

If we want to look at the worst health problems, well science will show us. Here are the Number 1-5 health problem killing people and making disease we need to pay for:

1. **Smoking- The Evil Big Tobacco** controls the FDA, the media, the law itself. No prosecutor has ever sued a parent for willful neglect or reckless endangerment in letting their under the age of consent child become addicted to an expensive enslaving drug that will take 15 to 20 years off of their life and over half a million dollars out of the pocketbook.
But over 75 parents have been sued for not giving their children meat.
Over 6 million dead and over 500 million sick and diseased from Big Tobacco each year.
And the Police, Prosecutors, Governments and all of the Law fear and they are controlled by the Ultra-Rich and Big Tobacco

http://en.wikipedia.org/wiki/Health_effects_of_tobacco

2. **Big Sugar makes millions** selling all kinds of disease causing compounds and they use CANDY HOLIDAYS to sell their disease aggravating compounds. Over 35 million dead each year and near a billion sick and diseased.

3. **BIG Pharma kills** Over 50,000 people who die from prescription drugs each year. The side effects are too high a staggering cost to estimate.

4. **Alcohol** Harmful use of alcohol results in the death of 2.5 million people annually, causes illness and injury to millions more, and increasingly affects younger generations and drinkers in developing countries.
Nearly 4% of all deaths are related to alcohol.
<https://ncadd.org/in-the-news/155-25-million-alcohol-related-deaths-worldwide-annually>
5. **Junk food kills** over 40,000 a year directly and makes billions of people sick.
<http://www.telegraph.co.uk/news/health/7845143/40000-deaths-a-year-due-to-junk-food-says-health-watchdog-Nice.html>
6. **Over a thousand children a year are killed by SINthetic chemical vaccination. while homeopathic vaccination has never killed or hurt anyone.**
