Dear Practitioner,

Our industry has been besieged by many mishaps over the years, now is the time for us to do something about this. This time we do it right. Recognized medical devices, the legal software and even more important, the education and proper certification to maintain a proper, legal and prosperous practice have been grossly neglected. After all the device you use is just a tool, you are the craftsman and you need to be properly trained. This puts us ALL at jeopardy and we have gone far too long with this neglect and we need to put these things all in check in order to remove the fraudulent and illegal practices.

In any industry, the only way to maintain a proper flow and growth is to follow guidelines which all are required to adhere to. This is true for everything from running a restaurant to a major corporation and in the field of biofeedback and natural medicine there is no exception. There is a RIGHT way and a WRONG way. If you are not using updated legal software, which was mandated in your original contractual agreements, if you do not have the proper education and tools of knowledge in order to work with patients and achieve the best results, if you are backdating your data to avoid following the necessary protocol outlined, then you are in danger of being prosecuted. Your patients require more.

We have developed the STARTUP program which will enable you to “get your house in order” and maintain a productive practice. This is the goal. We have no hidden agendas or ulterior motives for creating these criteria other than the productiveness of the industry and you as a practitioner. Below we have listed the program in which is NECESSARY in order for you to succeed. An office, proper training, posters, brochures will take a few thousand dollars to allow you to Start-Up your business. If you are afraid to spend a few dollars then it is a sign you are not confident in your abilities to truly help people.

Education

In order to be able to properly use and assist your patients in their wellness, a working knowledge and education of your device as well as the background supporting biofeedback and natural medicine education to apply the necessary procedures plus advice and direct your patients in the right path to a natural solution and wellness to their ailments is required. This education you will find at The International Medical University of Natural Education (IMUNE). We have all the required courses, lesson, case studies, medical textbook documentation and fact-based information necessary to provide you with the knowledge necessary to be successful as a bio feedback technician and or natural therapist. At IMUNE we offer several courses in which you will receive a full curriculum in depending upon your choice of course study. All of our courses are thorough and you will finish with a complete education and knowledge in the area of your study.

Certification

After your education, you need to be properly certified by an accredited certification board in order to be fully protected and properly insured once you have begun your practice.

5. Get certified with IMUNE or the ABC (we are offering a grandfathering right now) Certification means IMUNE stands behind you for medical and legal consultation. (€150/$200)

6. Get an International IMUNE license ($150, $100 test fee)

7. Study business practice development

8. Study the Insurance 3rd party pay procedure, report compilation, and scope of practice.

9. Build a nice office at home to see patients or offer to work in a doctor’s office for a percentage of the billings.

10. Become a provider of services for the medical community and the insurance companies.

11. Become an IMUNE mentor and help others learn as you earn more.

A professional biofeedback therapist must master the Lifestyle Inventory, Behavior evaluation and the SOC Index. Today biofeedback must embrace the Suppression and Obstruction to Cure SOC index. You need to learn how to do a Symptom Inventory and an Operationalization of the Patient’s concerns. You need to learn how to do a report and it must center on the SOC and how to change what they can and accept what they can’t change and you must help them develop wisdom.
After you get a legal device for under $1000 dollars, some study time and some discipline you can get trained and put some paper on the wall. With this you can get a home office with a good chair, soft music, relaxing quiet atmosphere and get started. But any business endeavor takes some front money. But then with some dedication you can build to a thousand dollars a day practice in Biofeedback or more.

These are the TOP FIVE REASONS to get a Doctorate in Wellness PHD International Medical University degree at home.

1. Getting a degree means you will increase your earning potential. Studies have shown that at home study is just as good as attended classes.

2. Study and Complete Courses at Your Own Pace. Use this to maximize the learning.

3. Scheduling Convenience. Work when you are ready to work.

4. Teaching Faculty Who Actually Have Work Experience in Your Field of Study. Global faculty at IMUNE is with worldwide famous doctors.

5. Save Money on Travel, Parking, Childcare, and Books. You save money the world saves energy, this makes you and the world better.

6. Employer Support. Many employers offer tuition reimbursement for employees’ tuition associated with training in their fields. Employers also tend to encourage enrollment in online degree programs because they know employees will be able to go to school and still be able to be committed to their jobs. Don’t be afraid to ask your employer. Every company needs a wellness consultant.

Mobile Biofeedback Business Obstacles

The vast majority of people who launch a mobile biofeedback business burn out in the first 2 years. It’s not because biofeedback therapy isn’t fun or easy to do. It’s because they didn’t go into with good training, respect for the research and a well thought through plan. In many causes they burn out because they are too busy trying to juggle finances, figure out marketing, advertising, prospecting and scheduling new clients ALL while trying to provide an amazing quantum biofeedback experience! Remember the experience is what people remember and tell others.

If you don’t know exactly what to expect and how to plan appropriately for it in your mobile biofeedback business, you’re asking for trouble!

I have tried to make this complete education as professional and evidenced based as possible,

I have done the most profoundly immense task of making a complete medical education from abscess to zoophilic all with the idea that SINthetic drugs are not to be used unless there is extreme need,

I have made a professional evidenced based extensive QUANTUM Biofeedback course proving all that we believe with research and extensive peer reviewed medical journal publications, All in intimate professional scientific validated detail.

We have spent over 40 million dollars on making an extensive collection of over 500 movies and multimedia about our medicine. I ask only to be paid in Karma.

But our staff at IMUNE and the mentors of the future need to have some compensation, record keeping, grading tests, validating identities, office chronicles all take some capital.

I have tried to minimize all costs as best I can,
Now we face a crisis, a host of untrained unskilled trainers with no idea of the law and less respect of the law. There is a host of unqualified inexperienced therapists with no respect for validation or verification. Therapists afraid of watching a video, unable to read a book, all looking to 2 minute answers of complex medical questions, sleeping during webinars, and mostly looking for a short cut.

This crisis can be averted if we get professional and work together to respect evidence, respect the law and respect hard work in education.

There is a full manual with all functions, just as there is a manual for doing brain surgery, you might get a manual on how to play a piano or how to play a violin, and reading the manual will not help you play a symphony and manual does not overcome a lack of a good education.

You can read a manual on how to build a house and without training see what kind of house you build. Medicine is even more complicated than carpentry, plumbing or house wiring, we do not let untrained people read a manual and build a house, only a fool would.

The manual alone is just an excuse for people to avoid reading a book or watching a video, there is much more to playing a symphony than reading a manual,

Get with it people, if you can’t read a book or watch a video, If you do not want to do it right, please find some other endeavor, Patient’s lives are important enough to learn more about medicine and stop thinking it is just about what buttons to hit.

With all of the super miracles we get with untrained therapists just think what the future would hold if we had well trained users. We might be able to see the end of degenerative disease.
Desiré is the Professor Emeritus of IMUNE. IMUNE is an accredited and legally registered medical university in Europe.

Since 1995 IMUNE has been offering medical education in a variety of subjects to defend and perpetuate Natural Medicine. There are many small minded people being driven by the SiNthetic chemical companies to destroy Natural Medicine as a viable choice in Medicine. IMUNE has offices in Switzerland, Mexico, Dubai, Budapest, England, and the British Virgin Islands. The small petty minded picayune minions of the chemical companies constantly attack with their anal retentive biased short sided views.

We must fight for freedom of choice and especially freedom of choice on medicine.
