1 Introduction

1.1 What is the SCIO?

The SCIO (Scientific Consciousness Interface Operations System) is a universal electrophysiological biofeedback system. It coordinates a complex electro-modal, biofeedback program with computer software in order to gather bioenergetic information of a client’s subconscious. The information is gathered from the body through electrodes in head and limb straps providing an accurate and precise picture of the client’s general status. This information is selected and listed by the SCIO in order of the highest reaction and the stressors are analyzed in the course of a stress management session.

The current version of the SCIO is based on 20 years of history, research and experience throughout the World.

1.2 Indications for Use

The SCIO is indicated for use as a Universal Electrophysiological Biofeedback System. The Universal Electrophysiological Biofeedback System is made up of the following Eight Universal Items which are functions of the SCIO:
1. Stress Reduction and Lifestyle Stressors Questionnaire;
2. Simple EEG [electroencephalography] biofeedback brain wave stress reduction;
3. Three-pole ECG [electrocardiography] simple heart awareness and biofeedback stress reduction;
4. EMG [electromyography] biofeedback for simple reeducation of muscles;
5. GSR [galvanic skin response] biofeedback and TVEP [transcutaneous voltammetric evoked potential] biofeedback (electrophysiological reactivity);

Since GSR biofeedback requires a microcurrent voltammetric stimulation to measure GSR, then the microcurrent has the following secondary functions as performed through the biofeedback loop:
6. Microcurrent Transcutaneous electro nerval stimulation (MENS) for pain reduction in the cybernetic biofeedback loop;
7. Trauma or wound healing and electro-osmosis in the biofeedback loop;
8. Global Voltammetric Charge Stability in the biofeedback loop;

All of these functions combine to form a Universal Electrophysiological Biofeedback System for the following treatments:

a. the detection of stress and reduction of stress,
b. the treatment of muscular re-education from injury, muscle weakness or dystonia,
c. pain (MENS [microcurrent transcutaneous electro nerval stimulation]),
d. the healing of trauma and/or wounds,
e. rectifying charge stability imbalance and rectifying redox potential

The SCIO is for biofeedback use only. All claims are for biofeedback only.
1.3 Disclaimer

The SCIO is to be used as a universal electrophysiological biofeedback system. It is designed for stress detection and stress reduction. The device does not diagnose any issue other than stress. Stress can come from many sources; this system uses many multimedia therapies to reduce stress. This device also measures client's electrophysiological reactivity which is another way to represent stress. Only a licensed healthcare practitioner can diagnose a client. The system is calibrated to measure the very fine and subtle electrical reactions to a group of biological and medical stressors. The sensitivity is set so fine so as to pick up the earliest sign of distress and issues related to distress. Therefore, the results might be below the client recognition. The readings should be evaluated by trained biofeedback technicians. Always consult with a licensed healthcare practitioner. Always use additional tests or referrals. No claims other than stress detection and stress reduction may be made.

2 Starting up the program

Connect the SCIO device to the computer using the USB cable. Turn on the SCIO system (the turn on button is at the back of the box). When you turn on the system, all the lights on the front panel will flash once, but only the green light stays on.

Attach the harness to the patient in the following way:

- red harness to right wrist
- blue harness to right ankle
- yellow harness to left wrist
- black harness to right ankle
- head band on the forehead (with the strips in contact with the skin)

Double click on the Clasp 32 icon. While the program loads up, at 25% the software checks the SCIO device and a panel comes up. Click Close on the panel.
Click Continue (the smaller one is the faster)
Click Password
Click OK
Enter 0210
Click OK

3 Demographics panel

Click on Demographics on the main panel.

3.1 New client

Enter the Testee Name in the edit box. Click on Male/Female/Both.

Check the Pregnant box if pregnant.

Check the Top Class Athletes if the client is an athlete.

If you feel the client is negative, enter a number from 1 to 10, depending on how you appreciate his/her negativity.
If you feel that the patient is overweight, enter the approximate number of kilograms.

The patient must answer the question in the SOC panel. Enter the answers as numbers. SOC stands for Suppressions and Obstructions to Cure.

As an option, you can add more data to report.

Click on Add More Data to Report. This will open a sequence of 6 panels. Check the appropriate information. Double click on each panel to move on to the next. This information is not stored from one session to another, so it needs to be re-entered every time.

Click on Patient Data (Load New or Previous Patient)

Click OK

Click on New Patient

Click OK

Enter client birth date, place of birth, country.

As an option, you can enter client full address.

Click on Geography on the top menu bar. Select continent of birth.

Click on Birth Time and Place on the top menu bar. On the new screen that appears, enter the time of birth, if known. If not known, you can click on If Unsure of Birth Time, Calculate. Based on electrical measures, this will give an approximate answer. Copy the answer into the box.

On the map, double click on the approximate place of birth (This activates the Medical Astrology)

Click OK

Click Save Current Patient

Click Close

### 3.2 Previous Client

Click Demographics

Click Patient Data (Load New or Previous Patient)

Select the name of the patient from the list.

Click Previous Patient

Click Yes

Click Yes
3.3 Modifying a client data

Click Demographics

Enter the client name, then modify the SOC values

Click Patient Data (Load New or Previous Patient)

Click OK

Select the name of the patient from the list.

Click Modify Patient

Click Save Current Patient

Click Yes.

4 Calibration

Click Calibration

Click Fast Track Calibration

When Calibration is complete, the following message is displayed: “Calibration Complete, proceed to Test”. Click OK. Click Yes to exit the Calibration. Click No to stay in the Calibration panel.

Another method of calibrating is as follows:

Click Search and Clear Filed Anomalies

Click Adjust Calibration

Click Correct Geopathic Anomalies

For further clearing geopathic stress:

Click Computer Risk Filed Neutralization Program (a panel appears)

Click Show and Tune Harmonics

Click Check Room for Geopathic Stress

Click Clean Workplace, if geopathic stress detected.
5 Testing

5.1 System Power Settings

Before the Test, click on System Power Settings from the top menu bar and from the drop down menu select the following:

- Scalar Boost Active
- Activate Positive Consciousness Field

5.2 Test

Click Test on the main panel

Click Prepare Test

Click Test

Click Close when the Test is over.

Click Please Load New Info Report and wait about 5 to 10 seconds.

5.3 Interpreting the VARHOPE values

V – Voltage – adrenal function and will power

A – Amperage – brain function, serotonin, life force

R – Resistance – ease of flow of energy through the body, overall health and organism resistance

H – Hydration – ease of water flow and water amount

O – Oxidation – ease of oxygen flow through the body

P – Proton Pressure – the body’s energetic pH. Above 70 alkaline, below 65 acid.

E – electron pressure – the measure of available electrons. The closer the number to the P, the better.

5.4 VARHOPE panel information

- Cellular Vitality
- Resonant Frequency Pattern
- Reactance Speed
- Phase Angle
Phase Response

Impedance

Regulatory Dysfunctions:

1. Energy Management System
2. Organ System
3. Spinal Energy Flow
4. EEG
5. ECG

Explore Risk Of:

1. Metabolic Error
2. Oxygenation
3. Hydration
4. Degeneration
5. Hyper Reactivity Dysfunction
6. Hypo Reactivity Dysfunction
7. Reactivity Dysfunction

5.5 Interpreting the Individual Reaction

Click on an item from the matrix to select it.

Drag it and drop it in one of the hold trays.

Click Individual Reaction.

At the end of the test, a yellow panel appears.

Items can be Zapped for 3 minutes or 3 seconds from this screen. For the 3 second zap, click T on your keyboard.

Click Interpret Results for further clarification.
or

Click Retest Item Toxic or Needed

Click Interpret Results.

The results:

Total Reaction –
Allergic Reaction –
Difference –
Resonance –
Coherence –
Rectified –

5.6  Test Panel options

5.6.1  Yellow and Purple Hold Trays

a.  Drag and drop an item form the matrix into the yellow hold tray.

Click on Test Item in Hold Tray Above.
Results appear in yellow.

Related items may be put in the purple hold tray.

Click on Both Trays to correlate the two items.

Results appear in yellow.

b. Drag and drop an item from the matrix into the yellow or purple hold tray.

Click on Treat for a 5 seconds training.

or

Select Auto Focus Zap from the top menu bar

Select Auto Focus Zap 3 min or Auto Focus Zap 9 min

The Treat button is now changed to Zap.

5.6.2 Hold Acute Item Tray

Drag and drop an item from the matrix into the red hold tray at the bottom of the panel.

Click Check for Mental Echo

Click Check for Causal Echo

Click Etheric for Mental Echo

Click Check for Curative Echo

Results appear in yellow. Move mouse over to get hints. Double click on results to get therapy.

Click Empty Below.

2 new buttons appear.

Click Search Harmonics

Click Emotion Focus

Click Homeo Focus

Click General Focus

Click Top 6 Homeopathics

5.6.3 Harmonic Coupling Purple Tray

Drag and Drop two items from the matrix.

Click Search Harmonics: the software will search the matrix for harmonic links
Click Check for Harmonic Compatibility. Above 85 means good compatibility.

5.6.4 Searching Function

Search for an item by typing the name of the item in the search box:

Type in the name in the white box

Click Search Above Tray

Search for an item by its corresponding matrix ID:

Enter the number

Click GoToNo

5.6.5 Alarm Reaction

If an Alarm occurs:

a. you can correct the alarm from the SCIO is Working panel by double clicking on it.

b. you can correct the alarm from the main test panel by double clicking on the red flashing message

   c. Click Retest from the top menu bar in the main test panel

   d. Click Order of Remedies from the top menu bar in the main test panel

Click Alarm Correction/Use only when an Alarm has occurred

6 Risks Profile

Click on Programs from the top menu bar

Select Risks Profile from the drop down menu

Click Load Last Patient Data-Clear Conscious and Superconscious Choice

Click OK

Click OK
6.1 Selye Stress Bar

Alarm phase

Adaptation phase

Exhaustion

6.2 Short Risks Balance

Double click on relevant Risks to load them up in the hold tray.

Click Treat Areas Above
6.3 Oriental Herbs, Minerals, AminoAcids, Perverse Energy, Aroma Therapy

Click one of the above.

Type in an organ (optional)

Click Test Organ for Involvement

Click on maximum 5 items of the highest value to put them into the hold tray.

Test and Treat Hold Items (Repeat until over 85)

Or

Double click a specific item for therapy (Repeat until over 85)

Click Close.

6.4 Risk Chart Graphic

Click on Risk Chart Graphic

Click on Therapy from the top menu bar

Click one therapy from the drop down menu

Click Close to exit.

6.5 Virtual Doctor

Click on a risk of interest from the list

Click on Virtual Doctor Test

On the Virtual Doctor Panel click on Treat All on Panel

Click Close to exit.

7 Homotoxicology panel

From the main Test Panel:

Click Program from the top menu bar

Click Homeo Toxicology

From the Virtual Doctor Panel

Click Connection to Homotoxicology
7.1 Miasms and Xenobiotics

Click on Info Click First to show blockages of cure (also provides access to the Miasms button). Double click to remove.

Click on Miasms – energetically inherited risks. Double click to remove.

Click on Xenobiotics – toxins. Click Close to exit.

7.2 Bio Terrain

Click Bio Terrain Results

Quadrant 1

Quadrant 2

Quadrant 3

Quadrant 4
Zero Point

Circles – oxygen/energy

Squares – watts/power

Square shapes movement

Circle shapes movement

Click Therapy to correct.

7.3 Homotoxicology process

Select a phase (usually the most advanced red one)

Select an organ or a system
Click Continue Test Nosode+Isode on Specific Organ

Click any high values from the Xenobiotics, Additional Factors or Nosodes. Or click on Treat Top 5.

In the lower section, click on any relevant item to treat (usually on repeating items).

Click Close to exit.

In the Detox panel, click on Stimulate Detox or Allopathic Drug Detox.

Enter the relevant information in the Sarcode line.

Nosodes:

Isodes:

Sarcodes:

8 Short Sarcodes

Click Program on the main test panel

Click Short Sarcodes Feedback Rx from the drop down menu

or

From Virtual Doctor Panel, click Connect to Short Sarcodes
8.1 Facial + Eye + Gum Diagnosis

Click Facial + Eye + Gum Diagnosis

Select an item from the list on the left, or the dental pictures, or the picture list on the right.

Click Treat and Scan or double click on the picture

Rectify until over 85.

8.2 Eye Diagnosis and Rx

Click Eye Diagnosis and Rx

Select an item for a specific condition

Double click on the name or area to treat or on the white background to treat entire item

Rectify until above 85

Click Scan and Treat Iridology

8.3 Misc Rx

Click Misc Rx

Select an item from the list

Double click on area or on name to treat or on the white background to treat entire item

Rectify until above 85

8.4 Ear and etc

Click Ear and etc

Double click on area or on name to treat or on the white background to treat entire item

Rectify until above 85

Very good panel for detoxing and stimulating all the major organs. Recommended early in the session to prepare the body for therapy.

8.5 Child and CPR

Click Child and CPR

Information panel.
Click on the list on the left to see the pictures with the explanation.
Click on one of the buttons on the right to access text files.

8.6 More Anatomy

Click More Anatomy
Click Unconscious Search or select item from the list on the left
Click Scan Present Picture or double click on the name or area to treat.

8.7 Bovine, Canine, Feline, Equine, Misc Animal, Avian, Farm, Bee – Apis Mel

Click on one of the tabs.
Select an item from the list.
Double click on name or area to treat.

8.8 Short Cut for Rx

All the information gathered so far, that is relevant to the client, can be loaded up as a Piggy Back therapy.

Additional treatment for the Sarcodes panel: Energetically eliminate these cells from the area of treatment.

9 Spinal Muscular Re-Education, Sarcode Feedback

Click Program from the top menu bar in the main test panel.
Click Spinal Muscular Re-Education, Sarcode Feedback
or
From the Virtual Doctor panel click Look for Connection to Spine.

9.1 Spinal Therapy

Maximum Sensitivity
Normal Sensitivity

Minimum Sensitivity

Click Test and Treat Trivector Energy Flow – repeat until all are corrected – approximately 6, 7 times

Double click on the picture to treat a specific area

Click on individual vertebrae to additional treatment

9.2 NEC (Neuro Emotional Complex)

Click NEC

Enter the answer to the questions

Click Test + Treat Emotions through Phase Stabilization

Repeat until Love Index is twice the Frustration Index

Click Close to exit
9.3 **Original Sarcode Results**

Click Original Sarcode Results

10 Nutrition Panel

Access from the Spinal Screen

Or

Click on Program from the top menu bar in the main test panel.

Click Nutrition and Homeopathy Feedback

Click Calculate, Strike this Key First

Click OK
10.1 Basic Homeopathy

Click Basic Homeopathy from Test Scan

Click Possible Concerns – suggested remedies in blue – the higher the more necessary

Click Best BioPhysical Similar – suggested remedies in white

Click Best Mental Emotional Similar – suggested remedies in blue

Click Energetic Similar – suggested remedies in white

Click Treat Top Items

Click Constitutional

Click Constitutional Subspace Search

Double click on the item for therapy

Resonance and Coherence ideal at 100

Click Close to exit

10.2 Progressive Homeopathy List

Click Progressive Homeopathy List

Click Search for Best Single Similar

Click Close to exit
10.3 Scores on the Nutrition Panel

Click on any of the following categories:

Vitamin A family, Vitamin B family, Vitamin C family, Vitamin D family, Vitamin E family, Vitamin F family (fatty acids), Vitamin K family, Vitamin U family (CoQ), Biochemic Tissue Salts, Protein Digestion, Fat Digestion, General Digestion

Items over 100 are significant

Click on Nutrienergy Balance for overall treatment

Click on items for individual treatments

10.4 Internal Enzymes

Click Internal Enzymes
10.5 Female/Male Problems

Click Female/Male Problems

Do you wish to use the questions?

Click Yes/No

Valuable information in the panel. Highest number is relevant.

Set time

Click Hormone Balance

Set time

Click Ovaries/Prostate Balance

Or click on item for individual therapy.

10.6 Stress and Cortisol

Click Stress and Cortisol

Do you wish to use the questions?

Click Yes/No
Valuable information in the panel. Highest number is relevant.

Set time

Click Adrenal Balance

Or click on item for individual therapy.

10.7 Good Foods

Click good foods for nutritional advice

10.8 Special Therapies

Click Increase Enzyme Therapy

Click Stabilize Enzyme Therapy

Click Increase Hormone Therapy

Click Stabilize Hormone Therapy

Click SCIO Nutri/Enzyme/Horm Stabilize for a special SCIO Therapy

On the SCIO is Working panel click Start Nutri/Enzyme/Horm Stabilize

Wait until rectification reaches 98 to 100

Click End Nutri/Enzyme/Horm Stabilize

Click Close

10.9 Make Master Nutritional Report

Click Make Master Nutritional Report before exiting the Nutrition panel.

Creates the Nutrition report and adds it to the main patient report.

11 Hyper Reactivity Training (Allersodes)

Click Allersodes in Spinal panel

Click Test Hyper- Reactant Groups Again – stressors are higher than 100

Click Individual Hyper – Reactants

Click Yes to empty the report

Organize Hyper – Reactants by Value and double click to add to the report
11.1 Testing one item:
Highlight the item
Click Individual Test
If the number is over 75, it may suggest an inflammatory reaction.

11.2 Testing two items
Highlight one item and write the name of the second item in the purple box
Click Individual Test

11.3 Adding to the report
Click Hyper-Reactant Report
Click Current Examination Report
Click OK
Click Save Examination
Click Close to exit

11.4 Hyper-Reactant Chart
Click Hyper-Reactant Chart
Click Therapy and select an appropriate therapy
Close to exit

11.5 Desensitization
Click Hyper Reactant Therapy
Enter all data
Check the additional information
Click Load Allersode Report items
Set the time
Click Start Desensitization
Click OK when applicable
Click Invert Allergen from Test Tray to neutralize an item. This outputs the opposite identical frequency.

Click Amplify Allergen of the Test to amplify herbs, nutrients etc. It increases the original frequency.

Click Close 3 times to exit and return to Allersode panel.

11.6 Other Hyper – Reactant Applications

Click on Phenols by value

Highlight a phenol

Click Treat Phenol Indicated

Click on Hyper Reactant Document for information about allergies.

Click on Leaky Gut Rx to access further information about natural cures.

Click Emotional Link to see most probable emotion involved with the allergy.

12 NLP (Neuro Linguistic Programming)

Click Programs in the main test panel

Select NLP Emotional Growth Stress Reduction

or

From Virtual Doctor Panel, click Connect to Emotion + NLP
12.1 Emotional and Biological Flow

Click Emotional and Biological Flow

Enter Focal Concern

Click Treat and Test Flow Charts for balance therapy

Red indicates unhealed scars and what the issues may be. White indicates the area with most stress (where the issues are located)

Click Super Conscious Pick Affirmation

Click Close to exit

12.2 Unconscious Choice

Click Therapies from the top menu bar

Click Unconscious Choice of Therapy

Double click on suggestion to apply therapy

12.3 Mental Factors and Emotion Chart

Click Mental Factors and Emotion Chart

Click Value of Emotions
Double click on special emotion to add to hold tray. Click 10 sec Zap Emotions

Click Value of Neurotransmitters

Double click on special neurotransmitter to add to hold tray. Click 10 sec Zap Neurotrans.

Click Make Emotion Chart

Click Show Emotion and Neuro Trans Chart

Click Therapy on the top menu bar

Select appropriate therapy

Click Close to exit

12.4 Covert Thought Pattern

Click Covert Thought Pattern in Mental Factors and Emotion Chart panel

Click OK

Click Step 1

Click Step 2
Click Step 3
Click Step 4
Double click on each emotion to load in the hold tray
Double click the items in the tray to balance
Click Build Enlightenment and Mental Powers
Click Start
Wait until rectification is above 95
Click End Therapy
Click Close
Close to exit

12.5 Unconscious Reactivity
Click Unconscious Reactivity
Enter the desired age
Click Start
Click Disease Type and check the appropriate boxes. Click Close.
Click Disease Path
Click Treat Emotional Profile Above
Click Emotional Profile for Time Set at Right (set the time)
Double click on items appearing below for therapy
Enter a question and click Yes or No Unconscious Reaction Test
Click Affirmation for subconscious choice
Click Close to exit

12.6 Individual NLP
Click Individual NLP
Enter information
Select the type of concern
Click Start NLP Interface
Click OK
Click Close to exit
