Farm our Fuel not Fossil Fuel

We need to clean CO2 out of our atmosphere—and make more Oxygen, it is not about emissions.

Age of Oil starts when Abraham Gesner invented kerosene making coal and petroleum Usable. Then in 1859, when Edwin Drake invented the first modern drilling process for deep oil wells. Then John Rockefeller founded the Standard Oil Company, which dominated the oil industry and was the first great U.S. business trust in 1870.

This has destroyed our environment, filling our atmosphere with dirty CO2 threatening the future of Humanity.

In 1900 Rudolph Diesel saw the future damage to the environment and to the economy and he invented the diesel engine to run on vegetable oil to be cheaper, cleaner, + convenient.

Diesel Died in mystery and his ideas were twisted to make more money for the EVIL OIL CARTEL.
Farm our Fuel not Fossil Fuel

Fossil Fuels
USE MAY PUT UP TO 30% OF SPECIES AT LIKELY RISK OF EXTINCTION. Including People

Farm Fuel or Fossil Fuel
The Bad Choices of the Past Have Jeopardized the future of Humanity

Grown for Biofuel
GOOD CHOICE

Oil From Plants Reduces CO2 makes Oxygen and is Clean for our Environment

CLOSED CIRCLE

FOSSIL FUEL
Bad Choice

Oil Drilled from the Ground Destroys Oxygen and makes excess Carbon Dioxide
Farm our Fuel not Fossil Fuel

Excess CO₂ Build Up

GLOBAL WARMING: CAUSES AND EFFECTS
Excess CO₂ threatens All life on this planet

How Global Warming Works

Carbon Dioxide (CO₂)

Greenhouse gases

Fossil fuels (coal, oil, natural gas)

Excess CO₂ needs to be reduced
Farm our Fuel not Fossil Fuel

Only Plants Can Save Us

This is not about controlling Emissions

Only Plants can Absorb the Excess CO2

Only Plants Can Save Us

Only Plants can absorb the CO2

Deforestation
Burning of fossil fuels
Release of greenhouse gases
Biodiesel

Dr. Rudolf Diesel – 1895
Peanut oil

The use of vegetable oils for engine fuel may seem insignificant today. But such oils may become in course of time as important as petroleum and the coal tar products of the present time.

Rudolph Diesel was born in Paris in 1858 to German parents, both hailing from the Bavarian town of Augsberg. After studying mechanical engineering at Munich Polytechnic, Diesel rose to prominence with his ideas on how compression-ignited engines powered by a biomass fuel like vegetable oil, could outperform both steam and petrol-powered engines, as well as empower small businesses and farmers in a world where energy production was becoming increasingly monopolized by large petroleum corporations.

The first diesel engine was ready for testing on December 31st 1896 and by the turn of the century, Diesel (by now a devout family man) was a multi millionaire. His patents were being bought by engine manufacturers in Europe and the USA. Despite his financial windfalls, Diesel was a big spender and his money woes contributed to severe headaches and even a nervous breakdown.

By 1912, Europe’s troubled politics were approaching their own breakdown. Diesel was courted by Germany, France and England to supply their naval fleets with diesel engines. Diesel’s politics were somewhat anti-Kaiser at the time, being more Anglo/Franco-friendly, which is the fuel that feeds the conspiracy surrounding the cause of his death on the 29th September 1913, when he vanished during an overnight crossing of the English Channel on a mail steamer sailing from Antwerp to England. Was he on his way to England to sell the Royal Navy his engine when a German or French assassin pushed him overboard? Or was it a murderer hired by the giant oil conglomerates to ‘neutralise’ this ‘alternative upstart’? Or was it a depressed, bankrupt Rudi himself, who, according to historians, left 20 000 Marks and bank statements showing all his accounts empty in a bag he told his wife not to open, who, wracked by the pressures of success, threw himself over the railings of the steamer into the chilly waters of the channel?

What we do know is that shortly after his death, the German submarine fleet became powered solely by diesel engines, called itself the ‘Wolf Pack’ and went on to inflict major damage to Allied shipping during World War One. His family refuses to believe it was suicide...what do you believe?
We Designed the Diesel Engine so that Any and Every Farmer in the World could very easily Grow Fuel for his tractor and car.

But that Angered the Evil Big Fossil Oil Industry
Farm our Fuel not Fossil Fuel

Fossil Fuel Carbon Cycle

The Carbon Footprint is massive

Negative 220 CO₂

While absolutely NO Oxygen is made

Every Gallon of Fossil Fuel Gas Used Adds 220 lbs of CO₂ to the atmosphere, and adds no Oxygen

BIO- Fuel

To Make + Use a Gallon of Gas from Vegetable Oil it takes lbs of CO₂:
- Farming -- 10 lbs of CO₂
- Preparation -- 10 lbs of CO₂
- Distribution -- 10 lbs of CO₂
- Utilization -- 22 lbs of CO₂

TOTAL = 52 lbs of CO₂

Positive 1000 + O₂

Farmed Oil adds massive Oxygen, absorbs CO₂ Saving Us All

10 sq meters of Vegetables will Reduce massive amounts of CO₂ into Oxygen to make a gallon of oil
Thus there is Massive benifits to the Environment
We are cleaning the enviroment as we drive

Absorbs Atmosphere
CO₂ makes Oxygen

The Biodiesel Cycle

Cleaner, Cheaper, Convenient
If we Grow our Oil we will clean our world as we drive
Yes, this is true
Farm our Fuel not Fossil Fuel

Problem
The World’s Problem is too much Carbon Dioxide & too little Oxygen.

Solution
The Solution is Plants
According to Quantum Electro-Dynamics, plants take CO₂ and convert it to O₂. We must encourage every and all plants stop wasting good farm land anywhere use our deserts to develop large desalination plants that use the sun to desalinate sea water and use the water to grow plants HYDROPONICALLY.

In the Garden of Eden the Serpent tempted the woman and the man. They gained knowledge, but lost innocence.
Mankind has developed many false beliefs based on the promise of this knowledge. These false beliefs have jeopardized the planet. False beliefs such as synthetic drugs and foods, that petroleum should be our fuel, allopathic medicine, tobacco, dextrose sugar, meat as a staple food, unequal education to keep minorities down, the survival of the fittest, and that the media is real and unbiased. In fact these false beliefs make money and greed become uncontrollable. Money is a drug.

Now at the time of change, an Angel of both sexes will tempt the serpent. The serpent is the base lizard brain in all humans. This lizard brain is the source of anger, hate, aggression, greed, and the delusion and clinging to false beliefs that make money and threaten the very existence of human life on this planet. The Angel will defeat the greed and delusion of the lizard brain and lead humanity to a thousand years of peace harmony, freedom from excess degenerative disease, excess greed, discrimination, and inequality.

The Angel will return us to the Garden of Eden.

1. We must stop the over consumption of meat and switch to the more healthy fruits and vegetables. Wake up people’s minds.
2. Switch from fossil fuel to Bio-fuels and Bio-mass fuels.
3. Limit petro-synthitic chemical production and use organic chemicals from plants such as sugar or herbs.
4. Use dextrose sugar for Batteries, and fructose sugar for foods.
5. Use more Natural Medicine by changing the law to not just protect Patents but to protect Natural Recipes and Natural Made Medicines.
6. Stop the Danger of GMOs to destroy the balance
The Angel must tempt the small petty greedy minds to release their false beliefs. Release their avarice. Release their anger. Eat of the fruit of knowledge and see that we all share air.

Two of the major problems of our world today are:

1. Excess green house gases (like Carbon Dioxide, Methane, and Synthetic compounds) the deep ground Petroleum makes excess pollution, and a lack of good available oxygen. Cows and farm animals take in Oxygen and produce excess Methane and Carbon Dioxide.

2. Bad diet and life style of excess meat, synthetics foods and medicines, dextrose sugar, cooked oil trans fatty acids, lack of vegetables, tobacco, stress, lack of exercise and lack of good air (as the oxygen level decreases) all producing excess degenerative disease.

These problems have a simple quick solution from the Angel. The switch to increase plants and thus a more farming society and economy is the answer. Plants take in Carbon Dioxide and give off oxygen. Eating more vegetables drastically reduces degenerative disease. We can easily now use bio fuels and bio mass to produce a much cleaner gasoline from plants.

This would quickly solve many problems. But this would effect the greed of Big Sugar, Big Oil, Big Pharmaceuticals, and others. Greed and delusion of false beliefs stop us from Healing the Planet and Ourselves.

The Angel can lead us to return to the Garden of Eden for a thousand years.

People complain about changing food intake because of addiction and habit. Bad foods can be addictive. When people are given more healthy diets they complain at first, then they start to acclimate. Then they like being more healthy and having more energy. Then they cannot imagine eating the old unhealthy foods and finally they dislike the old unhealthy slow poison foods.

You just need to start eating healthy for your health and the health of the planet. Break the addiction to slow poison foods.
Farming Fuel could clean the Atmosphere CO2 in Just one or two years
Farming our Oil Could Clean our Atmosphere in 1 or 2 years

BUT -

Evil Big Oil Does NOT Want THIS
Farm our Fuel not Fossil Fuel

The Media wants more money to bury the story about growing oil.

Growing our Oil would mean a major Shift in Financial Power.

I ain't Giving up my money easily.

It is about time someone value me.
Farm our Fuel not Fossil Fuel

OUR GAS PRICES ARE SO HIGH BECAUSE WE DON'T HAVE ENOUGH REFINERIES.

Why Don't we just Grow our Oil???

WHAT?! AND CUT INTO OUR PROFITS! Going Natural would Put Us out of Business

We are NOT Going to buy your Shit Forever

If we Grow our Oil it would be Cheaper, Cleaner, Healthier, Safer

There are Evil Ultra Rich Forces that Wish to STOP Your Freedom to choose Farmed Oil
The War Machine has destroyed lives and property of millions. The War Machine feeds Fear, Hate, Homophobia, and Xenophobia to excite young men to fight and die all in the name of someone else’s greed.

The ideal of right livelihood, where no one should be selling drugs, weapons, or humans have been discarded for greed. For the human race to progress we must follow the lead of the Angel and return to the form of Right Livelihood.

The false belief that we need the petroleum from deep in the ground needs to be released. We can get all of our energy needs from plants, save the planet by reducing Carbon while generating Oxygen, and return to a green farming economy. But the oil companies will have to give up their greed.

The profits made by the Oil and Weapon Machine is monstrous, the greed gargantuan.

The Angel must find a way to defeat this Greed.

The Future of the Planet depends on the Release of the GREED, ANGER, HATRED, FEAR and the DELUSIONS OF FALSE BELIEFS...
