The Eductor Phone—Electrical Enhancing Sport and School Performance

Now for General Use with your Phone

GSRtDCs is an very safe micro-current stimulation of the forehead that has been proven to enhance sport and intellectual performance. After over 25 yrs of research, FDA + CE medical registration, + over 35,000 devices sold worldwide, we have validated + scientifically verified this wondrous technology.
We send in a signal to measure the Galvanic Skin Resistance of the person and then we apply a specific wave form that can make a TransCranial Direct Current Stimulation proven to help enhance Sport and School performance.

By measuring + then a perfect autofocus pulse is then applied. This establishes a cybernetic loop for increased safety and efficacy of the performance enhancement. We now, after more than 25 yrs of development over you a stepped down version for personal use with your phone.

Yes, it is true, we can make your children a bit smarter, stronger, faster, more coordinated all with more insight. Proven Scientifically.
There are 4 scientific facts that make our technology special

1. We can use an Electronic Tongue to Measure the electronic signature of a hormone, vitamin, enzyme, herb or other

2. We can Send or Stream this Hormone into the body for healing effect and we can measure the reaction the body has to the stimulus.

3. By sending in the signal and then measuring the response we can then develop a cybernetic feedback loop to maximize the safety and efficacy of the healing stimulation.

4. This micro-current electrical stimulation on the forehead can have the effect of enhancing the sport, school, intellect, memory, insight performance.

The Educator has been developed from over 30 years of Research into the Body Electric. It’s Legally Registered as Safe + Effective and it has been Scientifically Proven to Enhance Sport and School Performance.

Before - Weak Charge - After - Topping up the Charge -

Research Studies show a 5 to 25% increase in school, work and sport performance.

We all know what it is like to have our phone battery run down. Our Body Electric can run down as well. The Eductor can then restore our Body Battery to Full Charge.
