

ISS Mentorship Programs 2012-2013,
Super September Savings for BHO Conference Attendees!

Early Bird Registration is officially OPEN for Exciting new Online ISS Mentorship Programs!

Last year, we piloted the very first industry "Mentorship" program with an enthusiastic pre-endorsement from BHO, **an endorsement which continues to be in place as one of their prerequisites for unlicensed specialists to upgrade to the next grade of devices coming to market soon.** Past Mentorship Program participants who are unlicensed and wish to upgrade to future devices already have 6 months, and some 9 months of mentoring on record.

The testimonials were outstanding (thank you!); Instead of repeating them here, suffice it to say we are continuing the program guided by your enthusiasm and valuable input into shaping the program. We have listened to your ideas about expanding the program, which has spawned even more in-depth "theme based" mentorship programs this season, in addition to the starting 6 month program we recommend for first time or even repeating attendees, due to the enormous benefit gained from the sessions themselves and the "case conferencing" of the last hour, which has proven to be a valuable reference for future cases by all.

We now have a flexible "open option" choice of class time that suits practitioners from all over the world, with the addition of a separate, more specialized advanced 6- month topic on "Conflict Resolution of Hamer Brain Panel Techniques", a 6 week Digestive Wellness course! Please see the complete 6 week and 6 month programs below these introductory descriptions:

Mentorship Program # 1:

The 6-Month, once a month Program: "The Client IS the protocol" (there are guidelines, but no set protocols in Superconscious Biofeedback practice). Multiple class times and all class recordings are open for all participants, please see course description, dates, times, and registration links below.

Mentorship Program # 2:

A 6 month, once a month Themed Mentorship on "Conflict Resolution" techniques for specific Hamerherds. Please see course description, dates, times and registration links below.

Advanced Course:

A 6 Week, once a week "Digestive Wellness Course" (this is part of our ISS Advanced program, and is complementary for those of you who registered for our complete program, but available as an elective continuing education course for those of you who did not.) Please see course description, dates, times and registration links below.

Details and Registration Info:

Mentorship Program # 1~ "The Client IS The Protocol": The 6 Month Mentorship Program Description and Registration:

Be a "fly on the wall" as you watch someone with experience conduct a live biofeedback session on real people, on real issues, in a session style that addresses all levels: mind, body and spirit, and follow the progress through 6 subsequent sessions (many of you know of this as a "Case History" from your other fields).

In this program, you NOT ONLY watch real sessions, in action, in a live webinar format (and earn CEU's at the same) from one of the longest-term practitioners & internationally certified teachers of the device personally trained by the inventor, but also receive the session FOR YOURSELF, virtually, as part of a small group of like minded individuals navigating and supporting world changes together.

Learn by watching AND experiencing organically flowing "thinking on your feet" techniques that could never occur in a simplistic "protocol" approach. Learn to operate outside the box as the master of your equipment, comfortable with your choices by going through the process as an observer/ receiver, then applying the unique pearls that unfold to yourself and clients individually in session.

Learn to make a session-to session plan and build upon your work, and still remain open to spontaneity as the 6 month process unfolds new levels of wellness and being in ways that are central to the stress profiles of professionals. Bond with other like-minded practitioners in a small group through the process, for a sense of private yet meaningful community, growth and support for the worldwide shift now in full swing!

ISS Mentorship Programs 2012-2013, Super September Savings for BHO Conference Attendees!

This once a month, pre-scheduled 6 month program gives you:

- * 3.5 CEU's per month for one of the scheduled webinars (for a total of 21 CEU's by March of 2013),

*however, you are welcome to join in as an observer on **ANY** of the 3 scheduled monthly Mentorship Program #1 webinars should your schedule change, or if you simply want to absorb more!*

- * Receive the session virtually as a part of a small group (after watching the techniques and unique applications, you can then privately apply them to yourself and clients in the harness~ this is a powerful process!),

- * The Final hour of the 3 1/2 hour monthly meeting time is dedicated to "Case Conferencing" about individual cases (ask questions about your unique cases, hear others' cases and, having heard and watched the instructor and group input demonstrated on the device, feel prepared when similar cases come to you, all in accordance with confidentiality rules in the "group agreements" section below)

- * Learn to work with and lead groups transformationally by being a part of one.

- * See Gage's planning notes, and compare them against how the session actually unfolded; and learn how to carry forward themes from the last session into the next for reinforcement while staying open to and accepting of inevitable changes! ("You never put your foot into the same stream twice!")

- * A different "subspace communication" letter style in several sessions, that you pro-actively participate in writing (yes, your group will receive a text file copy to model future subspace communications with.)

- * **Be in a supportive environment with others who "get it".**

This is a 6-Month, Once a Month, Pre-Scheduled Program you can enter into your calendar and count on! However, you may also join in on the other ISS Mentorship Program #1 scheduled Wednesday/ Saturday/ Sunday 6- month mentoring sessions either as a make up or simply to learn more, the more the merrier. Thanks to previous participants' input, class times are not only flexible, but inclusive due to the recording links of each being sent out to all participants in the 6 month program!

In-Between Webinar Session Support:

Watch the video of the session as needed until the next session (only members of this Mentorship program will be able to see it, please see

Themed 6 Month Mentorship Program #2: "Conflict Resolution" Techniques for Hamershenherds!

One of most frequent questions I've received from practitioners is, "once the client identifies that an "Active Conflict" trauma profile (from the Brain Scan/ Hamer panel) indeed has occurred and is operating, how do we actually support the necessary resolution the Hamer New Medicine model states is the vital missing link in their wellness picture, aside from simply using the Hamer panel? **What if the conflict needs more in depth**

work in order to release it?

This is all new content on how to use the information gleaned from the Brain Scan program about "active conflicts" and what do with them! We will explore various ways of seeking out active mind/body conflicts in other areas of the program for the most thorough insights for releasing stressful belief patterns, emotions and body/mind correlations, along with combining special EFT and EMD body/mind release techniques specific to the meridian points of the Brain Stem's organ relays.

You can read more about EFT (Emotional Freedom Technique) at www.garythink.com. EMD stands for Eye Movement Desensitization and is an NLP technique we, along with EFT, will be incorporating during inversions, brain scan programming and more.

This is an exciting class to be a part of, as we will be covering 6 samples of Hamershenherd (HH) Conflicts central to the human condition: I've chosen the following samples of items frequently reacted to in the Hamer Panel/ Brain Scan program, for use on the group virtually, and the best orientation to the various techniques we'll explore in each subsequent month:

Class #1: A Group Virtual Session on the Active Conflict of The Endoderm #15-Stomach CA Emotional Body Connections-
"It lies in my stomach", unable to digest the morsel. Dispute with family

members e.g. often concerning inheritance or corporations where one cannot get their fair share, sometimes not receiving entitled rent payments or legal lawsuits.

Class #2: The Endoderm Continued: #32-Ovarian and Testis Emotional Body Connections-

Tragic loss conflict, e.g., son, best friend, a beloved person or animal.

Class #3: The Endoderm Continued: #7-Thyroid Gland CA Emotional Body Connections-

Unable to reach or acquire a morsel because the individual is not fast enough, e.g., sales clerk takes the customers from another sales clerk because she runs faster to the door. The boss reduces the salary of the non-productive sales clerk.

Class #4: The Mesoderm/ Cerebellum Left and Right Hemispheres: #5-Pericardium CA Emotional Body Connections-

Attack against the heart (also in the psychic association, "You have a heart problem")

Class #5: The Ectoderm/ #1-Thyroid CA Emotional Body Connections-

Conflict of being powerless, "Something should be urgently done, my hands are tied, and no one is doing anything".

Class #6: "Ca. Equivalent Items Without Cell Degradation Breakdown": # 3B- Motoric Paralysis Facial, Emotional Body Connections right and left sides,

"Unable to escape, or unable to follow (legs) or cannot hold on or defend (arms/ hands), or unable to get away, evade (back and shoulder muscles) or not knowing if I'm coming or going (palsey).

We have 2 group times for this course for flexibility (and repetition if necessary!)
