Desire’ Dubounet, *the man who left America to find freedom who is no longer a man*

"Dr." Desire’ Dubounet, or, perhaps, "Professor" Dubounet, was born June 19th 1951, in Warren Ohio, USA. In Pakistan she has been called "the Father of New Homeopathy". [1]

While working for the AC Electronics division of General Motors in 1970, Desire’ s mathematical genius assisted the Apollo 13 astronauts reentry gyro programming. [1].

Soon after, Desire’ decided to be a pastor like his good friend and teacher Rev. Sinner. At the seminary Desire’ was told that one day God would call him to service. When God spoke to Desire’ God said "I don't want you here. I want you to rewrite molecular Biology [sic]". Not wishing to disobey, Desire’ embarked on the path to learn all about molecular biology. [1] Ten years later in 1982, Desire’ finished her magnum opus, PROMORPHEUS, which was sent to the Library of Congress. Twenty years later this PROMORPHEUS was "still the most technical and mathematical treatise on the quantic life process [sic] existing". "For this effort Dr. Dubounet has been nominated for the Noble [sic] Prize every year since." [1]
Dr. Dubounet's (born William Nelson), first vocational experiences were in quantum physics and electrical engineering, when he worked on the navigation system for the Apollo project. He taught mathematics, meditation, and mystic philosophy at Youngstown State University for over eight years. He became a Medical Doctor and a Licensed Clinical Counselor in Ohio to diagnose and treat the ailments of mankind.

Dr. Dubounet has been one of the most prolific lecturers and writers on the subjects of quantum biology, energetic medicine, homeopathy, alternative medicine, and the entire field of naturopathy. He has lectured around the globe on these subjects, and brought his unique synergistic prospective to integrate the sciences of mathematics, quantum physics, electronics, naturopathy, homeopathy and energetic medicine. His lecture at the Royal Society of Medicine in London is still talked about. Having authored over 70 studies and 20 books on homeopathy, Dr. Dubounet is one of the greatest contributors to natural medicine ever.

To those who have always said that there is no scientific perspective behind these alternative medicinal techniques, we can only say that these people have not read Dr. Dubounet's work, or they have not met and interacted with him. Even the greatest skeptic, once he hears Dr. Dubounet, will realize that alternative medicine has much to offer to the future of medicine and the future of life on this planet.

Dr. Dubounet was elected President of the American Nutrimedical Association and has doctorates in homeopathy naturopathy, science, business, and international law. His unique presentation captures the extreme scientific, mathematical perspective, along with a reverent, compassionate, and charismatic quality.

Dr. Dubounet is an accomplished medical doctor, quantum physicist, mathematician, computer expert, naturopath, acupuncturist, and homeopath. He unites these arts in a dynamic way that all can understand.

ENERGETIC HEALING

There are various ways to prevent disease and maintain balance. We recognize that working with energy is ultimately the best and most effective form of creating wellness.

The QXCI device tests and treats all areas of stress and imbalance on all levels using EPR, Electrical Physiological Reactivity. The fastest and most accurate way of learning about ‘cause and effect’ and ultimately ‘cure’.

Professor Desire’ Dubounet has invented this amazing technology using bio-resonance to safely and effectively induce the necessary changes required to reverse the stages of disease and create balance of mind, body and spirit.\[2\]
Born and raised in Ohio, Desire’ Dubounet was identified as a genius from an early age. As a young man, his interest in quantum physics and electronic engineering led to his work on the navigation system for the Apollo space project. She turned her genius to the field of medicine and health after the birth of her first-born, a son. Her son retreated into the world of autism—a result of an anti-nausea drug his wife took while pregnant. After devouring the information offered by a medical world, Desire’ proved that all synthetics are an insult to the body. She turned to the world of alternative health. With natural remedies, she was successful in reversing many of the symptoms of his son’s autism.

During her research, she was intrigued by a number of bio-electric devices being used in Germany—the Vega machine, the Voll, and the Mora unit—as well as biofeedback and cranial electrical stimulation (CES) units in the US. These units either measure the body's electrical response to help diagnose problems in the body or they emit frequencies to treat problems. But these devices were found to be fraudulent and incomplete. She also studied the body's subtle energy systems—acupuncture meridians, chakra energy, applied kinesiology or muscle testing, etc. The body's subtle energy system is an early warning system. Imbalances in the body's subtle energies show up much earlier than disease symptoms. Desire’ Dubounet decided to apply her genius to design an all-inclusive system—a computerized system that would both test and balance the body at the subtle energy level. The QXCI (Quantum Xrroid Conscious Interface) was born. This was later developed into the SCIO, Indigo and now the eight of energetic medicine the Eductor.

To develop this system, Desire’ Dubounet has integrated the sciences of mathematics, quantum
physics, electronics, naturopathy, homeopathy, chiropractic, energetic medicine and computer programming. She has also incorporated his knowledge of metaphysical subjects to bring a unique synergistic perspective to natural healing. She has studied homeopathy, naturopathy, science, business, computer science and international law. She has also mastered the difficulties of creating the software to integrate the many healing modalities he has programmed into the QXCI system. Her unique knowledge of esoteric subjects such as fractal dynamics, subspace theory, a tri-vector system and more has made this energetic feedback system possible.

The Eductor gathers bio-energetic data from the body via twenty channels simultaneously. The information is prioritized to help the natural health practitioner zero in on the body's current specific needs. The program offers information specific to your subtle energies-emotional and mental stresses, nutritional needs, food sensitivities, digestive and cleansing needs, etc. In the hands of a trained health practitioner, the imbalances in the subtle energy field are tracked to determine the most probable sources of ill health. In addition the Eductor has the capability to apply approximately 150 different corrective energies to help the body establish energetic balance for health and well-being. The health practitioner is also able to determine the lifestyle changes and remedies that will best help you as a next step in your plan for better health.

Rather than deal with the politics of health in the US, Desire’ Dubounet moved to Budapest in 1993. She was a professor of medicine at a college in Budapest and in London College of homeopathy as a science and healing modality. At present, in addition to offering training and regularly updating his computerized health system, Desire’ Dubounet has started his own movie production company. One of his themes is the politics of health”. Now there is a system that makes your children smarter, stronger, faster and more coordinated. Desire’ has developed the science of performance enhancement.

Inventor and Professor of Medicine
As well as being a prolific inventor, in 2002 Desire Dubounet managed to reinvent herself in the persona Desiré Dubounet a ‘singer’, film-maker and LBGT activist. Whilst being a self-confessed transsexual, Desire embodies a grace, poise and enlightened personality of generosity and intellect.

**ABSTRACT**

A homeopathic medicine comprises a homeopathic carrier solution which is prepared by mixing a base solution of alcohol and water in the ratio of 1 part alcohol to 9 parts water, and subsequently mixing in sea water, brain hormone and biologically active enzymes into the base solution in the proportion 9x, 12x and 24x, respectively. The homeopathic carrier solution is subsequently subjected to an alternating current and a direct current treatment which requires applying an alternating current of 20 milliamps at 10 volts and 10 KHz for a duration of 30 seconds and a DC current of 20 milliamps at 1,000 volts for 4 minutes. The active homeopathic ingredient is then added to the carrier solution.
Slander, Lies and Wrongful Attacks against Desire’

When Desire; proved that all “Synthetic Drugs are an insult to the body” and she wrote the definitive book on this, she became a target from the Chemical companies. See http://syntheticissinthetic4u.com/

When she asked why no law prosecutor had ever charged anyone with “Willful neglect” or “Reckless Endangerment” for allowing their under the age of consent children to become addicted to smoking, (thus losing over 15 years of life and over ½ a million dollars), she became a target of Big Tobacco.

When Desire’ proved that muscle testing for remedies, point robes (EAV), and many people selling alternative health care products were charlatan frauds, she became an enemy of these hucksters.

Desire’ designed an idea for a true democracy by computer voting, she was hated by the politicians.

When she beat the FDA and registered acupuncture needles as medical devices she made the FDA an enemy. https://www.youtube.com/watch?v=Z14C9n8XGCQ “Sworn on the Altar”

When Desire’ took Harry S Truman to War Crimes trial posthumously for dropping Atomic Bombs on non-war targets, without a warning, without an ultimatum, on Japan who had no active local army, no navy, no air force at the time, on a country who was trying to surrender and Japan was teaching women and children to fight with sticks and stones. Only Desire’ had the guts to do this. And the powers that be hated this kind of truth.
