life System

In 1993 working in Hungary I modified the original EPFX design to work with my new Irish patent on a test kit.

Gabor Ledinsky, Jozsef Nieber and I worked on the software with a test kit – it had no subspace in it – Gabor did not like the subspace. It operated with an analogue to digital conversion system. Data was converted from digital to analogue back to digital. Gabor didn’t pay me, I broke up business with him.

In 1995 I developed the new QXCI and the superior functions were digital to digital interface which is not available in the LIFE system today. Sales people might tell you it is – it is not. We miniaturized the same test kit from my Irish patent and put it into the system. The LIFE system does not have test kit – it does not have sample of all the products for quantum coherence, the salesman might tell you it has a test kit – but it is not true.

I then developed a subspace system and perfected its functioning over the last 15 years. The salesman might tell you that the LIFE system has the same subspace system – this is not true. So the superiority of the QXCI over the LIFE – it has digital to digital interface, subspace, and the test kit.

Chris Keiser started selling the QXCI and at one point he took 35 checks made out to QX Ltd in Budapest and he illegally signed his name on the back, committing the crime of counterfeiting, and
deposited those checks into his business account. A warrant for his arrest was issued in Hungary and we stopped doing business with him. In the year 2002, or whatever, Chris Keiser bought the old software from Gabor Ledinsky and Jozsef Nieber. The life system stole the name from my friend and they sold 350 illegal devices in the US but the FDA step in and with some investor help they got over the problems.

When we checked the parts of the original LIFE system some 6 years ago — there was no test kit, no sub space, no digital to digital interface. Parts were inferior, wave forms inconsistent and there was no QQC trivector technology. I am unaware of their advances over the past few years. I have been told they have no medical registration in USA or Europe — that might have changed by the time you read this letter. But I can tell you they do not have the digital to digital interface — that is patented, secret and proprietary. The QQC trivector readings are also patented and proprietary. Every item in our matrix has been tested in real form. I was able to buy anthrax in 1992, very easily and all the other bacteria, fungus etc. Post 9/11 these items are impossible to come by. But we have tested their trivector fields and they can be used by you in the system. I personal spent over 5 million dollars on purchasing and procuring all the items in the test kit.

The subspace system that I have designed is also secret and proprietary, highly efficient with a 15 year history, so we have real QQC trivector, Voltammetric signatures for each of the products, real test kit in each machine, real subspace system, real registrations, hundreds of articles published in peer reviewed journals, and a host other technologies, proprietary to our company. In light of what I have told you I would still recommend you get a demo of both devices to see the functions, feel the device and then write to me for questions. I am not aware of the current advancements in the LIFE system, but I have been aware of salesmen telling lies in the past — equating their system with ours in wrongful, malicious ways, slandering me and without open honest communication. If you have any questions regarding anything, including my shoe size, please feel free to call. If somebody’s badmouthing me or my company we can do a conference call. We are always interested in truth and I wish the LIFE system luck, but I would prefer if they would not tell lies about me or lies about their machine or lies about anything.

Desiré Dubounet - Creator of the QXCI/EPFX/SCIO

**Well Well Well**

A new wrinkle has just come up. The below story is about another person who tried to use my technology. Chris Keiser had a warrant put out for his arrest in Hungary and he went afoul of the FDA and they got him to fly right. They make the LIFE system which I tell my side of the story from way back. I hold no grudge I am really a gracious person. But I just got an email from someone in the Life system camp who said that one of the Life system people from Florida called up Canada to report david. That is how they knew of him. The life system people tried to get david to use their system. They told him lots of lies about me and this is why he is afraid to do business with me. They are trying to get him to work with them. The life system people are playing david like a violin. I would tell anyone not to trust the Life people they will say or do anything to make sales, including hurting and lying. Whatever you do David do it right. If you believe the lies about me then work with them. But do it right. If you now doubt these lies and want the truth then call me. Either way, please, do not adulterate software outside of the manufacturer it is a problem for all. I wish you well. But if you do not stop the adulteration of our software in writing then we must by law report you.

Think who you can trust listen to your heart. Do the right thing. God Bless you.
Jealousy can express itself unconsciously in many ways. As such many people will be jealous of the angel and display this jealousy as some kind of resistance. Rather their mental energies should be directed to helping the ideas, releasing the greed that makes some of the truths in this book appear strange, forgiving those who have hurt you, so we can end fear, anger, hate and war. Understanding the false beliefs you have invested in, challenging these beliefs, promoting love, compassion and understanding. These are the things you could do rather than let your jealousy and false belief cling from seeing some truth in this book. There will be 10,000 times 10,000 angels at the end, you should be becoming one yourself.

We can achieve a thousand years of peace, we need your help, not your petty jealousy or fear of change.

Who I am this report is very important and should be fully read by everyone

Heiko writes to me

You know that is just not true so why keep pretending?

Perhaps you should buy the GMD’s plug-in and run yourself on DS(Divine selection), MGJ(my God is benevolent) and WG (Word of God). It might allow you to see who you actually are and let the healing begin.

He says I could see who I am well let me tell you who I am actually.

I am making another gift to all of you my new Angel book with the complete story of my life. This copy is low res. For a higher res and or a hard copy write sue in the home office in Budapest.

After working to help the Apollo 13 astronauts return I worked for a while in electrical engineering but when the transferred me to work on bombs I quit. I refuse to work on or with weapons. I went into the seminary to become a Lutheran pastor. God talked to me and said he wanted me to rewrite molecular biology. God worked thru me and we finished the PROMORPHEUS in 1982.

In 1974 while working in Youngstown State, I did the first study on the Voltammetry trivector. And I found that we could measure thought transfer by measuring the trivector of a person body. the word area of the brain had no such contact, but the body electric did. A copy of the abstract is attached. What was david doing in 1974?

I was able to register the system as the Electro-Physiological Xroid with the FDA in 1989. Since then we have sold over 31,000 devices. I designed to system and the software, every line of code. When the FDA refused to register acupuncture needles as medical devices I stepped in and I got them registered in 1996 with the help of Jim Turner.

I started to sell system and sold several in Seattle Washington. There was a sales woman there named Linda who lied to people about the system to make sales. I told her to stop and express regret and she could not. She got very mad and started lies about me to hurt me.

We started selling systems in Minneapolis Minnesota. Sammi came to work with me and she sold many systems. Once in a lecture she lied and told a story about another of our sales people Orville, he was a gentle soul who was hurt by the lie. I asked Sammi to apologize. There was a dreadful banshee like shriek on the phone and then silence. Sammi’s daughter then called me and said that I did not know what I did. Her mother Sammi has had 10 marriages and over 25 jobs and Sammi never did anything wrong. The fault was always with the other person. You see in Sammi’s mind she is perfect and thus she cannot apologize for anything, because she is perfect. To apologize would destroy her mental capacities. Sammi had never in her entire life said she was sorry. Her daughter told me to watch out now because Sammi will focus on her obsession on you. She started a series of lies and accusation that are appalling and have been used by competitors since then. She said my children were not mine and dreadful things. But I had to try to help her grow spiritually. For to me spiritual growth is number one.

I lectured in California for a company who sold vitamins. When I told the audience that the vitamins were synthetic (because they were) the owner of the company named Jim went berserk and attacked me with lies. This has happened several times. But honesty, integrity, spiritual growth
and truth are my first and foremost goals. And I will have the honor to stand by these principles.

In 1996 I discovered how to make a digital to digital system and by pass analog converters increasing the accuracy and precision of the data. I also then I perfected the subspace system in the computer. Both of these additions are not in the LIFE system for the stole the software in 1993 before these key additions.

Starting in 1989 when we got permission to market we saw astounding results. Ask Bill Cunningham about this there were incredible results. The testimonials are astounding. There have been over 200 articles about the devices I made published in peer reviewed medical journals. Do you think you are the first to get results? In our 2007 large scale study over 97,000 patients and over 300,000 visits clearly show the advantages of the harness being attached and the electrical signal given over the subspace. But the study clearly shows that the subspace system works.

I have been hearing about incredible results before david was born. Do you think you are the only one with results, well that is about to stop.

I made the subspace system using some the ideas of Rupert Sheldrake who speculated that the I Ching is a place where something that appears not connected is connected. But the limitations of the 64 hexa gram make it weak compared to the human brain with 10 to the 23rd power (ten with 23 zeros after) synapses. What if someone could make and I Ching with 10 to the 23rd power potential this is what I have done. And to stabilize it I developed a very sophisticated prayer wheel. The prayer wheel invokes the secrets of the Torah, Zohar, I Ching, Tibetian, Christian mystics, and all of the positive religions of the world. You can choose the religions in the about box if you want.

The prayer wheel invokes the secrets of the Torah, Zohar, I Ching, Tibetian, Christian mystics, and all of the positive religions of the world. You can choose the religions in the about box if you are judgmental. Calling the hundred plus names for the universal consciousness it protects the patient and therapist.

Using these and many more the subspace system is vast and the prayers are spun in a prayer wheel over 10 million times a second. All designed to protect and heal.

- Absorption within God’s Infinite Light (Hasidic schools of Judaism)
- Seeing the Light, or “that of God”, in everyone, (Christian Quakers, Shakers)
- The Love of God, as in the Hinduism, Baha’i Faith, Christianity, Islam and many other spiritual traditions
- The mystic work of opening the doors with sound shape and prayer past down to us from Solomon.
- The teachings of Jesus
- Theosis or Divinization, union with God and a participation of the divine nature (in Catholic Christianity and Eastern Orthodoxy)
- Complete non-identification with the world (Kaivalya in some schools of Hinduism, including Sankhya and Yoga; Jhan in Buddhism)
- Liberation from the cycles of Karma (Moksha in Jainism and Hinduism, Nirvana in Buddhism)
- Deep intrinsic connection to ultimate reality (Satori in Mahayana Buddhism, Te in Taoism)
- Union with God (Henosis in Neoplatonism and Brahma-Prapti or Brahma-Nirvana in Hinduism, fana in Sufism)

- Innate Knowledge Hinduism, (Irfan and Sufism in Islam)
- Experience of one’s true blissful nature (Samadhi Svarupa-Avibhava in Hinduism and Buddhism)

All of these studied and adjusted by several masters, and you have seen it work miracles. I developed this back in the 1980 and I have been perfecting it ever since. I made the hololinguistic system, the Sanctuary program, and many more. The German govt gave me 50,000 euro during the last world cup to make a subspace system to prevent hooligans from hurting the games. The Chinese Olympic team AC Milan and the stories of the success of the device and subspace are amazing. And you want to know who I am. I am the genius who made the system you’re working with. I know who I am.

But there is something you don’t know. The prayer wheel calls on these forces to protect, give insight, and help to heal the patient and the therapist. And also these forces are called on to direct all and any negativity towards Desiré back at the person who has the wrongful intent for me it calls for these forces to send back the evil hate and bad will back to the sender three time three. This is karmic law and I just allow the subspace system to focus the karma energy. Just like a lens it returns the spite and bad intent onto the evil heart. I try to keep my waters still and thus act as a mirror to reflect back bad energy three time three.

When Linda in Seattle told lies out of hate she died of cancer in one year. Sammi died a horrible death of cancer in less than a year. Jim died a year after his campaign of lies against me. The Seattle Times faces bankruptcy, the FDA is unstable. Each of them died or is a victim of their own hate and greed. My subspace protection is but a way to focus the evil energies back to the source. If the evil heart cannot grow past its lies and perversions then focused Karma will try to help them to learn. This is the law.

One person violently attacked me with innuendo and lies. He got very sick and found out about the protection of me in the prayer wheel. He called in priests and they called me. Said how can I help, I asked them why does he not just stop the lies, stop the slander. He said he could not. And the priests told him he was doing it to himself. He got even angrier and told more lies before his tragic death of cancer. Some mediocre minds give incredible resistance to great spirits and sometimes they just can’t stop.

It is very hard for criminals to mentally accept that they have done a crime. Unvalidated altering and selling a medical device or its operative systems is a crime. To divert attention from their crime they david and heiko commit another crime of slander against me. All to distract you from the real issue. Their crime of lies and slander as they twist everything against me has been seen by so many of you who write me. The bad Karma they are accumulating is compulsive. I wish them no wrong but I wish they would end their crimes of adulteration and slander. As you have all seen I have done nothing wrong and I am honest and honorable to the highest degree. I wish that they would end their hateful evil attack against me before their own bad karma is amplified out of control. I wish they could grow up and since I have no evil in my heart I only wish them to stop the crimes, I will have good karma.

I have control over all of the subspace even the old systems subspace operations. I never thought that someone could use my work to commit a crime. It never occurred to me that someone...
The Story of the Slur against Desiré

would be so stubborn as to put you the users into harm's way. This is bad Karma. So I will now as of today change the prayer wheel now in all systems even the old systems to now stop working with any criminals and to stop functioning with any illegal adulterated use. Now check the systems use and see if it still works. You will see it does not. This will not affect legal use. Only illegal use of the plugin, At this time it means any use of the plugin. If any want to discuss this please do but we cannot allow users to break the law and be in harm's way. A simple apology from david and heiko and simple cooperation would solve this. If there is cooperation and laws obeyed and slander stopped then the subspace will allow operation fully. I wrote the software. I authored the commands. I cannot allow users to be put into harm's way. A simple request and explanation for the plugin and in one month all would be well and david can freely sell the plugin and not put anyone into harm's way.

We can now watch heiko spin into a frenzy of vague baseless non specific craziness and watch the effects focused Karma have. Or perhaps they will wake up and smell the Karma. We will see.

I have made a life dedicated to helping people and to get people to get over their clinging to false beliefs that hurt and limit them.

The greatest false belief is that of existence. In 5th grade we are taught that our bodies are made of atoms and atoms are made of protons neutrons in the nucleus and outer electrons far away in energy states in the outer layers of the atoms. The electrons never touch because they repel when they approach each other. So the outer electrons of any item never touch the outer electrons of any other items. So no matter ever touches any other matter. The electrons, protons, atoms, molecules in fact all things have an energetic field around them and this field is what we really are. No one has ever seen or experienced this truth of our existence but we know it is true. We are energetic beings in an energetic world.

As a bio-electrical engineer, licensed diagnostician health care doctor, mathematical genius, and expert in natural medicine, I developed a medical device that would assay the energetic body, and measure and correct problems of voltage, amperage, resistance, hydration, oxidation, and ph. My enormous respect for the law mandated that I properly register the device and did so in 1989. My respect for statistical research drove me to continue research and make the device better every day since.

After 5th grade, Later in school we are taught about photons and how photon from the sun make the electrons in plants go to higher energy states in a process of photosynthesis. Plants can do this, not synthetic chemical companies and from here we get the proof that the SINthetic chemicals are incompatible with the human body. We all know this about our foods. We will not order synthetic foods, or drink synthetic wine we have learned over the years that the chemical companies have tried to make synthetic chemicals compatible with the body and they have failed. If the menu has SINthetic foods on it we will exercise our freedom to choose and not order synthetic chemicals. But the menu at the hospital only has SINthetic chemicals on it. Only patented SINthetic chemicals get funding for research and use in medicine. Natural herbs and plants are not protected by patents and thus no one will invest in the research. But the menu at the hospital only has SINthetic chemicals on it. Only patented SINthetic chemicals get funding for research and use in medicine. Natural herbs and plants are not protected by patents and thus no one will invest in the research. Well not no one, I invested in the research on cancer patients in Kiev to test synthetic chemotherapy versus natural chemotherapy. I invested to test natural treatments for AIDS versus SINthetic treatments in Budapest. Both series of studies done in qualified WHO registered medical hospitals. The results confirmed that it is a false belief that
synthetic chemicals are better or safer. Our extensive research all over the world now has shown that the natural is much more effective, and vastly incredibly safer. But this false belief of synthetic drugs efficacy and safety makes lots of money.

People with small minds cling to false beliefs and especially when the false beliefs make money. The drug companies ostracized me, they pressured the hospitals and I was removed from further research.

In 1990 the acupuncturists asked me to help register acupuncture needles as medical devices. For free, I wrote a 400 page treatise on the law to make the needles real medical devices not experimental. It is a false belief that acupuncture is not real medicine. Some small minds in the FDA did not want this to happen and they fear all forms of drugless therapies. They trumped up false charges against me. In 1996 judge Match the Oklahoma City case judge made the FDA drop the charges. The FDA was angry and continues their vendetta against me. This is chronicled in the true to life movie “Sworn on the Altar”.

The drug companies tried to kill me as we see in the true to life movie “Water, Wine, Homeopathy”. In breaking up an international pedophile ring in Romania I was tied to a table and they tried again to kill me. This is displayed in the movie “The Greatest Sin 1, 2, 3”. Then when I decided to use my big head and choose my sexuality rather than my little head, I mustered up tremendous courage and made my freedom of choice and put on the dress. The drug companies stopped trying to kill me. It is another false belief that you should let your little head choose your sexual identity. Then over the years I was able to prove that muscle testing for remedies was not only invalid it was a complete sham, a fraud, a lie. The muscle testers or point probe users were altering the speed of delivery or the pressure to force the results they wanted. Mostly they used muscle testing to push the client into buying a vitamin or some sort of remedy. Muscle testers laugh when they admit they change the pressure to affect the patient. Now as we all know most of alternative medicine is built on this lie. With no double blind study ever showing that remedy muscle testing is in any way accurate, this lie has reached massive proportions.

Now how would the drug companies ever sell a Synthetic vitamin if the false belief of Synthetic was exposed? Who would ever attend another muscle tester’s lecture if the false belief of it was exposed? Both of these are definite false beliefs. There is no doubt that the synthetic is not the same, there is incredible evidence proving this. And there is no doubt that the muscle testers are changing pressure and using suggestions to sell their remedies. They cannot debate this so they must slander or shoot the messenger of truth rather than have these truths exposed.

The science of electrical reactivity starts with the shark. The shark lives in salt water and he has a powerful well documented electro-sense. The literature knows that the electro-sense of the human is very weak. We have to amplify the electro signal over a million times for us to see human electro reactivity.

All items have an energetic field around them this is 5th grade science. This field is known in science as the Voltammetric field. I patented a 3 dimensional Voltammetric field detector first developed in 1988. With several patents and copyrights I work every day to perfect the system. After authoring and editing over one hundred books, over 120 medical journals, over five patents, thousands of copyrights, developing a accredited medical university, establishing a major ISSN peer reviewed medical journal, being nominated for the Nobel prize for two decades, and a long list of credentials and accomplishments you would think that someone could find one error other than spelling to really critic me.

The Story of the Slur against Desiré

Muso Kokushi once said when the pupil is ready, a master will appear. After authoring and editing over one hundred books, over 120 medical journals, over five patents, thousands of copyrights, developing a accredited medical university, establishing a major ISSN peer reviewed medical journal, being nominated for the Nobel prize for two decades, and a long list of credentials and accomplishments you would think that someone could find one error other than spelling to really critic me.

The weapons of Mass Distraction users have said horrendous things of me. They will tell you I am a 9 foot tall black man if you will believe it. They work very hard to make up lies and they try to see just what they might say to distract you. Some of the people are sensitive to sexual identity, so they will tell you I am gay. (Being a hermaphrodite I am not). If you are religious they will tell you I am a heathen, I am not. They will tell you anything but just not on the telephone with me on the line to confirm or dispute. They will do whatever it takes to distract you and keep you away from the truth. And what they fear most is my courageous dedication to truth, freedom of choice, and nature.

I can’t defend myself from the backstabbing if you don’t help me. I can’t defend you the users if you don’t allow me to help you. So please listen to the truth and if you have a question let me know.

Muso Kokushi once said when the pupil is ready, a master will appear. The bond of a student master relationship is a sacred one and the student should call the master by name. Necessary is a master. For free, I wrote a 400 page treatise on the law to make the needles real medical devices not experimental. It is a false belief that acupuncture is not real medicine. Some small minds in the FDA did not want this to happen and they fear all forms of drugless therapies. They trumped up false charges against me. It also makes the master into a disingenuous role player, alienated in Peter L. Berger’s sense. The exploitation, will likely be heightened when the context is one of extreme hierarchy. Usually has consequences. These consequences, including psychological, financial and sexual irritation, complexity and contradictions of actual lives and real history. The master, as in this myth supposedly, is beyond the understanding of ordinary people because he always acts from the enlightened mind. Unfortunately, they have found the myth without recognizing it for what it is.

What they really have found, all too often, is another story of ordinary, flawed human behavior. However, imputing qualities and attainments to people that do not really possess them usually has consequences. These consequences, including psychological, financial and sexual exploitation, will likely be heightened when the context is one of extreme hierarchy.

It also makes the master into a disingenuous role player, alienated in Peter L. Berger’s sense. In viewing how this spiritual dynamic plays out in America, please keep in mind that no living master need ever make claims for his own attainment. Rather, this is done by holding up the great attainment of his teacher and his teacher’s hallowed line of ancestors. It is never necessary for any particular master to make claims concerning his/her own level of perfection. The Zen institution does it for him by repeating the claim in the form of stories, koans, rituals,... An environment is created that predisposes both students and masters to act in certain ways. In the end, both fall prey to these fantasies. Paraphrased and excerpted from an article by Stuart Lachs.

Tzu-kung said: “The Master learns it by his warmth and honesty, by politeness, modesty, and yielding. The way that the Master asks is unlike other men’s asking.”

When David wrote an obit for me it was proof that he does not have the spirituality to be a true master for spiritual guidance. The incredible backbiting slur against me then also proved that one’s spiritual quality is not enough to make claims concerning his/her own level of perfection.

We have given him two official cease and desist notices and a plea for cooperation and it has been ignored. The way that the Master asks is unlike other men’s asking.

There is no legal issue if they were delivered before the import alert. You simply can tell Quantum Alliance it is fine to activate old code for registered practitioners. As I have said I would, this is the best way to help anyone, if any will explain to me their device history, procedure, and how they can be used, we will give them their request for activation of whatever they need including the 2006 will be honored on an individual basis, as of yet after over a month of hearing about this none have stepped forward.

Of course I mean what I say I am a very ethical and straightforward person with impeccable honor. I cannot do that QA has been given a cease and desist for legal reasons and they are men of honor and won’t disobey it.

I cannot do that QA has been given a cease and desist for legal reasons and they are men of honor and won’t disobey it.

That’s the way the system was and that’s the way to do it. If you aren’t ready to do that it just proves that this is all meaningless rhetoric and you still are not responding to the request that 97% of the users want the ability to have their code activated by calling support. Just like they were told when they bought them.

I am willing to help any who need help. I have told you this five times now and still you resist. And your slur of me is not only offensive is malicious as I have said if any will step forward and communicate with me directly I will help them. It appears you have an ulterior motive for this 2006 version.
That’s it. It is that simple. All you have to do is advise QA that is OK with you to activate code for SCIOs that are registered.

No it is very very simple just tell anyone who has a problem to openly step forward and ask me to help, what is wrong with you. I am saying yes, what is the matter with you

If you want a loving and supportive user group then give them the ability to activate their code, and then they will have a reason to respect you.

This slur of me after my reply is ludicrous and malicious, I must act within the law and with honor. You ask me to not be honorable.

If you won’t do that, then the light of truth shines on your lie, and I won’t keep engaging you.

What lie do you infer. I have not told a lie about anything. I will turn on the lights and help any who ask for help and the truth is none are asking me for help. You would not know what truth was if it bit you on the ass. It seems you are the one who is lying or a least hiding something. 

God Bless

Heiko

Please People No Delusive Thoughts

"Away with your delusive thoughts!" "Don't be deluded!" (Maku mõzõ!) 
Ch’an master Wu-ye (Mugõ, 760-821) (Zen Word, Zen Calligraphy 65)

Whatever the master was asked, he replied "Don't be deluded!"

Before enlightenment, chopping wood and carrying water. After enlightenment, chopping wood and carrying water. So let me paraphrase for my life

Before enlightenment, helping people to help other with the SCIO. After enlightenment, helping people to help other with the SCIO. This is my life.

Next is words from masters about the subspace

Unity

Merge your mind with cosmic space, integrate your actions with myriad forms.
Ch’an master Hung-chih Cheng-chüeh (Wanshi Shõkaku, 1091-1157) 
(Transmission of Light xi)

Great Unity

There is one thing: above, it supports Heaven; below, it upholds Earth. It is black like lacquer, always actively functioning.
Ch’an master Tung-shan Ling-chia (Tõsan Ryõkai, 807-869) 
(The Development of Chinese Zen After the Sixth Patriarch 74)

Nondiscrimination as a Basis for spiritual growth

"When you forget the good and the non-good, the worldly life and the religious life, and all other dharmas, and permit no thoughts relating to them to arise, and you abandon body and mind—then there is complete freedom. When the mind is like wood or stone, there is nothing to be discriminated.” Pai-chang Huai-hai (Hyakujiõ Ekai, 720-814) 
(The Development of Chinese Zen After the Sixth Patriarch 63)

• Before enlightenment, chopping wood and carrying water. After enlightenment, chopping wood and carrying water.
• At first, I saw mountains as mountains and rivers as rivers. Then, I saw mountains were not mountains and rivers were not rivers. Finally, I see mountains again as mountains, and rivers again as rivers.
• In the beginner’s mind there are many possibilities, but in the expert's mind there are few.
• Shunryu Suzuki
• To set up what you like against what you don't like -- this is the disease of the mind.

Sheng-ts’an A

• The ways to the One are as many as the lives of men.
• Though the bamboo forest is dense, water flows through it freely.
• To do a certain kind of thing, you have to be a certain kind of person.
• To follow the path, look to the master, follow the master, walk with the master, see through the master, become the master.
• When the pupil is ready to learn, a teacher will appear.
• It is better to practice a little than talk a lot.

Musô Kokushi

• We shape clay into a pot, but it is the emptiness inside that holds whatever we want.

Lao Tzu

• A journey of a thousand miles begins with a single step.
• The fundamental delusion of humanity is to suppose that I am here and you are out there.

Yasunari Roshi

• The quieter you become, the more you can hear.

Albert Schweitzer (paraphrased)

• You must neither strive for truth nor seek to lose your illusions.

The Shodoka
Oneness

Heaven and earth and I are of the same root,
The ten-thousand things and I are of one substance.
Zen Master Sêng-chao/Sôjô (384-414)

"Nan-ch’uan and his lay disciple Lu Hsuan. Lu was reciting Seng-chao’s saying:
Heaven and earth come from the same root as myself:
All things and I belong to one Whole.
However, he did not really understand the full purport of it. Nan-ch’uan pointed at the peonies in
the courtyard, saying, ‘The worldlings look at these bush of flowers as in a dream.’ Lu did not see
the point.” (The Golden Age of Zen 285)
(The Golden Age of Zen 324 n.92)
"While Rikkô, a high government official of the T’ang dynasty, had a talk with his Zen master
Nansen, the official quoted a saying of Sôjô, a noted monk scholar of an earlier dynasty:
Heaven and earth and I are of the same root, the ten-thousand things and I are of one substance
and continued, 'Is not this a most remarkable statement?'
/ Nansen called the attention of the
visitor to the flowering plant in the garden and said, 'People of the world look at these flowers as
if they were in a dream.’ " (The Essentials of Zen Buddhism 483-4)

The Master said: “Honeyed words and flattering looks seldom speak of love.”
Tseng-tzu said: “Thrice daily I ask myself: ‘Have I been unfaithful in dealing for others? Have I been
untrue to friends? Do I practise what I preach?’”
The Master said: “To guide a land of a thousand chariots, honour business, be true and sparing,
love the people, and time thy claims upon them.”
The Master said: “The young should be dutiful at home, modest abroad, heedful and true, full of
goodwill for the many, close friends with love; and should they have strength to spare, let them
spend it upon the arts.”
Tzu-ch’ in said to Tzu-kung: “The Master, on coming to a country, learns all about the government:
does he ask, or is it told him?”
Tzu-kung said: “The Master learns it by his warmth and honesty, by politeness, modesty, and
yielding. The way that the Master asks is unlike other men’s asking.”
Young Caine: The silkworm dies, the moth lives, yet they are not two separate beings but one and the same.

Master Kan: It is the same with a man. His false beliefs must die, so that he may know the joy of the Way. What you felt in the Silence is real. Something in you is dying. It is called ignorance.

Young Caine: Do evil demons exist?

Master Kan: Do wars, famine, disease and death exist? Do lust, greed and hate exist? They are man’s creation, brought into being by the dark side of his nature.

Words of Lao-Tzu: He who is open-eyed is open-minded. He who is open-minded is open-hearted. He who is open-hearted is kingly. He who is kingly is Godly. He who is Godly is useful. He who is useful is infinite. He who is infinite is immune. He who is immune is immortal.

1. Expect no reward for an act of charity. Expecting something in return leads to a scheming mind. So an ancient once said, “Throw false spirituality away like a pair of old shoes.”

2. Don’t seek profit over and above what your work is worth. Acquiring false profit makes a fool (of oneself). So an ancient once said, “Be rich in honesty.”

Well I want to personally thank you, Rae and you, Heiko and all of the infantile immature backstabbers. Thanks for your pedantic slow witted responses that were a very big help in exposing the lies and crimes of david. You see when you go to a lecture and see someone like me lecture from time to time small minds like you form a resistance to a great spirit like me it is a Yin and Yang thing. But when this resistance forms in your mind you want to say something stupid about me. But in a lecture a little censor stops you for you don’t want to say something about my dress in a lecture it would make you look stupid. The rest of the people in the room will then know that you are a bigoted small minded idiot.

But on the internet the censor is somewhat disabled. So you say things you would not say in public. But when I then share them with others you look like a small minded bigoted idiot. Why because you are a small minded bigoted idiot. Your comments never had any substance, they were just vague childish immature and they showed everyone that you were covering up something. When someone takes the cheap shot of name calling Desire it is always a tip off of something else behind it. I call it the Desiré trap and you feel into it quite well.
With your help your childish non-essential babyish criticisms was a trigger to get the others to wake up and think. When they did they saw your juvenile foolish babble about me versus the intellectual clarity I gave them. They checked things out and woke up as to who really wrote the software, who registered the software, who did the science, who wrote the books, and who was to be trusted for advice and support versus who was lying with childish name calling. Who is right and who is wrong. So with your help now david has been almost completely discredited, I could not have done it without you. Thanks.

It was not and still is not my goal to discredit. I have reached out several times to try to help david and get him to cooperate with legal issues. But your immature ranting at me rather than trying to talk sense into him made you the real culprit in the discrediting of david. You could have helped him, but your small minds would rather childishy babble and twist things about me rather than network and cooperate to make things better for all users. It was not and still is not my goal to discredit. But that’s how it turned out when david’s ego got in the way.

All of you and david have all talked to lawyers and you have all been told that altering a medical devices software is a crime. But still resistance. I am sure that david is desperately trying to work with the life people who also just type in words without scientifically testing them. Well perhaps they belong together. But to me the quality of the test is the basis for the test.

Well I have received over 75 e-mails of people who have seen the light from looking at your childish emails. Most have left the biased name calling Desiré bashing chat group and moved on. Many have checked out the issues and found me right and just in all things. All have found your banter immature. I provide a small sample of the emails for you to see what happens when you don’t listen to the little censor in your brain. Next time be more adult and don’t just knee jerk out childish tantrums. Keep your peevish crabiness to yourself and try to be more honorable and less slanderous. It is a better way to be. And maybe this has been a growth experience for you. I know it is hard to believe but one day you will thank me.

But for now let me thank you for my printing your childish slander and vague unsubstantiated remarks was so key in exposing the truth of the crime of adulteration. Once again thanks. At first you will be angry at reading this. But one day you will wake up and see that I was truly trying to help you and david and everybody. One day you will see that my honor and integrity were really trying to help not hurt. Here are just some of the emails I got of people seeing the truth. Here is what your slanderous stupid name calling of me has done. See the results of your childish emails. Most have left the biased name calling Desiré bashing chat group and moved on.

1. Hi,

   Integrity is following the Law – and Desiré is doing that. Integrity is protecting Users and Practitioners in doing so – Desiré is doing that also.

   Desiré IS standing behind her product, and she is doing a good job supporting it! You should open your eyes.

   SO, I DO appreciate questioning Desirés authority and the need for questioning authority in general–

   HOWEVER, I HAVE BEEN questioning Desirés Authority! I HAVE BEEN asking her the questions that have needed to be asked!!

   Have you noticed?

   AND, Desire HAS ANSWERED! She HAS RESPONDED and Given us ANSWERS!!! She has given us truthful, Reasonable, Real answers to the questions on these ‘authority’ issues regarding the device, etc....

   And Desiré has shown us that she has done nothing wrong here.

   You simply haven’t been listening – but I have! (Remember me, Wonder Woman with the Magic Lasso of truth here? :))... Well I got the truth – and I just posted it with another of Desiré’s email responses regarding plug-ins, etc... it is the truth Peter...I have no invested interest here in anything except to find the truth, and for the truth to be so... But don’t twist things around anymore about that 50% efficiency remark –she said it like 3 times now that it was 100% IN 2006, where that old version is 50% NOW. That’s why you need to upgrade, so you can get 100%,  Now! :) -

2. To everyone:

   I have checked with an FDA lawyer and I have confirmed everything Desiré has said as truth. It is a crime to alter and sell a medical device’s software. Everything she has said including her background has been confirmed as truthful. We have checked the device and found that the so-called frequencies of GMD are a lie. Most Everything GMD has said has been found out to be a lie. And his people are maliciously and childishly attacking Desiré to cover up this set of lies and crimes. The whole chat group seems to be devoted to supporting the lies and crimes of GMD. Only Desire can lead us to truth. We all need to listen to her.

3. Hi Desiré

   Loving your sweet and articulate posts. I have so many questions, some day I will compose the most important and send them to you. Loved the cartoon.  forwards me the posts. Good thing I am no longer on EPFX chat, it would be hard to refrain from commenting on the situation with David...Grand master of ego and self interest and of course stupidity!

4. Well I have been watching this circus of interaction and the revolving door of silly accusations against Desiré. Just thought I put in a comment or two.

   First if you change a medical device in any fashion and sell that change it is a crime under FDA law. Next I met both Desiré and David Harris. Desiré is as sincere honest and honorable a person as I have ever met. David is an ego maniac that can not be trusted. David is secretive and vague in science. Desiré has proven her background in electronics, medicine, mathematics and business. David has no real education past early high schools in these areas. Comparing Desiré to David intellectually is like comparing a post college graduate genius to an 8th grader, an 8th grader with delusions of grandeur. There is simply no comparison.

   The worthless banter of slurs against Desiré and I have watched her one by one explain each to every normal mind. But the chat group is run by a slave to David’s ego, and the chat group is
crawling with unethical ulterior motive people acting out of greed and guilt as they ruthless attack Desiré with mindless drool and unsubstantiated lies and rumors.

5. I have watched Desiré answer each and every question with professional decorum from experience and a display of an honorable intellect. I have watched the other people use backstabbing prejudicial unethical smearing techniques that disgust me. They attack Desiré with dim-witted lies rumors and just plain immature rumblings. I can now see more than ever the intellect and ethical honor of Desiré and how she handles these juvenile foolish people is a display of grace.

6. I saw a remark from one of the people regarding your comparison of Desire with David Harris. I am an engineer with a bio-med background.

I met both of them. Desiré is sincere and straightforward. David has delusions of grandeur and no experience or education in the areas of bio-medicine.

Desiré has a PhD level education and vast experiences. She has been nominated for the Nobel Prize in Medicine for years because of her vast knowledge and new ideas of bio-medicine.

David is a doit. He doesn’t understand the simplest of electronics. His charlatan pretense might convince a lesser person but to a professional let me assure you saying he is a doit is an insult to doits.

The valueless mockery and lies against Desiré have angered me. But the chat group is run by David’s ego. Any of moderate intellect can see this. And there are some very small minded imbeciles running amok with lies.

7. Hi Desiré

I just posted your email below, etc - hopefully it posts... I think this is a good letter, so if they still can’t get it and wake up, well then maybe they deserve to be arrested for being too dense or something, because I don’t know what else we can tell them... I guess we’ll see what happens...

Tthanks...

8. Dear Desiré

Now on reading your very professional responses and the incredibly stupid pedantic twist they give you back I can see that GMD is just a charlatan and a fraud. Why does he not step forward and tell how he put in the frequencies. I asked him and he won’t tell. But now I realize from reading that you wrote the software and thus know what happened. GMD is thus afraid to deal with you and be exposed. Now I can see this and I feel duped and deceived and I appreciate your patience in dealing with these very stupid people and their comments.

9. Are Rae and Heiko fifth graders from the valley or what?

There stupid childish and immature criticisms of you Desiré just show how unintelligent they really are. I thought that there would be some intellectual substance behind GMD behavior now I see that there is just a group of bozos twisting everything they read.

10. Oh my God I checked into it and absolutely everyone saying bad things about Desiré is in the income stream of GMD plugin.

Desiré is right there is an ulterior motive in protecting GMD from exposing his lack of expertise. Desiré is being attacked as a smoke screen to cover-up the crimes and the ego of GMD. I hope that the rest of you can see this now. I can. It takes a big person to admit he is wrong and I am now admitting I was wrong. The GMD plugin is unlawful.

11. Desiré You are amazing!

...to be able to even discuss this with the ignorant slaves that grovel at the feet of the grand master of delusion, there after referred to as GMD! On another note, if you ever do private tutoring please count me in! I do not think I can make it to Budapest this year but I would love to have some lessons from the true master, your self. I know you are really busy and understand there are limitations to what you can take on but if there were recordings that maybe you have done in the past that I can watch on line? I am a very successful practitioner because of what you have taught me thus far and I am ready to go to the next level. I truly love what you have done for humanity. Thank you from the deepest places of my heart.

The malicious sadistic cruel things that heiko rae and the other GMD criminal say about Desiré is just a point as to their criminal and childish behavior. the case against Desiré in America has nothing whatsoever to do with the device, and when heiko, rae and others mention it, it is just another diversion from their crime and participation in adulterated software. I thank you Desi for pointing out these things to us. Believe me we can all see things more clearly now.

12. When GMD resists making the software legal and rejects Desirés help for reason of ego.

It is an appalling example the he is not a master of anything except ego. We are at risk and his ego is much more important than us.

13. Bless your heart!!!

These folks are sick and there is such resistance to what is really going on. It is not Desirae’s fault that software is obsolete every 2 years and it is not her fault that these folks are being selectively fed partial truths from Kevin. I heard from a very reputable source that Kathy Blair stole someone else’s work to make her upgrade!!! Gee, maybe that is why she is not forth coming in jumping on the GMD’s ( grand master of delusion) band wagon. Kevin Green has created a mess with his stigmatizing and spinning of false truths and Desiré did not make the law of karma that will bite him on his royal ass! Keep me posted. I am so less stressed not dealing with the list but I know allot and would love to give you any info that might help the resolution of it all. Blessed be Friend, and not in the sacrilegious way Heiko throws that word around either!

14. Dear Desiré

You don’t know me but after reading you intelligent ways of dealing with the unclear attacks on you I would like to meet you one day. I know for a fact that GMD knows full well that the plugin he
The Story of the Slur against Desiré

sells is illegal. A lawyer friend has told me he has been so advised. We wer all duped by this person and some of us tried to tell him to work with you. We saw your generous and gracious offer to help us all, but Ray Folley and others said they were not interested. I asked why are you not interested in obeying the law. there was no reply. But now we can tell why GMD fears exposure of the truth that what he told us of his work on the software is a lie. My brother is a software programmer and upon seeing the software he said only the original programmer can tell. He says why would Desiré lie. And the original programmer is you Desiré. You know the software the best. Each word you say turns out to be true and we can all know better now.

15. I have had enough of the Desire bashing and this great person has given us a great gift and does not deserve to be treated this way. I am leaving this chat group.

15. Hi,

You know it’s so funny, but I was just listening to Desiré’s uniquely DEEP voice singing a song on youtube, and I thought to myself, where have I heard that voice before?

Oh yeah, now I remember!! It was in the biofeedback program when running the third eye / psychic abilities program I think, etc?? Lol... Yes my clients and I often wondered what was up with this wild voice!? Wondering where on earth did this wild voice come from?? :)... It was Desireé!! lol...

Like this song called, “as long as I have my plastic jesus on the dashboard on my car.”...

It’s hysterial... lol... But in terms of technical quality singing, the best song I’ve actually heard her sing posted was “Take a Walk on the Wild Side”... I think this song was actually written for a transvestite to sing, so it suits her – plus, somehow she actually hit the notes on this sing pretty well, it works for her voice... maybe no accident – and she creatively rewrote the lyrics to tell her story, etc...)

I also liked ‘bills theme’ about the homeopathy song...Actually there is an interesting quality to her voice that I think could suit children’s songs well.... (though I am not sure it works so well to say, Celine Dion type songs...) Just my analysis... :) Thanks,

He hasn’t sent anything to me but here is a reply

Can you provide me proof of your credentials as a lawyer, because your request seems to be outside of the bounds of the first amendment. Please describe just which statements are false and or misleading. Number one as a lawyer why do you refer to david harris as grandmaster is this title relevant in any way or is it an unrelated title use in a con game? Why has not david replied or obeyed the two cease and desists has he been given by the main software company? Do you and david presume that you can choose which cease and desist you should obey and which you should offer? Please provide any evidence of any real FDA compliance application, for it seems that this is not real. The FDA would not allow one to circumvent a primary software. The main software company who has officially registered the main EPFX software has deemed this software plugin as illegal and no proof of safety has been done to proof it safe so the FDA deems it harmful till proven safe by the main software company. So a decision has been rendered, the plugin does not have proper legal compliant clearance. If the main software company, Eclosion, cannot test the software plugin because your client refuses to allow it to be tested and your client refuses to obey a cease and desist the plugin is unsafe till proven safe. The plugin is illegal till proven legal and since it is a piggyback software the first step of validation and testing is from the main software company. The FDA cannot and will not allow a piggyback plugin to be marketed without the main company’s permission and full validation and safety testing. If you are a real FDA lawyer you would know this. The primary question is how do you presume to circumvent the main software company and why does your client refuse to cooperate with them. So please answer these questions so we can help the users who at this time are undeniably unquestionably irrefutably being sold an illegal software plugin by your client.

If you were a real FDA lawyer you would know that while an application for compliance is being considered by the FDA no one can market the plugin. Sale of a plugin that does not have a marketing clearance is illegal. Till that clearance is given, till you present the papers from the FDA or from the holders of the original registration, your plugin is illegal. Till you present such evidence of clearance my statements of the illegality of the plugin are true and factual. Please let discuss this as adults and provide us with the answers in timely fashion so we can help the users.

Well it is really this simple

The FDA device act of the US Code of Federal Regulations says no device can be marketed without proper registration. You must register your company, your device, your safety. Three bits of paper are needed. Of course we have all of these. david does not so his plugin is illegal to market.

Now since the plugin operates with another software the main software it can be easily brought into registration of the main software. It is a simple process of cooperation. 1. Negotiate a contract. 2. Present the plugin for safety testing. 3. Market freely. SIMPLE. Till this happens the plugin remains illegal. This is the law. This is the truth.

Why does he not? Well it would prove his statements of his electronic abilities as fiction. He fears this and this alone. So you the users remain at risk. This is simply the problem

As to Kathy Blair’s statements. Her account of the history is not quite the same as ours. Her ideas of contracts were not the same. Richard and Sue can account our side of the story very easy. She had her estimates of worth and we had ours. Her background does not allow her to make medical decisions. This was a main stumbling block to dealing with her. Her skills as a librarian were transgressed when she starts making medical decisions on her own. She describes this in her last letter. She does not know if something is good for the heart and colon. And she would correct these things without a medical consult. That led to us not working with her more than anything else. But I am willing to respond to any issue presented to me.

But the issue that there is any negativity or any potentially harmful intent is not true. There is not one negative word, ideas, or intention in any of this the largest medical software known. Not an impulse. It is designed to help, heal, understand and protect the patient, the therapist, the developers and their families. It involves the highest levels God consciousness, positivity, divinity, and spirituality possible. Not one word or even a miniscule hint of negative intention is in the
program. It is designed to not allow this to happen inside the software. To shield, heal, help and protect the software safeguards are designed sharpen karmic law and protect those from negative intention. To guard against this Karmic laws of growth, repercussion, expansion of consciousness reflect back any such negative intentions to the negative heart of this wishing to harm or hurt others.

The bible says: “Give, and it shall be given to you. For whatever measure you deal out to others, it will be dealt to you in return.”

“For the eyes of the Lord are over the righteous, and his ears are open unto their prayers: but the face of the Lord is against them that do evil. (1 Peter 3:12)”

“The fear of the Lord tendeth to life: and he that hath it shall abide satisfied; he shall not be visited with evil (Proverbs 19:23).”

“Resist not evil: but whosoever shall smite thee on thy right cheek, turn to him the other also”

“A fool finds pleasure in evil conduct, but a man of understanding delights in wisdom”

“An evil man is trapped by his sinful talk, but a righteous man escapes trouble”

“Reproach from the hand of Nabali, and hath kept his servant from evil: for the LORD hath returned the wickedness of Nabali upon his own head.”

“Hear all the evil which I purpose to do unto them; that they may return every man from his evil way; that I may forgive their iniquity and their sin.”

“And the LORD said unto him, Therefore whosoever slayeth Cain, vengeance shall be taken on him sevenfold. And the LORD set a mark upon Cain, lest any finding him should kill him.”

To GOD belongeth vengeance and recompence; their foot shall slide in due time: for the day of their calamity is at hand, and the things that shall come upon them make haste.”

“Avenge not yourselves, but rather give place unto wrath: for it is written, Vengeance is mine; I will repay, saith the Lord”

These are just a small bit of the work in the prayer wheel, so if you do not understand the bible how can I get you to understand the prayer wheel. Those who wish evil are repaid by God, it is God’s vengeance. I just pray for protection from evil. Like in the Lord’s Prayer. Only the evil need fear the prayer wheel.

There are no evil thoughts words or ideas in the software.
The Lord’s Prayer

Our Father in heaven
Hallowed be Your name
Your kingdom come
Your will be done
On earth as it is in heaven

Give us today our daily bread
Forgive us our debts
As we forgive our debtors

And lead us not into temptation
But deliver us from evil

For Yours is the kingdom
The power
And the glory forever
Non-judgmental Awareness is the key to an enlightened mind, to harbor judgment. Bias and prejudice limit the mind and reduce its true potential. If this picture bothers you then it is a sign of a limited intellect.

WHY ARE SO MANY PEOPLE AFRAID OF THIS PICTURE

This is the picture that ran in the Malév Airline magazine, “The Horizon” for two months

...then they found out it was a man, and the homophobic assholes running the airline stopped the add. We went to court and pointed out that the laws of the EC prohibit discrimination.

They ran an add then stopped again. The court case is still pending and in its fourth year. Illogical and irrational fears are hard to dispel, especially when there are latent homosexuals running airlines and afraid to read today’s laws.
The Story of the Slur against Desiré

Princess Diana dead after Paris car crash
Companion Dodi Fayed, chauffeur also killed

Ten years later they try to kill another Princess, only this time the Princess rises up against them
Miracle Machines | The 21st-century snake oil

They can cure cancer, reduce cholesterol, end allergies, treat cavities, kill parasites and even eliminate AIDS. "Energy medicine" devices can...

ALAN BERNE / SEATTLE TIMES

The EPIEX's slick and sophisticated graphics may impress, but an internal research shows that energy machines are dangerous and medical problems. Still, charts may pay hundreds or thousands of dollars for treatments with practitioners. This session was at the Puyallup Fair. The Scientific Evidence is stunning but is a threat to the Chemical companies, there are thousands of articles and hundreds of books.

They can cure cancer, reduce cholesterol, end allergies, treat cavities, kill parasites and even eliminate AIDS.

"Energy medicine" devices can be as small as a television remote control, or as large as a steam room.

Their operators say the devices work by transmitting radio frequencies or electromagnetic waves through the body, identifying problems, then "cleaning" them. Complete cure the devices have been proven safe and effective.

Their claims are a fraud — the 21st-century version of snake oil. But a Seattle Times investigation has discovered that hundreds of these devices — many of them illegal or dangerous — are found in dozens of venues nationwide, from the Puyallup Fair, to healthcare clinics in Florida, to an 888-bed regional hospital in Milwaukee.

After 23 years of use and millions of patients, not one reported significant risk for our devices has ever happened.

These are not the devices in wide use by medical doctors, such as electrical stimulation used for sport injuries. Nor are they the biofeedback devices used at respected alternative-medicine centers such as Seattle's Bastyr University. Rather, these are boxes of virus purported to perform miracles. Their manufacturers and operators capitalize on weak government oversight and the nation's hunger for alternative therapies to reap millions of dollars in profits while exploiting desperate people.

How one man's invention is part of a growing worldwide scam that snare the desperately ill

What does "FDA registered" mean? Not much. The FDA registers manufacturers of energy-medical devices — not the products.

By Michael J. Berens and Christine Willmert

Seattle Times staff reporters

In Tulsa, Okla., a woman suffering from unexplained joint pain was persuaded to avoid doctors and rely on an energy device for treatment. Seven months later, her son took her to a hospital. She died within hours from undiagnosed leukemia.

In Los Angeles, a mother pulled her 5-month-old son out of chemotherapy for cancer and took him to a clinic where a 360-pound machine pulsed electromagnetic waves through his tiny body. The baby died within months.

This was not the EPIEX as any of our devices, these are found opening in medicine.

In Seattle, a retiree with cancer spent her life's account to buy an energy machine. Shortly before she died, her husband, a retired Microsoft manager, examined its software, finding that it appeared to generate results randomly — "a complete fraud," he said. The EPIEX does not do this unless it is not hooked to a human.

Over the past year, The Times investigated these machines and the people behind them.

The investigation took us to where the manufacturers of some of these machines are based, in Hungary and Greece. We found the operators — including a cross-dressing federal fugitive who moonlighted as a cabinet singer — making outrageous claims as they peddled their wares.

We discovered the U.S. regulatory system has allowed them to flood this nation with an estimated 40,000 devices. I am not a fugitive and what does my despair have to do with this article, speaking of it and my sexual identity is an insult to the intelligent mind. And we learned that many operators consider our state a safe haven for these "miracle machines."

Not true. The EPIEX was registered by the FDA in 1999 as a medical device and has been successfully tested as safe and effective ever since, but chemical companies fear and dread therapy and as people become more aware of the problems of side effects of Sinhle or safe pharmaceutical drugs with massive side effects, they are turning to more safe and effective therapies. And the drug companies prosecute those who are developing drugless therapies.
The Story of the Slur against Desiré

There are many foods and chemicals selling illegal or deaths experimental devices hurting people, but I am not one of them. In fact, I am a crusader for the law and the right way of doing business. When I painted a question about the illegal illegal devices manufacturers to learn the law, the FDA used it against me rather than to applaud me for helping. I deeply respect the law and I have never committed any such crime in any fashion. The charges against me come from confusion in the FDA. Capitalizing on vast government oversight, they have used these devices to some effect.

Others potentially dangerous — to drain patients’ bank accounts, misdiagnosing diseases, and divert critically ill patients from lifesaving care.

These victims are casualties in the growing field called “energy medicine” — alternative therapies based on the belief that the body has energy fields that can be manipulated to improve health. Energy devices range from handheld machines to size of televisions remotes to behemoth machines that weigh hundreds of pounds, with costs ranging from $1,200 to $53,000.

Many manufacturers and operators do follow FDA rules and disclose that treatments are unproven.

But The Times’ investigation, based on government records and more than 200 interviews, found thousands who stuck the law. Among its findings:

- FDA officials do not know how many energy-devices exist, where they are used and whether they are safe. Ten years ago, Congress reduced medical-device oversight. Ever since, most energy-device manufacturers who register with the FDA submit little more than basic contact information.
- Federal and state regulators failed to warn the public about a dangerous energy device, the PAP-IM, which is linked to patient injuries and death. Nor did they confiscate all of the devices, which pulse the body with strong electromagnetic waves. They had been smuggled into the country as seed generators. The PAP-IM remains in use today in at least five states, including Washington.

Many energy-device operators dupe the public by posting as highly trained health-care professionals through the use of deceptive credentials and unaccredited degrees. Some of the largest and seemingly independent credentialing organizations are in fact controlled by two men who run competing multi-operation.

FDA spokesman Karen Riley said the agency is looking into the EPFX based on The Times’ findings. After looking into the situation, a report of petty violations was reported and an American manufacturer made all its right and legal but no apology has come forward. Medical charities have sold energy devices in this country for more than a century.

In the past decade, the machines exploded into the mainstream, fueled by the Internet, which quickly and cheaply reached prospective buyers and patients.

Today, dozens of energy-device manufacturers present flashy Web sites with video testimonials and fake science.

“The message itself has stayed the same for centuries: ‘This is the cure that I discovered and it’s backed with testimonials from lots of people matched from the grave by using it,’” said James Wharton, professor of medical history at the University of Washington’s School of Medicine.

The National Institutes of Health says research in the area of energy medicine may hold promise, but so far no device, or their treatments, has been scientifically validated. Only one has met the criteria for scientific evidence, the EPFX.

In 5th grade we are taught we are made of atoms which are made of electrons and protons all we are is energy fields.

Some practitioners also use electronic devices that claim to interact with the body’s energy fields through the use of frequencies and waves lengths, such as electromagnetic, sound and light of course in Seattle they have a different 5th grade.

Other devices purport to interact with the body’s cells to reduce pain or inflammation.

The National Institute of Health’s National Center for Complementary and Alternative Medicine reports that while some energy devices may hold promise, they have provided scientific evidence that they work.

Very Not True, the leader in this field is the EPFX with hundreds of articles proving effectiveness in peer reviewed medical journals. In the late 1980’s, an out-of-work math instructor in Colorado built an electronic device he claimed could diagnose and destroy disease — everything from allergies to cancer — by firing radio frequencies into the body.

But the U.S. Food and Drug Administration, which regulates medical devices, ordered William Nelson to quit selling his machine and make false claims.

Nelson refused and was indicted on felony fraud charges. He fled the country, never to return. Very Not true in fact at no time was I ever told or sold the device and the FDA made false claims to indict me.

That should have been the unremarkable end of another phony of medical miracles.

Today, Nelson, 56, orchestrates one of America’s boldest health-care frauds from a century-old building in Budapest, Hungary. Protected by barred gates, surveillance cameras and guards, he rakes in tens of millions of dollars selling a machine used to exploit the vulnerable and desperately ill. Having protection is a problem; how many of you scammers have a gate, how many of you have cameras and doors, most of you do what this have to do with anything.

This device is called the EPFX. In the U.S. alone, Nelson has sold more than 10,000 of them.

More have been sold in the Northwest than in any other region, company officials said.

Nelson has built his business by recruiting a sales force of physicians, chiropractors, nurses and thousands of unlicensed providers, from home-sweeps to Elvis impersonators, dramed by the promise of easy money.

Can you read Doctors, Physicians selling a legal device prove safe and effective and this is a problem? What is wrong with this?

In just one prolific, with one device.

A Seattle Times investigation has uncovered a global network of manufacturers who sell unproven devices, and practitioners who prey on unsuspecting patients.
The Story of the Slur against Desiré

Myers, a massage therapist, has no formal medical training or college degree. But on the wall of her home office was half a dozen framed certificates that bestowed her with health-care titles and credentials such as "naturopathic doctor."

"We're not supposed to say it, legally, but it can zap away disease," she told a reporter who visited the clinic. Asked why the EPFX did not do JoAnn Burgraff, Myers told us: "I think she didn't have what I was doing." She was not well trained but still should have encouraged the client to go to medical help if no results were seen.

Nay, she said she's more experienced. "The first thing I train them to do is refer patients to medical staff.

Myers continues to treat patients in her home office with a newer EPFX. She persuaded an elderly patient to buy the machine for her, which cost $12,000. In exchange, Myers said, she didn't charge the woman for EPFX sessions to treat her heart disease.

That patient died, too. "Patients die, none has ever died of the EPFX, while the hospitals and medical staff are the largest killers of people today," she said. "They continue to treat patients for EPFX sessions to treat their heart disease."

Last year, at an international EPFX conference in Budapest, William Nelson bounded to a stage in front of a cheering crowd of several hundred — operators of the machine or those hoping to buy one. They rose to their feet and applauded.

He explained how he used the EPFX to cure cancer and AIDS. "The problem is that it's all right," he told them.

But nothing is what it appears with Nelson, including his appearance. On stage, he wore a white tunic, black pants and a dark hat. It is not a problem unless you are alatent homosexual or this author."

"Judge the teaching, not the teacher," he told the crowd in a soothing baritone. Nelson is a polished performer — funny, confident, commanding the attention of a natural-born salesman. He has never sold a device since 1989, which is why it's not a problem.

Later, under his stage name Desiré Dubose, he sang rock songs at his lounge, Club Bohemian Athens. His changed name in Europe America and the world is Desiré Dubose. I performed in front of hundreds and it is not a problem.

This is the Nelson that few patients ever learn about — the upbeat, optimistic and caring doctor who uses the machine. From his restored, five-story building in downtown Budapest, Nelson operates the main EPFX business, Euclion, and lives with his fifth wife and 8-year-old son. He has a personal staff of around a dozen, including a cook, hairdresser, nanny, security guard and chauffeur.

"From his movie production studio, he has created films that portray him as the crusader of alternative medicine and the FDA as the corrupt villain, and the problem is that it's all right," he said. "The trouble is that they've sold 17,000 EPFX devices worldwide. They now cost $19,000 each."

Nelson makes extraordinary claims about his life. He said he worked as a contractor for NASA, helping to build the space shuttle. He is an alternate member of the 1968 U.S. Olympic gymnastics team. He says he has eight degrees, including degrees in medicine and law. He does not dispute this but what and why is the problem here and why is the Beatles Times allowing a man to publish so much to so many and without an article making disparages with no evidence against me. As I proved these things to him, he smiled and asked me why I was doing this. He was the performer.
The Story of the Slur against Desiré

As I specifically told him I worked on the navigational systems at AC Electronics in Milwaukee Wis which was a contractor for NASA over 99% of the people who worked on the Apollo project worked with subcontractors, so I knew him. The Olympic performance and my degrees come from accredited schools as I stated to him.

None of it checks out. NASA has no record of his employment; he was not an Olympic athlete. And his "degrees" came from unaccredited schools and mail-order businesses.

In truth, a third, Nelson was a part-time mathematics instructor at Youngstown State University in Ohio, according to school records, with BS and MS degrees from fully accredited schools.

As an avid Star Trek fan and father of an autistic son, Nelson became obsessed with creating a space-age device that melded modern mathematics with alternative therapies to heal the body.

In 1994, he moved his family to Colorado, where he started to sell his homemade medical device, the Electro-Physico-Feedback-NeroMed System, or the EPFX.

Nelson registered his company with the FDA in 1989 as a maker of biofeedback machines, meaning he could sell them only as stress-relieving toys. By law, he could not claim the devices diagnosed or treated disease. Any medical device does not diagnose only humans can do that and the device treats people not diseased this disease treated stress.

But Nelson did it anyway. In 1992, the agency ordered him to stop making false claims, then later ordered a recall of the EPFX. But Nelson continued to sell it as a healing machine, no such document exists.

I went to court in 1996 and Judge Maschke dismissed. He was indicted on nine counts of felony fraud in 1996 and fled the U.S. Nelson remains the case registered with the FDA, and Judge Maschke said he saw no crimes, the FDA illegally got a second indictment after Judge Maschke had said he did no crime.

Today, Nelson's sales empire reaches across 32 countries with dozens of distributors, brokers, and dealers the U.S. Top sellers can get hefty commissions, tropical cruises and BMW sedans.

Emma Robinson, a regional manager for the Pacific Northwest, earned one of the BAWs. She said she pulls in about $7,000 a week through sales commissions and by treating patients at her clinic, Quantum Pacific Wellness Center, in Wildsville, Ore.

Nelson and his distributors saturate the Internet with glossy Web sites packed with animation, music, videos, even operators available to answer questions.

EPFX sales have exploded, fueled by aggressive marketing including such pitches as a physician for pop star Britney Spears and a chiropractor for cyclist Lance Armstrong.

As Nelson tells his audience: Conventional doctors speed patients through appointments with treatments that focus only on symptoms, not on the root causes of ailments. The EPFX treats the whole body, and it does it without surgery or drugs.

Practitioners encourage patients to talk with them about any health problem. EPFX treatments typically last an hour. Afterward, a substantial number of patients will report that they feel better.

Energy-device operators benefit from the placebo effect, a psychological phenomenon in which patients report improvement that cannot be linked scientifically to treatment, studies show. People feel better through the power of suggestion or because they believe they are expected to feel improvement, experts say.

all opinion no substantiation

This article has such bias and the deceit and deception of the author means he obviously had a hidden agenda before he did the interview. This article was written before he even got on the plane. He came here and pretended to be honest all the while making biased judgments in all he saw and giving us no chance to respond to his bias.

The EPFX is made up of circuit boards and other computer components that run software full of colorful graphics of the body. During a typical EPFX treatment, a patient may watch as a computer screen displays an animation of the interior of an artery blocked by white plaques, representing cholesterol. Then the plaque shrinks and disappears.

Tens of thousands have found Nelson's pitch persuasive. "Traditional doctors don't want you to use the EPFX," he says. "They will tell you it's a fraud. That's because they are scared. I have discovered something that will put them out of business. And they don't want you to have it."

His fervor is shared by Emma Robinson's husband, John, also an EPFX regional sales manager. He says the device can do most anything.

"It's the closest thing to God I know."

Homer-system loophole: the EPFX was registered in 1989.

In 1997, Congress passed the Food and Drug Administration Modernization Act, which made it easier and quicker to bring a device to market.

Consequently, the number of energy-device makers has increased to 462, up 45 percent in the past decade, according to a Times analysis.

The act also exempted many manufacturers of low-risk devices from submitting proof that the machines worked and were safe.

The agency places them on the homer system when it comes to classifying these devices. As a result, a popular strategy for some manufacturers is to list their devices as biofeedback machines. Legally, they can only be used to relieve stress.

But The Times found dozens of biofeedback devices are marketed to the public with wild claims. Some examples:

- Practitioners using the LIFE System, distributed by Nuvico, Inc., offer patients a "full diagnostic treatment system." They claim the devices can assess the health of organs and "clear health blocks," from allergies to dental problems.

- The LIFE system it is a computer and adjuvant inflammatory ailments.

I have helped to develop this system. The California-based energy system is the Infraradicore System that can "scan and balance the organs and systems of the body."

"This device has not been scientifically proved."

Additionally, health improvements are shown on a computer screen "as they occur."

Installed in a hospital

Three years ago, EPFX operators scored one of their biggest coups: They managed to get two devices into a U.S. hospital — St. John's Hospital, an 86-bed facility in Springfield, Mo.
The Story of the Slur against Desiré

Nelson markets this as proof that mainstream medicine embraces the EPFX. On Friday, hospital administrators launched an investigation into how the EPFX machines get approved. They learned about their presence from The Times. The idea is the same: it's a tool.

The idea is that a machine can detect cancerous cells. The machine is called the EPFX. It is a device that uses a combination of sound waves and ultrasound to detect cancerous cells. In Seattle, these devices were used to detect cancerous cells in the breast. But what about William Nelson?

In addition, Susan Blackard, a hospital vice president who oversees that department, conducts pain management training sessions for EPFX operators worldwide. Records show Blackard, who is also a registered nurse, trained several hundred people at a conference last year in Budapest.

Neither woman returned calls for comment.

St. John’s spokeswoman Cora Scott said the hospital is reviewing the employees’ relationship to Nelson and the EPFX sales network.

The hospital is owned by the Sisters of Mercy Health System. Officials there said the two EPFX devices were used only for stress relief.

One operator cut off, case closed

Washington state regulators first learned about the EPFX in April 2004 when a Payntahup physician filed a complaint that an unlicensed healthcare practitioner in Tacoma was using it.

State investigator John Kuehr checked out the complaint, interviewing Jedd Zibell, who used the EPFX at his spa.

At the same time, Kuehr learned that other EPFX operators across the state were using it. In May 2004, Kuehr wrote to his superior: "This device is being used by unlicensed people to treat and diagnose patients with illnesses."

Unlicensed people were a problem not the device itself. The device’s ability to detect cancerous cells is based on the principle of detecting changes in the electrical activity of the cells. The device uses a combination of ultrasound and sound waves to detect changes in the electrical activity of the cells. Neva’s colon so she "sailed a worm" with the device’s electrical frequencies.

That was enough for investigators. Zibell conducted an EPFX session at Department of Health headquarters in Olympia. Zibell connected the EPFX to state investigator Carol Neva. During the demonstration, Zibell said the device detected a parasite worn by Neva’s colon so she “sailed a worm” with the device’s electrical frequencies.

In Oregon, regulators took a very different approach.

Karen McBeth’s loss

There is a complete scientific explanation that they did not request and the body is electrical in every function.

Seattle cancer patient Karen McBeth, 59, had no trouble finding an EPFX operator. A retired employee with state Juvenile Rehabilitation Administration, McBeth had squamous-cell cancer that metastasized into terminal bone cancer. She underwent chemotherapy.

By early 2005, she was in such poor health that she could barely walk.

Desperate for a cure, she looked for an alternative. And a friend learned of a BioScience, a health-care clinic in Portland that offered EPFX treatments. BioScience was run by Robert and Marie Edrmann, and their daughter, Ann Riner. None of them had a state healthcare license. McBeth was skeptical at first. But she did some Internet research and learned the device manufacturer was registered with the FDA and that dozens of physicians and chiropractors touted the device.

She began twice-weekly treatments. She was even persuaded to buy a machine for use at home, and spent $17,000 from her retirement savings.

“She was led to believe that treatment would cure her cancer,” said her husband, Al Bergstein.

By the summer, she began to doubt whether the device was effective. She died Sept. 3, 2005.

Bergstein said the device offered a false hope that consumed his wife and robbed the family of precious remaining time with her.

A retired Microsoft manager, Bergstein looked at the source code in the EPFX’s software. It appeared to generate results randomly. If you read the science and ask for help to understand it, you will see it is not true and the author is telling you his one story over and over again as if it is new. Very, very unprofessional. This man made no complaint to me.

A cure for everything

The world’s largest EPFX distributor, The Quantum Alliance, is headquartered in Calgary, Alberta. It also operates its largest North American training center in Victoria, B.C., not far from Seattle.

Ken William, chief executive officer, said the company does not market the EPFX as a diagnostic or healing machine.

However, dozens of such claims are found in the company’s brochures and newsletters. For example, one brochure, used by a Washington practitioner this year, claimed that the EPFX can test for tumors, bacteria, viruses, allergies, parasites and disease.
The Story of the Slur against Desiré

In addition, The Quantum Alliance distributed a training video named by Nelson that claimed the EPFX can repair injured tissue and accelerate healing. "Worked as true," Wilkinson said the company no longer uses these materials. The EPFX is marketed only as a stress-relief tool, he said.

But a training newsletter, published last month by The Quantum Alliance, provided step-by-step instructions on how to use the EPFX to envelope lips or cheeks and treat dental problems.

Company President Brian Thompson said the EPFX has "helped thousands of people." He couldn't explain what the device does or how it works. "We just sell them," Thompson said.

Hundreds of other brokers and practitioners sell the device as well, earning up to $25,000 in commissions per sale. Dozens of their Web sites tout testimonials of miraculous healings and declare that the EPFX can provide hundreds of therapies.

One of its strongest features is found on top of the EPFX: a 3-inch silver plate. Nelson claims the device can detect problems in the body by analyzing hair, saliva or blood placed on the plate. The device then fires healing frequencies to patients — even if they're hundreds of miles away.

A taunt to regulators

The EPFX was a big draw at this year's Western Washington Fair in Puyallup. Harri Keough, owner of The Healing Circle Counseling in Easton, Pierce County, ran a booth where more than 400 people were treated. They were charged $20 for a half-hour session.

Keough calls himself a "certified biofeedback specialist," a certification he earned from a mail-order training program. He said he has to be careful about how to describe the EPFX to avoid hassles with the FDA.

"We're not saying anyone that it heals anything," he said.

But a 4-foot-long banner that draped his booth listed dozens of "Therapies" the EPFX could provide. Keough admitted the EPFX contains many therapies that go beyond what the FDA allows. "I don't know what Bill Nelson gets by with it," he said.

In Seattle, Nelson doesn't worry about the FDA. In the past year, he established companies that are bringing in new products and devices into the United States.

He also has produced a music video in which he sings in front of a giant image of FDA headquarters. Nelson's song ends with a taunt to the regulators: "You ain't seen nothing yet."

I only said it because it is true
FDA
"you ain't seen nothing yet"
PERSECUTION

As prophesied the Angel will be aggrieved and persecuted before reaching the people. The Seattle Times, CBS, NBC and many others attacked the angel with lies, rumors invidious, and just poor journalism. The article goes on to say that my high heels are too high. And some of the mindless public believe anything. Two people with advanced cancer bought the device to help cure them. They did not have the device long enough to counter the effects of their chemotherapy. The media twisted these two cases. All attempts to offer an honest retort were not allowed. Any kind of truth is prohibited by today’s media.

After twenty years of selling over 27,000 medical devices, legally registered in over 13 countries, over two hundred published peer reviewed medical double blind studies, over 60 books, 50 movies, there is not one recorded case of anyone being significantly hurt. And yet FDA protected SYNthetic drugs are killing millions every year. FDA protected cigarettes are killing multi-millions, and FDA encouraged Big Sugar is killing maybe more. There are now over 500 articles of the failure of the FDA on the internet and around the world today.

Why? They protect Big Money in America. Not people.

A legal, safe, effective non-drug therapy of a modern concept of science and medicine the body electric might be immediate with drug companies' profits. The media is the drug companies' profit. The drug companies brought in their junk yard dog, the FDA. My American passport has been revoked. The powers of Big money have pressured everyone they can to attack me. But my legal rights to a hearing might save the planet. This book might wake you up to read the reports, look at the truth, and judge for yourself. Angel or Devil? You can only decide by hearing the message.

When the Media is one sided and controlled by the rich, is it not time to build a new media?

When I was able to prove that synthetic drugs are incompatible with the body using QED, I became very very unpopular with the chemical company cartel (Big Pharma). I am recognized as one of the leading Bio-Electronic engineers alive today. My books, patents and articles on energetic medicine have prompted me to be nominated for the Nobel Prize in Medicine for decades. I was able to use QED as a basis for medicine to assay and treat the body. This incredible technological advancement of measuring and correcting the body electric in the mysterious loop is one of the greatest achievements of mankind. But this is a drugless therapy. And the drug companies do not want to take a back seat in medicine. So they got their small petty minds to start a slur campaign against me. The writers used such bad journalism and gave no chance for a retort. Quack Watch does not believe in using nutrition or natural medicine. One of the FDA officials said “Everyone in the world realizes that stress reduction helps disease, but you will have a hard time convincing the FDA of that” one of the House of Representatives of the USA said that there is no such thing as energy in the body.

Intelligent people have seen through the slur. Intelligent people have called and asked for answers to questions. Intelligent people will see that any article written from spite and not truth is just an attempt to slur and twist the truth to protect the Drug company profits. Intelligent people will think and listen to both sides. IMUNE web site has the research, the articles, the books, and the incredible expansive, well researched, verified truth of energetic medicine. The drug companies are afraid of this Angel. Scientists fear losing their careers and they fear Big Money. Medical Doctors are afraid to take a stand against Big Money. Everyone has Cartel phobia. But the Angel must fight this and find a way to defeat Avarice. The Angel must defeat the small petty minds of the Big Money slaves. The angel must end degenerative disease, the Angel must make the scientists see the powers of the mind through QED, the Angel must defeat the greedy selfish powers of Big Money, or all is lost.
The fact that Kevin does not post the most crucial e-mail of the last 2 months is a sign of chicanery and deceit in itself. It is a sign not only of unprofessional behavior but a sign of conspiracy and racketeering this involves the FBI.

What have we learned?

1. Desire responds to any and all issues presented to her with honor, integrity and intellect.
2. Most of the concerns are trivial criticisms mounted by latent homosexuals attacking me out of their own inner turmoil or as smoke screens of the racketeering conspiracy. Remember this starts with a concern about my face in a comedy video which hasn’t been mentioned again since my response.
3. There is a crime of adulterated software that is undeniable without question a criminal offense, still as yet unsolved or even freely discussed, but those selling it and participating in the crime have all asked lawyers who have confirmed the crime and as yet they are still calling me devil of whatever childish thing they can rather than face the key issue the crime. The debate is just name calling to divert attention from the crime of adulterated software.
4. To face the crime David must face up to what he did and expose he did nothing more than type in a set of words. This makes most of his claims to fame empty and exposes his lies. He must admit that he knows little of the system and bio-electronics and this would attack his ego. So the crime goes unaddressed for his ego is more valued than the users the patients in fact his frail ego is so unstable he must ask people to call him master when it clearly is a title with no connection to the field of bio-engineering.
5. There are not only some mediocre minds but some very little minds that attack great spirits such as mine. Their attacks shift like the wind to whatever childish thing pops into their juvenile babyish minds. Many of these small minds are sexually insecure and latent homosexuals who cannot deal with a person with enough courage to choose their sexual identity with their big head not the little head. Most of these people as you see use their little heads to think with.
6. My device and my technology work and the debate is more concerned with the trivial ever changing criticism against me than real issues.
7. The attacks on me are coming from ulterior motive people who now face a major life choice. Truth or defense of unstable ego. Law or crime. Real testing of items or just typed in words. Choices that they need to make, but given the quality of the minds involved I think they will choose the path that gives them the most growth. They will defend the crime not the truth until they are forced to learn the hard way. And they will continue to give incredible backbiting resistance to my great spirit, because that is what little minds do.

I have made a life dedicated to helping people and to get people to get over their clinging to false beliefs that hurt and limit them.

The greatest false belief is that of existence. In 5th grade we are taught that our bodies are made of atoms and atoms are made of protons neutrons in the nucleus and outer electrons far away in energy states in the outer layers of the atoms. The electrons never touch because they repel when they approach each other. So the outer electrons of any item never touch the outer electrons.
of any other items. So no matter ever touches any other matter. The electrons, protons, atoms, molecules in fact all things have an energetic field around them and this field is what we really are. No one has ever seen or experienced this truth of our existence but we know it is true. We are energetic beings in an energetic world.

As a bio-electrical engineer, licensed diagnostician health care doctor, mathematical genius, and expert in natural medicine, I developed a medical device that would assay the energetic body, and measure and correct problems of voltage, amperance, resistance, hydration, oxidation, and pH. My enormous respect for the law mandated that I properly register the device and did so in 1989. My respect for statistical research drove me to continue research and make the device better every day since.

After 5th grade, later in school, we are taught about photons and how photon from the sun make the electrons in plants go to higher energy states in a process of photosynthesis. Plants can do this, not synthetic chemical companies and from here we get the proof that the Sinthetic chemicals are incompatible with the human body. We all know this about our foods. We will not order synthetic foods, or drink synthetic wine we have learned over the years that the chemical companies have tried to make synthetic chemicals compatible with the body and they have failed. If the menu has Sinthetic foods on it we will exercise our freedom to choose and not order synthetic chemicals. But the menu at the hospital only has Sinthetic chemicals on it. Only patented Sinthetic chemicals get funding for research and use in medicine. Natural herbs and plants are not protected by patents and thus no one will invest in the research. Well not no one, I invested in the research on cancer patients in Kiev to test synthetic chemotherapy versus natural chemotherapy. I invested to test natural treatments for AIDS versus Sinthetic treatments in Budapest. Both series of studies done in qualified WHO registered medical hospitals. The results confirmed that it is a false belief that synthetic chemicals are better or safer. Our extensive research all over the world now has shown that the natural is much more effective, and vastly incredibly safer. But this false belief of synthetic drugs efficacy and safety makes lots of money.

People with small minds cling to false beliefs and especially when the false beliefs make money. The drug companies ostracized me, they pressured the hospitals and I was removed from further research. In 1990 the acupuncturists asked me to help register acupuncture needles as medical devices. For free, I wrote a 400 page treatise on the law to make the needles real medical devices not experimental. It is a false belief that acupuncture is not real medicine. Some small minds in the FDA did not want this to happen and they fear all forms of drugless therapies. They trumped up false charges against me. In 1996 judge Match the Oklahoma City case judge made the FDA drop the charges. The FDA rouge agent was angry and continues his vendetta against me. This is chronicled in the true to life movie “Sworn on the Altar”.

The drug companies tried to kill me as we see in the true to life movie “Water, Wine, Homeopathy”. In breaking up an international pedophile ring in Romania I was tied to a table and they tried again to kill me. This is displayed in the movie “The Greatest Sin 1, 2, 3”. Then when I decided to use my big head and choose my sexuality rather than my little head, I mustered up tremendous courage and made my freedom of choice and put on the dress. The drug companies stopped trying to kill me. It is another false belief that you should let your little head choose your sexual identity.

Then over the years I was able to prove that muscle testing for remedies was not only invalid it was a complete sham, a fraud, a lie. The muscle testers or point probe users were altering the speed of delivery or the pressure to force the results they wanted. Mostly they used muscle testing to push the client into buying a vitamin or some sort of remedy. Muscle testers laugh when they admit they change the pressure to affect the patient. Now as we all now know most of alternative medicine is built on this lie. With no double blind study ever showing that remedy muscle testing is in any way accurate, this lie has reached massive proportions.

Now how would the drug companies ever sell a Sinthetic vitamin if the false belief of Sinthetics was exposed? Who would ever attend another muscle tester’s lecture if the false belief of it was exposed? Both of these are definite false beliefs. There is no doubt that the synthetic is not the same, there is incredible evidence proving this. And there is no doubt that the muscle testers are changing pressure and using suggestions to sell their remedies. They cannot debate this so they must slander or shoot the messenger of truth rather than have these truths exposed.

The science of electrical reactivity starts with the shark. The shark lives in salt water and he has a powerful well documented electro-sense. The literature knows that the electro-sense of the human is very weak. We have to amplify the electro signal over a million times for us to see human electro reactivity.

All items have an energetic field around them this is 5th grade science. This field is known in science as the Voltammetric field. I patented a 3 dimensional Voltammetric field detector first developed in 1988. With several patents and copyrights I work every day to perfect the system. With hundreds of medical articles in peer reviewed medical journals it is the only scientifically proven way to measure remedy reactivity.

I purchased and procured each item in the matrix and test them for their 10,000 frequency patterns. It is a false belief that a single frequency can define a remedy. Now since this is the only true way to measure reactivity for medication testing the other companies with inaccurate devices often only using words, or pendulums to get results. These companies cannot debate the extensive science. Most of them are not developed by someone with electrical engineering techniques, medical backgrounds, statistics backgrounds, so these companies have to also slander the messenger to protect their sales.

Several Russian devices have been proven complete frauds. There are many charlatans in the alternative industry telling lies to sell and lies about me to distract. So all of these people use WMD “Weapons of Mass Distraction” to sell. They all have a common goal to stop Desiré from exposing them, stop Desiré from telling the truth. There are conventions of alternative medicine around the world but they will not invite the most published, awarded, significant, charismatic lecturer because as they say Desiré will spoil the party. She will tell us the law and how we break it, she will tell us the science and how we afford it, she will show a system so superior to ours we can’t ever sell another one. So we can’t invite Desiré.

Money seems to be more important than truth. And this is not enough they have to lie about me to distract people from the truth. You see synthetic chemicals are incompatible with the human body. Muscle testing cannot be used to test remedies. Altering a medical device is a crime. And all of the slander against me does not change this.

I have a standing offer to do a three way phone conversation with any who have a criticism of me all of the slander against me does not change this. I have said this for more than three decades and nobody wants to take
their slander to me. Nobody wants to turn on the light of truth. After authoring and
editing over one hundred books, over 120 medical journals, over five patents,
thousands of copyrights, developing a accredited medical university, establishing a major ISSN
peer reviewed medical journal, being nominated for the Nobel prize for two decades, and a long
list of credentials and accomplishments you would think that someone could find one error
other than spelling to really critic me.

The Weapons of Mass Distraction users have said horrendous things of me. They will tell you I am
a 9 foot tall black man if you will believe it. They work very hard to make up lies and they try to
see just what they might say to distract you. Some of the people are sensitive to sexual identity, so
they will tell you I am gay. (Being a hermaphrodite I am not). If you are religious they will tell you I
am a heathen, I am not. They will tell you anything but just not on the telephone with me on the
line to confirm or dispute. They will do whatever it takes to distract you and keep you away from
the truth. And what they fear most is my courageous dedication to truth, freedom of choice, and
nature.

I can’t defend myself from the backstabbing if you don’t help me. I can’t defend you the users if
you don’t allow me to help you. So please listen to the truth and if you have a question let me
know.

Desiré the Angel Provocateur

By definition a Provocateur stimulates, excites, incites and motivates interest in a subject thru
subtle vexing flirtatious curiosity. A Provocateur deliberately behaves controversially in order to
provoke interest or awareness feedback. An Angel by definition is just a messenger. My message
is provocative.

Desiré arouses our sense of the outrageous and we all respond with amused humanity and
interest. When we see Bette Davis, Ruth Gordon, Madonna, Paris Hilton etc it is fine if sometimes
flamboyant performers, relax their self-discipline and overextend their acting technique in a
superfluity of ineffective gestures—finger-twisting and hip-switching, hand-rubbing or hip-
protruding—we label the sum total as Camp.

Mae West, whose nasally provocative delivery, eye-rolling, lip-pursing, and pelvic tics parody
the conventional invitation of flirtation, is never out of control and is Camp, pure and simple....
Camp was also the stock-in-trade of Carmen Miranda, whose retina-searing Technicolor get-ups,
skyscraper headdresses bearing a season’s fruit harvest, clomping platform shoes and garbled
English projected in a voice that could be heard on Mars all came together beautifully in her
campy personification of Exaggeration. Had we been blessed with the Brazilian Bombshell’s own
blazing interpretation of Joan of Arc, the grotesque, if fascinating, result would surely have been
Camp.

And one of the most Camp comedians was the great Sam Kinison who used outrage to great comic
relief. For all of us want to scream now and then. We do need to let out and vent the rage now and
then. And Sam inspired us and especially Desiré to use outrage for comedy relief.

Camp is defined as something that provides sophisticated, knowing amusement, as by virtue
of its being genuinely mannered or stylized, self-consciously replicated, outrageous and
extravagant, with teasingly ingenuous and sometimes sentimental aspects. A Camp person is
one who adopts a teasing, outrageous, extravagant theatrical manner, esp. for the amusement
and education of others. Best example Desiré.

As people look at my books there is always a tendency to make some criticism. When you see
anybody’s book this is a natural tendency for some people.

Now when your criticism is “my dress” this shows a small mind. First it shows a disdain for personal
freedom and the right people have to be themselves. This has nothing to do with the book. In fact,
this is the petty mind detector that I like to call the Desiré trap. Small prejudice petty minds always
fall into this trap. They don’t know what Camp is. They do not like freedom and they fear people
who do not conform to society’s unwritten rules. Sometimes these people need to be told the
difference between rules and laws. The purpose of the Desirés pictures and personality is to open
the mind. By confronting the closed anal retentive mind we can get people to stop judging the
teacher and to judge the teaching. We can get people to see beneath the exterior and look into
truth. We can stop debates easily on the nature of my ass and get onto the truth of existence. We
can stop judging a book or a person by its cover and get to the substance within. We are taught
such biased prejudice knee jerk reactions that we limit our ways of thinking.

Our society slips to the stupid side, and faster every day. Our young adults have an attention span
of 3 min max. If they are not visually entertained in the first 10 seconds they are on to something
else. They live in a MTV generation. Now the provocative, comical, eye-catching pictures of Desiré draw them in. This is our future these lost, abandoned, stupefied youth. These messages are designed for them.

For the older prudish generation, the Desiré pictures act like spoiled milk you have to smell it. You have to see and be shocked. It draws them into reading and makes them go beyond and actually they might learn something. This is the man who left America to find freedom who is no longer a man. It is an irresistible story and once into the resistance they are faced with their false beliefs. They must learn something about life. They will be confronting their deep inner fears of nonconformity.

Those invested into their false beliefs like the Big Sugar, Big Tobacco, profit Extremists all tip us off to their prejudice by over criticizing Desiré’s subtle provocative ways. Camp Desiré is the petty mind detector. But even the extremists can’t resist looking. And if they do find an excuse to resist, they would use any other excuse. Desiré the Provocateur is alluring and thought provoking. So if the style of Desiré the Provocateur is niggling and worrisome to a person it is a sign of a mind not at rest. Only a struggling troubled mind will be vexed. The normal mind is entertained and allured into awareness and perhaps education.

Our children today have discovered a main truth. Whatever you do don’t trust the suits. They have seen the manipulation of their minds and they need to be stimulated and a display of sincerity with Camp Desiré might just be the touch they need. Maybe what the world needs.

They say that only 5% of the population actually read a text. Most just look at the pictures. So Desiré has decided to make poster like comments on key themes, to use jokes and comics and to be provocative and alluring to help learning. Desiré’s books are working and the get more people to learn.

It is impossible to get to everyone. And most importantly in today’s world how do we get to the children of today to hear something. How can we get our children to look beyond the Profit marketing of Big Business? Well Desiré is Camp and designed to charm interest for all, or at least as many as you can.

So rather than criticizing and struggling with the teacher; can you demonstrate some degree of intelligence and make a comment about the teaching. And can somebody see the Camp fun and stop taking things so seriously.

I understand that topics like Camp, Provocateur, Parody, and Satire are intellectual ideas beyond some small minded people. But these are key elements in mental growth and super-learning. So please try to open your mind. Get to the teaching and stop being hooked up on the teacher.

At least try to get the joke. The lampoon caricature of a sixty year old fat man showing his tits is a trans-travesty designed to get your attention and provoke your awareness and incite your learning. Don’t be so serious. Lighten your mind, enlighten your soul, lighten your burden, turn on the lights and take life lightly.
The Human race stands on the brink of extinction

We live in a time of such incredible greed that a small gluttonous group of bankers now virtually own the United States of America. The Federal Reserve is no more federal than Federal Express. It is owned by a secret group of bankers who do not have to do an accounting or a report on their finances to anybody. Capitalism placed no control over such excessive greed as would put life itself in jeopardy.

These greedy gluttons started a war based on lies that has killed millions for control of oil. To fuel a industrial War machine and Big Oil. We could completely grow our own clean oil on farms now but until these avaricious greedy can take over all small farms they will not let our society turn to Bio-fuels. They are stealing the farms, and drying up the way of life we most know as American, the Small farmer growing vegetables. Once they own them all, the Ultra Rich will pass the legislation to get rid of the pollution making drilled fossil fuels and turn to clean Bio-fuels. And they will act like heroes doing it.

Till then we will have to have our oceans polluted by these greedy profiteers. Someone needs to be outraged at the loss of the American farmer, someone has to do something. The small American farmer is an icon of our society about to have his land stolen by the crafty greedy rich.

The Bible says that near the end one third of the animals in the sea will die and the oceans will turn red. We have killed over a third of the animals with global pollution, and we all watched the ocean go red from the oil spills. The over use of oil as the fuel and the component of petro-chemistry has threatened the very existence of mankind. The petro-toxins have pervaded the planet and are now in everybody’s bodies. Chemicals that did not exist over a hundred years ago like DDT, organophosphates, and a list a mile long are in all of us, all of our children, they are found in the plants near the north and south pole.

When the toxic level gets too high and turns off human reproduction we don’t know. When does a scientist find a new petro-chemical that speeds up the problem, or a bio-war scientist who will discover the toxin or virus that ends mankind? When it will happen is the question, not if. When will greed and avarice for a new petro-chemical patent put an end to mankind? When. We stand on the brink of extinction because of greed.

These petro-chemicals were made into medicine when Nelson Rockefeller saw he could make money by taking advantage of the people, but he also knew how to live. For as he said the petro-chemical do not belong in the human body or at least not in his body. He never took any one of these so-called medicines are out of control, and by all facets iatrogenic (doctor caused) diseases is now close to the number one killer. Add to Big Pharma’s kill list the effects of Big Sugar and Big Tobacco and by far the number one cause of disease is Big Business Greed. Killing multi millions, killing children, every one of us has had a loved one die needlessly because our society allows the greedy to operate freely.

The effects of Big Sugar on obesity alone are appalling. The Bible says that near the end one third of the people of the planet will die from smoke coming out of their mouths. Cigarettes are now associated with one third of the deaths of people. Tobacco can kill millions and the FDA is worried about my biofeedback system. It seems that the priorities of the Ultra Rich determine everything.

We are nearing the end. The predictions of 2012 abound on the discovery channels and the internet. The possible end of the human race. No more little children, no more laughter, no more joy, perhaps the end. And the topic of discussion is my tits. I come here to help save the human race from extinction and to lead the human race to a thousand years of peace and harmony. And my angel book is the plan. But people want to talk about my tits and ass.

Can’t they see the comic parody of the mindless youth, can’t they see the attention getting camp effect of my personality, can’t anyone see how this is a positive thing for people to start getting a message not criticizing the messenger. Can’t anyone applaud the attention getting Satire? Why can no one see the thought provocation of the provocateur? Why can no one see past the comedy and why does no one write to me about substance? Why am I riddled with stupid petty criticisms of the picture not the topic.

Our society has lost intellect. The people are dumbing down at an incredible pace. The average American student can’t find America on the map. Over 40% of the graduating seniors from schools can’t read. The attention span is tiny, the memory miniscule, and all they care about is controversy. Well if that’s all they care about then that’s what I’ll give them.

That’s why I am provocative, controversial, camp, kitsch, comedic, notorious, and naughty. I do it to draw attention to the problems. I have little time to save the world. After trying the traditional approach for years now I am trying the controversial approach, for I am the man who left America to find freedom who is no longer a man.

“I am Desiré the Angel Provocateur”
Many have said you can’t fight City Hall. You can’t fight Big Money. But now to save this planet, some ONE must defeat greed, anger, hate, and the delusions of false beliefs. Some ONE must stand up to the petty minds, and defeat the greedy. There is one thing more powerful than all the armies and petty minds of the world. That is an idea whose time has come. The Angel has many ideas whose time has come. The World will be changed. The Angel’s great power is clarity of mind.

Some ONE can!

CHANGE THE WORLD

Small Minds try to impose Labels and Judgements. The media does this to shorten their work and produce sensationalism. Our Arrogant Petty Society denies us choice and freedom by forcing and imposing labels and stereotypes.

Until our society accepts diversity, multiplicity, variance, difference, and free changing choice, we will wallow in destructive separatist xenophobia. To be free to choose and express positive ideas and conceptions, should be the basis for our society. It was the basis of our fore fathers law by the small petty lizard brains.

Let us return to the basis idea of freedom of choice and expression. Jesus taught us to ‘Judge Not’. Let us return to Jesus’s teachings...
The War Machine has destroyed lives and property of millions. The War Machine feeds Fear, Hate, Homophobia, and Xenophobia to excite young men to fight and die all in the name of someone else's greed.

The ideal of right livelihood, where none should be selling drugs, weapons, or human beings or has been discarded for greed. For the human race to progress we must follow the lead of the Angel and return to the form of Right Livelihood.

The false belief that we need the petroleum from deep in the ground needs to be released. We can get all of our energy needs from plants, save the planet by reducing Carbon while generating Oxygen, and return to a great farming economy, but the oil companies will have to give up their greed.

The future of the Planet depends on the Release of the GREED, ANGER, HATRED, FEAR and the DELUSIONS of FALSE BELIEFS...
Law of Interpretation not Attraction

The Movie “The Secret” is wrong. You do not completely create the world or the events around you. You do completely control your interpretation of the world and the events around you.

It is not the Law of Attraction, it is an Effect of Attraction. It is a Law of Interpretation. There is the law of gravity. What goes up must come down, but there are some few exemptions. This constitutes a law. It is seldom changed. The Law of Interpretation says that any verbal human will interpret what has happened to him based on his experiences, beliefs, and philosophies. He will always impose an attempt to explain what happens to him. Even “Shit Doth Happen” is an explanation.

In physics a weak force can affect things. We have the “observer effect” and the mind has been proven to be able to affect things. There is power in the human mind to affect objects. Telekinesis, remote viewing, Extra-Sensory Perception etc are all proven to be possible, but the effect is weak. But the effect is there. (see the “Proof” movie)

We can affect our lives and we have some very small control over objects, the world, and the events around us. But we have great and complete control over how we interpret the objects, the world, and the events around us.

All of the people in Hiroshima did not wake up that August morning and create the bomb, nor did they deserve it. All of them later interpreted the results. Most saw the bomb as a negative event. But some saw it as a growing event and a positive result. Nelson Mandela came out of jail after more than two decades and saw it as a positive thing. Some people can find the positive in the most horrendous events. We completely control the interpretation of the objects, the world, and the events around us. Some use negativity to describe the events, some use positivity but all interpret the events. All do this from within their own brains. The state of your brain determines the state of your interpretation of the world around you.

Some people are always happy and they learn to find the silver lining in every cloud. Some people are always dissatisfied and find fault in all around them. But all of us completely control the interpretation of the world around us. We do have some limited control of the world around us but we will never have complete control.

“The Secret” is wrong, in that you cannot just sit at home and think of things and bring them into your life. “The Secret” is right that you can affect your life positively and you can dramatically increase your chances of getting what you want. If you want to get a job you must fill out an application or two.

People think there is a law of attraction, but it does not hold out as a way to predict things. If it were a law then we could predict things. Example: if someone throws a rock off of a building and there is a crowd below, someone in the crowd will get hit by the rock. Now we might say the bad guy got it because he deserved it. The good guy got it because he was too good. The sad guy got it because he was negative and he brought it to him. The happy guy got it because he needed to learn a lesson. But in truth we do not know who gets it before it is done.
If there were a law we could predict the outcome easily. We could put a crowd in place and let one guy focus on wanting the rock to hit him and he does chants of mantras I want the rock. The rest of the people do chants of protection and affirmations that they are protected from rocks. We throw the rock and no matter how powerful the meditations we just don’t know who will get it till after it hits.

After it hits we then are always able to explain it. We say the bad guy got it because he deserved it. The good guy got it because he was too good. The sad guy got it because he was negative and he brought it to him. The happy guy got it because he needed to learn a lesson. The human mind can interpret things very well after the fact. President Gerald Ford said that Hind Sight is 20/20. But Fore Sight is just probability theory. The law of interpretation holds fast.

When President Harry Truman dropped two bombs on non-military target cities of women and children, there was so much radioactive fallout thrown into the air. If one of these alpha ray or beta ray fallout products were to be ingested or breathed in the person would get cancer and die. There was such an increase in cancer in America after the three atmospheric detonations of atomic weapons of mass destruction that the world had to declare atmospheric atomic detonation illegal. Harry S. Truman killed more Americans with fallout over the next fifteen years than he killed Japanese on that day. Here once again people interpret his actions based on their own perceptions. In some minds he was a hero, in another mind he is a War Crime criminal. But I feel if more people knew what happened there would be more people thinking the later. (see the movie “War Crimes Trail of Harry S Truman”)

Now who got the radioactive fallout, the good, the bad, the ugly, the deserving? The answer is we cannot predict, but we can always explain. Whatever happens people will step forward and explain why. You do not completely create the world or the events around you. You do completely control your interpretation of the world and the events around you. Your mind interprets what is around you.

In sports we can analyze, study and examine the details of the two teams competing. If there was a law of attraction we could always or at least generally predict a winner from who attracts it the most. But this is not the case. We must play the game. And no one knows the outcome. But after the outcome everyone steps forward with and explanation. Your mind has a weak power to affect your surrounding but a strong firm power to interpret events after they are completed.

The condition of your mind, spirit and soul determines how you perceive the world around you.

God and The Cosmos

I believe firmly in a God that does guide all of us for growth and spiritual development. This allows for karma as well. The theory of the big bang states that all of the energy in the universe or at least a big chunk of it came through a singularity in one to the minus forty third of a second. Matter will later evolve from condensation of this energy. This means that all things all particles have a quantum entwined history. Particles of quantum energy that were once entwined can communicate with each other as in Bell’s theorem. The PEAR project proved that there was a connectivity of things and that the human mind a known quantum engine could communicate with things. There is a God consciousness of the universe. This God consciousness determines who gets the radioactive particle.

We have a part of the God consciousness in us. But just because a drop of water has the same characteristics as the ocean the drop should not think it is the ocean. We have some small part of this power in us but we need to be humble.
The Story of the Slur against Desiré

They say "God made man but Samuel Colt made them equal."

\[ \Delta x \Delta p_x \geq \frac{1}{2} \hbar \]

Free Will

"Heisenberg gave Man free will."

"You want proof? I'll give you proof."

"Believe it or lose your funding."

I pray there ain't no Heaven

I swear there ain't no Hell

Here Rational Science explains the ParaNormal"
You Can Take the Indeterminacy principle too far. Even though it is true and we do have Free Will. We must act on what we know and try to act on our predictions of outcomes. We need to play the game of life as best we can. And see where the outcomes lead us.

We need to find a balance of rationality and indeterminacy. The Yin versus Yang. There is a need for rational logical linear thought as in Western philosophy, but it is not the only path to knowledge. The Eastern ways have more of the other side of the brain working finding dreams, art, beauty, intuition. There is a male and female mind, a left and right hemisphere, a dreamer and doer, a ‘see’-er and a ‘be’-er, a watcher and a player, an active agent and a passive one all in each of us and many more. As we learn about the differences and the polarities we learn about ourselves. We learn to be the best we can and how to face life when ‘Shit Happens’.

The best doctor is the doctor within. The best teacher is the teacher within. When you discover this and you activate it with modesty and humility recognizing what you don’t know is always greater than what you know, life is much better. You can do anything it is just a matter of time.
The Story of the Slur against Desiré

Arrivals & Departures

All Railroads are governed by Heisenberg’s Uncertainty Principle. The Location and Speed of any given train Cannot be Specified to any Exact Time.

We apologize for any inconvenience science gives you.

Call for papers

for the International Journal of the Medical Science of Homeopathy

The International Medical University of Natural Education, IMUNE, who sponsors the International Journal of the Medical Science of Homeopathy and Natural Medicine, wishes to announce a call for papers. Please send us studies, letters, comments, articles, photos, testimonials, or stories for us to consider for publication.

Please send us in acceptable form to:

taflan_andreea@imune.net
IMUNE 12 MONTH HOME STUDY COURSE

Go to http://imune.name to learn and to get your course materials. You could get a Doctorate in Wellness and an international or accredited European professional qualification in neurophysiological bioresonance and biofeedback.

The Tassel is worth the Hassel. In a world so concerned of Wellness can be yours in just 12 months of Home Study, a simple thesis, a practicum and four days of monitored supervised contact.

Big Tobacco, Big Sugar, Big Pharma, Big Oil, and Big War Industry are exempt from lay and they kill and injure, maim and cripple in the name of profit. They seek to control and dominate medicine to further build their profits.

Their money controls governments, regulators, and the small minded media. The Ultra Rich Master Echelon Computer now sees and hears all the things we say, write, and do. Rights of privacy are gone worldwide. They have taken away our rights of free speech.

The Ultra Rich control the media and refuse to tell stories that expose or offend the Ultra Rich Power. They control every movie that gets distribution, every song that hits the radio, everything that is put on the world news. They use science and psychology to control and manipulate the minds of the masses.

But medicine is controlled by Universities that teach medicine. There is now one university starting to defend Natural Medicine. There was no charge against me when I left. So I did not flee, nor am I a fugitive.

Well, the game of Reality Monopoly is still being played all over the world. One percent of the world’s population is winning and now controls over 80% of the wealth. The law allows the game to continue till we will see one winner and 6 billion plus losers.

Law Versus Rules

You can call me anything except late for dinner

But if people respect personal freedom they will call me my chosen name Desiré

Some people are more caught up in the way something looks rather than it’s true nature and some people have limited minds but if you are true to truth, and you respect freedom over conformity then you can call me Desiré. I am deeply respectful of the law, in that way I am very very conservative.

But I am very suspicious and not respectful of rules. There is a law in South Carolina that says a person labeled male on his birth certificate cannot openly dress as a female. So I won’t visit South Carolina. For the rest of America this is a rule not a law. I do not respect the rules of conformity. I do not respect the rules of convention or tradition. I challenge them with one word freedom. Small petty minds try to take away freedom and prefer tradition.

Once a FDA agent came into my office in Denver Colorado and he demanded we close up the shop because he said homeopathy was illegal. It was a rule he said. I took him into the office and showed him the FDA law. The FDA was founded by a homeopath. Homeopathy appears three times in the first three pages. He apologized and left.

You see the law is how we run our society. And our society makes and assumes rules. Many governmental people do not know the difference. They even think a rule is sometimes a law. But the law is always written on paper and can be read and enforced. Still there are times we need courts to decide when police or enforcement people have differing opinions than the public. Such was the case in 1996, when the FDA had a rule to ban acupuncture. The FDA thought that this was a law. I challenged this rule. And I won acupuncture became a real medical art in March 1996 because of me. I used the law to change the rule.

Right now many people thing that energetic medicine is illegal. This is a rule not a law, and I fight to defeat this rule and preserve the law. The law allows energetic medicine today. I am sure that we will need to go to a judge to decide this someday.

I do not break laws. I work diligently to obey laws. The FDA has broken the law in their vendetta against me and One day I will prove that. I left America in March right after Judge Matsch made the FDA and the Prosecutor dismiss the case against me on leap day 1996. The FDA went to Washington in June 1996 and tricked a Grand Jury into illegally making a bogus indictment against me. There was no charge against me when I left. So I did not flee, nor am I a fugitive.

I am a concerned citizen who is waiting for an American judge to rule on the validity of my case before I return. I have obeyed every law and always do. But everyone has denied me a judge to rule on the validity of the indictment against me. I have been warned of a conspiracy against me and I have come away without the chance of seeing a judge how could free me like the last one did.

I do not respect nor do I feel obligated to obey rules. Salesmen think that it is a rule they should wear a suit. I tried to tell them that most everyone knows to never trust a suit. But he is caught between people who are confused by rules and think their rules are law.

I have changed my name and sex rating in America. There are three American ID papers used, Passport, Driver’s License, and Voter’s registration. My medical papers say I am both sexes and can...
chose which one I want. My only driver’s license from Kentucky lists me as Desiré Dubounet and female. My voter’s registration in Colorado is as Desiré Dubounet and lists me as female as well. So by American law I am Desiré Dubounet and female. This is the law, but for some this voids a rule. For some rules are more important than laws. It is a pity. For me law is more important than rules.

My name is legally in America, Europe, Africa, and around the world is Desiré Billie Dubounet. I studied the Buddhist way and that the cause of all suffering is Desire. To stop suffering you must control Desire. This was my doctoral thesis, in New Orleans. So when I choose my female name I choose Desiré to always remind me that desire has to be controlled. It can be expressed but controlled.

When Dustin Hoffman first became Tootsie in the movie he was in the Russian Tea Room in NY and he ordered a Dubonnet with a Twist, I said well I my life has now a twist.

But Dubonnet is the drink, Dubounet in French is a beautiful sexy bonnet worn by the most elegant of women. I am an elegant woman. Dubounet rhymed with Desiré so I choose my name.

For my middle name I choose Delicious, in my stand up comedy I say that “Delicious is my middle name. It is not my whole name. It is the name of my hole.” Ta Da drum role.

By American law of the 14th amendment you can change your name by yourself in most states (not in California, but yes in Colorado) but the law says you cannot use trivial sexy terms and the specifically use the word “Delicious” as an example of words you can’t use. So I cannot make my middle name Delicious.

When my father was born at first they thought the child was female, same with me. So the name on his birth certificate is Billie. The female spelling not Billy the male spelling. One week later my father’s penis popped out and then on the birth certificate you can see where they erased female and changed it to male but they did not change the spelling of his name.

So my dad went thru life with a female name and he was tortured and troubled by the sex identity crisis with his hermaphrodite heart. He was bitter, mean, fearful, nasty and cruel and he hated almost everybody. He was abusive and brutal to my mother. But he was my dad and to honor him I took the middle name Billie. This reminds me of how a person can twist their soul, mind and those around him when they have to suppress and repress their inner feelings. It reminds me to love the sinner and hate the sin. It reminds me that to suppress a truth is to give it power over you.

For me to have the courage, the fortitude, the power of mind to be me what I am and not what others want me to be. It takes extreme power of personality and intellect.
The Story of the Slur against Desiré
The Story of the Slur against Desiré

Now that you have read this book and seen the forty movies, eighty books, hundreds of medical articles, diplomas and certificates of the Angel,

You can see why the Jealous small petty minds hate her so...

Why they fear her clarity of mind...

& ability to change...

The Small minded Bureaucrats and media pretend to serve the people...

...but they serve the Ultra Rich!

But as powerful and strong the Lizard brain is, the powers of their faceless pea brained minions are greater. Their slaves are the small petty minded bureaucrats. These are the pitiable over judgements heavy and unmerciful. Their loathing for the Angel is unspoken. Without her they would fall apart. For as Einstein said...

“Great Spirits get incredible resistance from mediocre minds”.

The Angel must fight this resistance. The Angel must restore the balance of the Human Brain. The Angel must moderate the negative emotions to bring them to emphasizing Education, Growth, Cooperation, Understanding, Sharing, Laughter, Reverence, and Humility. The Angel must lead Humanity to a new world of positive mind, a thousand years of peace. With little degenerative disease, little discrimination, less greed, less fear, less hatred. With more Equality; more Education, more Equanimity, more Laughter, Enthusiasm, Awareness.

The Angel must defeat the Small Minds at every turn...
The Story of the Slur against Desiré

I express my Outrage by being Outrageous

I am Outraged at Natural Medicine’s Gullibility + Math-Phobia

If You are Not also Outraged then Think, maybe it is Time

I am Outraged + I am tired of being Hated by Both sides

If the Angel can get science to conquer its conceit and arrogance and see that there is power in the human mind, science must accept a non-local, quantum universe for the human spirit to grow.

If the Angel can conquer the lizard brain of the world and its greed, anger and delusions of false beliefs, if the Angel can defeat the small petty minds.

If the world can see that we all share air and that we should all share care, and equality of education and a switch to a more natural society is not only necessary but essential.
The Story of the Slur against Desiré

Professor Desiré Dubounet
and her friends have spent over 35 million dollars to bring the world a professional and thorough course on Wellness, Naturopathy and Neuro-Electro-Physiology of Biofeedback as Bioresonance.

She is such a humanitarian Angel, she lets you pay for the course videos, books and materials with Karma...

...AN ANGEL IS BUT A Messenger

The three religions from Abraham are Jewish, Christian, and Islam. All predict the coming of an Angel. An Angel is but a messenger. If the humans can hear the message and learn a lesson, humanity will be led to a thousand years of Peace and Harmony.

The end of excess degenerative disease, greed, discrimination, hatred, anger, the Angel must bind the lizard (the Old brain of the human is called the lizard brain and it produces the greed, hate and violence). The message of how to dispel this lizard brain effects is the message of the Angel. Equal Economic Education is the start. Self awareness of greed anger and the delusions of false beliefs is next. The biggest lesson is the fact that the mind can effect things.

If the humans can learn of the power of the mind and set free the limitations of disbelief, then the true positive energies of love and compassion and equality can prevail. The small petty minds can relax and be expanded. Science, Law, Medicine, Politics, Education and Business all must release greed, anger and delusions of false beliefs.
