Whatever You See
You See With Your Own Mind

To confront a person with his own shadow is to show him his own light.

No one can be anything but a partial being, ravaged by self doubt and loneliness, trying to please others, unless he has close contact with his own deep unconscious shadow

I hate myself repressing my true self every day

We need a new word for ignorance, a new word for stupidity. Alan Turing makes the first computer, it ends World War 2 where over 50 million people died, without the Turing computer we would all be living under the reign of terror of the Nazi empire. Oh My God such complete idiocy can ONLY come from a disturbed mind unable to deal with a repressed sexual identity. It is clear that this women is a latent lesbian. EXCESS HOMOPHOBIA CAN ONLY COME FROM THE FEARFUL MIND OF A REPRESSED SUPPRESSED LATENT HOMOSEXUAL.

HOMOPHOBICS ARE STUPID
By definition Heaven is Not Homophobic, Homophobia is a fear of you or people finding out or thinking you are gay

The sign of a latent homosexual (a secret inside homosexual) is over reaction to seeing homosexuals. Studies show that the extreme homophobic is aroused when he sees homosexual sex. His verbal mind denies the reaction of unconscious body. This denial then pushes the person to further conflict. They need to convince themselves and their friends that they are not homosexual. So they resort to violent outburst to try to convince others they are not gay.

There were protesters during the Mr. Gay Europe celebration of which I was the hostess for 2007 and 2008. Some latent homosexuals asked people to come and throw eggs at me. I put up a sign that said “Only a latent homosexual would throw an egg”. No one threw an egg. Mr. Gay Europe was successful. But there was blood on the streets. I made several movies about this conflict and wrote several letters about this to help our society to end this conflict, but the media will not post such letters. The latent homosexuals at the news media do not want people to see the story about latent homosexuals. The media is once again not really covering news but twisting.

The symptom of latent homosexuality is over reaction to seeing homosexuals. This is a medical fact. The more you don’t like it, the more that you are unconsciously latent homosexual. If you see a homosexual and it makes you angry, I mean very angry, it is undeniably a sign of a hidden latent homosexual fear in you. The more you react the deeper the latency. This is unconscious and a deep fear within. That is why it provokes such overreaction. This is medical psychological fact. Over reactive protest are all a sign of emotional and often sexual insecurity.

*Leviticus 18:22 says...*  
*But what does Leviticus 19:28 say?*

“You shall not make any cuts on your body for the dead or tattoo yourselves.

I am the LORD.”

If you quote Leviticus to justify hatred and persecution of gays...be honest, (see lying (19:11)) have you broken any these rules in Leviticus?

Eating fat (3:17)
Carelessly making an oath (5:4)
Letting your hair become unkempt (10:6)
Tearing your clothes (10:6)
Eating an animal which doesn’t both chew cud and has a divided hoof (cf: camel, rabbit, pig) (11:4-7)
Eating any seafood without fins or scales (11:10-12)
Going to church within 33 days after giving birth to a boy (12:4)
Lying (19:11)
Mixing fabrics in clothing (19:19)
Trimming your beard (19:27)
Getting tattoos (19:28)
Mistreating foreigners – “the foreigner residing among you must be treated as your native-born” (19:33-34)
Working on the Sabbath (23:3)
Selling land permanently (25:23)

If you think these are ridiculous, or outdated because you’ve done them all...you finally get it.

The Bible Says:

For as one thinks within his heart, so is he or she.
Proverbs 23:7

The Bible says we are what we Think. The Sexual Identity of a Person is Determined in the Mind not the Penis. So who is sleeping with who, is a mind thing more than organ thing. And Oh By the Way, the Bible says do not apply Tattoos to your Skin. (And the Bible does not say anything bad about Lesbis at all)

Unless you have had your head up your ass for the last 8 years, you should know the world has changed its ideas about gays

Homophobes it is time to shut up and put your head back where it belongs before some one finds out who you are.
By definition Heaven is Not Homophobic, Homophobia is a fear of you or people finding out or thinking you are gay

There are over 190 countries in the World today. In 90 countries, almost half, some form of homosexuality is illegal. In 10 countries, less than a tenth, homosexuality is completely free and equal. In only one country is gender and sexual identity a true free choice of the big head not the little head. There are vast numbers of homosexuals living in fear, intimidation, humiliation, repressed, ridiculed, and often times facing death threats or even death. There is blood in the streets from latent homosexual violence against people that touch repressed feelings in them. Phobia is a fear. The homophobic does not really fear the homosexual across the street, he fears the latent homosexual deep inside himself. There is much work to be done. To assume that all is well is to ignore the truth, the highest form of IGNORANCE. Nonetheless this ignorance can be easily dealt through simple discussion. Simple exposure and education of the true reason for violent homophobia will do this. Movies such as this one can do this.

Most of the world sees homosexuality as a disease or a crime not just a simple variance of biology. The media of new and movies, music etc have stereotyped the homosexuals as laughable, effeminate, sissies unable to defend themselves physically emotionally or intellectually. Hollywood mostly displays homosexuals as pathetic comics. Hollywood and the news media perpetuate the inaccurate stereotypes and refuse to cover issues of freedom of choice. The Pope recently said that curing and ending homosexuality is more important than saving the rainforest. Attempts at the UN to decriminalize homosexuality are unsupported by Russia, China, and even America. The world is mostly unaware of the truths discussed in this movie, and the world’s media violently refuse to allow Desire’ to discuss such freedom. Homophobia in Hollywood and the world media fear exposure. They enjoy and eternalize the farcical pitiful pathetic comical stereotype.

Most gays are more concerned with drugs, abs, partying and sexual opportunity than helping the world to broaden its global mind. Self obsessed and somewhat satisfied with their own little world the homosexual population languishes and struggles to have real impact on the masses attitudes. The homosexual debate needs clarity, needs explanation, needs a champion, needs Desire’. But regrettably, Even the homosexual population refuses to support Desire’. So efforts to get this story told are at present futile. Perhaps all of this will change and people can learn to let their BIG HEAD and be free to choose their identity in every fashion. Perhaps yet YOU might be prompted to care, to share, to dare, to tell others of this movie. Perhaps YOU might even be prompted to THINK.
