To Be a Professional Biofeedback and Energetic Medicine Therapist

We must teach people how to be professionals in the field of Natural medicine. We need to teach so many things and overcome many false myths and misunderstandings. We will offer the most astounding course of professional exciting new medicine based in energy and compassion. This new medicine will demand evidence and validation for all that we do.

The Path to Follow to be a Professional Successful Biofeedback Technician.

1. Get a real registered device. Real working legal current software
2. Get registered with the IMUNE register. (this advertises you to the world for whatever credentials you have but it does not means you are IMUNE certified or approved)
   http://www.downloads.imune.net/medicalbooks/International%20REGISTER%20of%20Therapists.pdf
3. Get certified with IMUNE or the ABC (we are offering a grandfathering right now) Certification means IMUNE stands behind you for medical and legal consultation.
4. Get trained by IMUNE for Home use, QESPT, Diplomat, Doctorate or Medical Doctorate
5. Get IMUNE licensed
6. Study practice development
7. Become a provider of services for the medical community and the insurance companies.

THINGS WE MUST LEARN

1. WE ARE BEINGS OF ENERGY

We will start to teach the lesson from fifth grade where we were all taught our bodies are made of atoms. The atoms have electrons in their outer shell and electrons do not touch, they repel each other. So no two atoms can touch. You cannot touch the chair you sit in. the atoms in your body are held in place by many different energy fields. It is the balance of these fields that makes health possible. So we are beings of energy.
Perception is all an 
Ilusion of 
Expectation 
and Interpretation 
(But this illusion can be quite Compelling)

YOU SHOULD RELEASE THAT NEGATIVE ENERGY. YOU MIGHT ATTRACT DEMONS onto the Court

YEAH, RIGHT! WHAT DO YOU KNOW?!

Fear
Self Doubt

Computerized Prayer Wheel Works
2. **WE ARE BEINGS OF EXTREMELY COMPLEX FRactal ENERGY**

How many electrons in the human body? \((+10^{28})\). Well take the number of all the grains of sand in the world, TIMES, all the stars in the visible sky and we have more electrons than this product. This unimaginable complexity demands we respect diversity.

\[
7 \times 10^{20} \times 8 \times 10^3 = 10^{24} < < 10^{28}
\]

IF WE TAKE THE NUMBER OF ALL OF THE GRAINS OF SAND ON THE EARTH AND TIMES IT BY ALL OF THE STARS IN THE VISIBLE SKY THERE ARE MORE ELECTRONS IN ONE HUMAN BODY

3. **MEDICINE AND SOCIETY MUST EMBRACE DIVERSITY**

"IT IS HARD TO BE A BIGOT WHEN WE REALIZE WE ARE ALL ONE."

Diane Farsonet
Our respect for complexity and energy demands respect for diversity. We must end bigotry and prejudice for those who are different by race, creed, hand or sexual preference. This leads to our next essential new lesson for medicine, compassion.
4. **MEDICINE MUST EMBRACE COMPASSION**

As our friend Patch Adams has said “Compassion is the Heart of Medicine, any medical course without classes in compassion are not complete”. At IMUNE we have a mandatory embedded course in the compassion.
5. **WE ARE MORE THAN JUST THE WORDS IN OUR BRAIN**

We must have a course in the science and understanding of **ENLIGHTENMENT** to understand the powers and capacities of the human mind and spirit. We must learn that words are just a very small part of our being. To be fully healthy we must go past the words.

Under the Words there are Super Powers of the Mind

But They are but Traps to Stop you from Finding Enlightenment

There is Not a LAW of Attraction, You do not Create the world around You, You Interpret the world Around You

There is an **Effect of Attraction** where You can influence the world around You but NOT totally control it, You can learn to increase your control with time and practice,

There is a **LAW of Interpretation** where after an event happens we will Interpret based on what is in our minds

The Moon is held in Orbit by the **LAW of Gravity** because it is mostly always working, There is an **Observer EFFECT** where an observer effects what he sees, Do You See the Difference Between a **LAW** and an **Effect**?????? **Gravity** is a **Law**, **Attraction** is an **Effect**
6. WE NEED TO UNDERSTAND THE CAUSES OF DISEASE

Nelson Method of Medicine

1. Reduce causes of disease
2. Rebuild organs and tissue destroyed by causes
3. Unblock the blockages of flow
4. Treat symptoms NATURALLY
5. Metabolic and Constitutional Treatment of the individuality of the Patient
7. **WE MUST LEARN THE RULES OF BEING A HEALER**

A doctor is not a healer. The doctor of the future will give advice on how to eat, exercise, reduce stress, and live a healthy life. A healer will give extra energy to stimulate healing.

How to become a Healer in Ten Steps

1. Humility, Compassion, Prayer, Laughter, Love are the best medicines
2. Healthy Lifestyle and Behaviour is the start for your patient
3. Let Food be thy Finest Medicine, Make and Eat Natural foods with Joy and a Celebration for Life
4. A Synthetic anything is an Insult to your Body, Remove Addiction and Dependency thru release of the cause, and healthy repair of the tissue damage left behind
5. Natural Medicines can Heal, Detox then use Nutrition, palliate symptoms with Nature only at first and harsher methods only when really needed
6. Allopathy and Crisis Care are poor ways to do Medicine
7. Stress reduction, Exercise, Early Detection of Symptoms and to Reduce Stressors is proper way to do Medicine
8. Symptoms are not the enemy they are our guide, Pain is God’s gift to know something is wrong, Fix what is wrong, before you attack the pain
9. We are beings of Body, Mind, Spirit, Social, and Environmental, we are Holistic, Fractal, Energetic beings of great complexity, we must embrace Diversity
10. Every Path has Joy, Every Path has Sadness, Eventually we all die and as Healers we must learn to tolerate suffering and death with dignity

8. **WE MUST LEARN THAT THERE ARE BAD PEOPLE WHO CAN LIE TO MAKE MONEY; ONE PERSON IN 20 IS A PSYCHOPATH**

9. We need to **UNDERSTAND HUMAN BEHAVIOR**, Carl Jung who started the first charter for IMUNE outlined the Human tendency to see and be attracted to Archetypes. These archetypal images are shared by humans and we all fall between
the poles of these images. We must learn that the true evil comes from the extremes. EXTREMISTS need to be taught the middle path and that we should seek moderation in all things.
10. WE MUST LEARN ABOUT VALIDATION, VERIFICATION AND WHAT IS EVIDENCE BASED MEDICINE.

There have been so many backstabbing frauds in alternative medicine selling illegal and unverified products that the governments of the world have had to make laws that require full validation and verification of manufacturer claims. There is an eleven stage step in the validation process and the World Health Products Rating Service (WHPRS) has a scientific rating for these products. http://www.worldhealthproductservice.com/index.html
11. WE MUST LEARN ABOUT THE ANATOMY OF OUR ENERGETIC BODIES

We must learn that the DNA is not a chemical locked structure, but an Energetic Epigenetic flexible structure. We see that DNA is not an exact structure by the differences of identical twins with the exact same DNA.
12. To start our biofeedback we must learn behavioral medicine, lifestyle, and the SOC index.

The suppression and obstruction of cure index known as the SOC index is a standardized way to check the lifestyle of a patient and how it impinges on their diseases. We must learn the main causes of disease which are stress, tobacco, addiction, high glycemic foods, SINthetic chemicals and drugs. Lack of exercise, pathogens, toxins, dietary deficiency and or excess also adds to the disease-causing factors. So we must learn about the work and life of Dr. Selye and his new idea on a new medicine where accumulated stress from a wide variety of stressors weakens or ability to resist stress and EASE then becomes DIS-EASE. Separate courses on all of these disease-causing factors is important.
13. **HOW TO WORK IN THE MEDICAL SYSTEM**

**Natural Medicine is the Primary choice**

**SINthetics are the Secondary choice**

**When Natural Medicines and Lifestyle Fail then and only then use Prescription Drugs**

We could have an even higher death rate by using Dr. Lucien Leape’s 1994 medical and drug error rate of 3 million. [14] Multiplying by the fatality rate of 14 percent (that Leape used in 1994 [15]), we arrive at an annual death rate of 420,000 for drug errors and medical errors combined. If we put this number in place of Lazarou’s 106,000 drug errors and the Institute of Medicine’s (IOM) 98,000 medical errors, we could add another 216,000 deaths making a total of 999,936 deaths annually.

The principal cause of suffering is craving. Once craving is eliminated, much suffering will be eliminated. Still more suffering will be eliminated once ignorance is eliminated. Both craving and ignorance are equally powerful defilements that cause suffering.

"The More You Want Things Different the More You Will Suffer, If You Ignore a Truth Your Ignorance Will Cause Suffering. To Release Your Suffering Listen to Your Pain, Change What You Can, Accept What You Can NOT, and Pray for the Wisdom to Stop Ignoring + Grow Your Mind"

16. WE NEED TO UNDERSTAND THE ENERGY OF BIOFEEDBACK

Quantum Biology uses the rules of Quantum and Electro Dynamics Physics in Biology not just Newtonian Thermodynamics

1. We will find that there is a Holistic Fractal Extreme Complexity that makes us embrace Diversity over Conformity,
2. We find that the Body Electric can be measured with Voltage, Amperage, Resistance, Hydration, Oxidation and Ph and this VARHOPE can be stimulated and enhanced with small body stimulation
3. We find that we can measure the Voltammetric signature of a Remedy and send it into the body thru electrodes for measuring Reactivity (EPR or TVEP) or for doing medication testing and or Electro Homeopathy with sarcodes, allersodes, isodes, or nosodes
4. We find that with Quantum Biofeedback we can ZAP or electrocute pathogens and stimulate the Immune System
   We can use the science of Quantum Entwinement to work at a distance
5. We can work to stimulate the Body Electric to heal itself and we do not need to depend on the word area of the brain
17. WE NEED TO LEARN WHO IS THE ENEMY OF HEALTH AND HUMANITY

Anything SINthetic is an INSULT to our Bodies

Here is the simple condensed, essence of what we need to know, we need to stop insulting our bodies on every visit to the doctor just to make profits from their patents, doctors need to be taught reverence for nature, and the first and second interventions should be life style and natural as possible, then if these fail the third line of intervention should be SINthetic, because there is a time for all things under heaven, even for SINthetics, but they should not be our first line of defense.

UCSF Scientists Declare WAR on Sugar in Food

Erin Allday, Chronicle Staff Writer
02/01/12

Like alcohol and tobacco, sugar is a toxic, addictive substance that should be highly regulated with taxes, laws on where and to whom it can be advertised, and even age-restricted sales, says a team of UCSF scientists. (University of California San Francisco)

In a paper published in Nature on Wednesday, they argue that increased global consumption of sugar is primarily responsible for a whole range of chronic diseases that are reaching epidemic levels around the world. The health care expense of sugar caused diseases is massive.

Sugar is so heavily entrenched in the food culture in the United States and other countries that getting people to kick the habit will require much more than simple education and awareness
...a third of all men killed by the Smoke, 
...and by the Smoke which issued out of their mouths.

Prophecies are coming true. The largest killer of humans is by far cigarette smoke. It is directly responsible for killing one in eight. And associated with one in five. But since smoking has no health benefits whatsoever, there is only health degradation, it only weakens the bodies defenses, it can be said that one third of the population is killed by smoke.

There are efforts to make a smoke free America or Europe. But these are only pipe dreams no pun intended. The cruel fact is that this substance is so easily available that most smokers start before the age of 15, many before ten.

There was an FDA scare over melamine in milk, mad cow disease, lead in the point of children’s toy, or bird flu. These scares affect just a handful of people. One in one hundred million is a scare. There are a fervor and frenzy reaction. Business are frozen, commerce stopped. But the largest killer responsible for literally billions (yes billions of deaths), cigarettes, goes off scot free.

These are pictures of Crimes being committed

Reckless Endangerment: the offense of recklessly engaging in conduct that creates a substantial risk of serious physical injury or death to another.

Reckless Endangerment is a gross misdemeanor but sometimes rises to a felony, as when a deadly weapon such as tobacco is involved.

A person is guilty of reckless endangerment when he or she recklessly engages in conduct that creates a substantial risk of death or serious physical injury to another person.

SCOPE OF PRACTICE

A Biofeedback Therapist must have a fundamental understanding of the physiological and psychological relationships between presenting problems and the causal and physiological dysfunction causing or contributing to them. A Biofeedback Therapist can help a patient deal with stress or lifestyle concerns. They can provide Lifestyle advice, relaxation training, muscle toning reeducation, meditation, exercise, networking, stress adjustment, and other OTC safe and evidenced based drugless therapies. Biofeedback therapists treat patients with any concern, but they do not treat or diagnose Diseases directly. Biofeedback therapists need to work within the medical system and with other clinicians for safety and professionalism. They must know how to perform a good competent psychophysiological recording and to increase networking skills, self-awareness and responsibility of a patient.
A Professional Quantum Biofeedback Practice can be Very Profitable

21. PATHWAY OF DISEASE AND WHY BEING SYMPTOM FREE IS NOT AN INDICATOR OF HEALTH

Prof Nelson - Desiré

Towards a new Safe and Effective truly Modern Medicine

Dr. János (Hans) Selye

This is a new common sense method of modern medicine, that is Health motivated not just symptom control. We respect the complexity and the whole body, and respect the Natural process of health

HEALTH IS EASE OF FLOW

Stressors block Flow, Stress is more than Just personal stress.
Stress Reduction is the key to Medicine.

When the stressor or stressors weaken the defenses of the body, the weakest link of the body (from nature or nurture) is most prone to distress and thus disease.

LACK OF AWARENESS OR LACK OF EDUCATION
STRESS
HEREDITY
MENTAL FACTORS
(Greed, anger, delusion arrogance ETC)
ALLERGY
BAD POSTURE

TOXICITY
TRAUMA INJURY
PATHOGENS (microorganisms, bacteria, fungus, virus, prions, worms, etc.)
PERVERSE ENERGY (heat, cold, wind, dryness, radiation, magnetic, etc.)
DEFICIENCY OR EXCESS OF NUTRIENTS

Nelson Method of Medicine

1. Reduce the Causes of Disease. Change Behavior, get patients to Care, get the nail out of the tire
2. Repair the organs weakened by the Causes. Restore Health. Fix the Tire
3. Unblock the Blockages to energy, nutrition, Oxygen, waste, Pancreas, acupuncture, nervous FLOW
4. Treat the symptoms with natural means before resorting to Synthetic. Use foods, exercise, herbs, homeopathics any and all natural means before resorting to Synthetics
5. Balance the metabolic typing or Constitutional Imbalances. Treat the patient as an Individual Whole

Selye Pathway of Disease

health then enter stressor (toxin etc)-enters

1. ALARM Stage
symptoms are the alarm, not the enemy, symptoms at first are related to the Stressor, later the dysfunction

if stressor continues then
2. ADAPTATION Stage
symptoms go away as we adapt, the distress + disease penetrates deeper. You can have no symptoms and be very very sick.

Being symptom free is not an indicator of Health

if stressor continues then
3. EXHAUSTION Stage
the stressors burden the weakest organs

if stressor continues then
4. FUNCTIONAL
first the stressors effect the weakest organ function

if stressor continues then
5. ORGANIC
then the weak organs start to swell or shrink

if stressor continues then
6. DEATH
cellular, organ, organ system, organism death

Since the body's weakest link is prone to disease from the stressors, any disease will improve with reduction of the stressors. If there is good nutrition and no excess or deficiency of nutrients, the body's repair system improves. With stress reduction the Para-Sympathetic system becomes free to boost digestion and immunity as well as cellular repair. Some stressors via have more specific target tissues, such as cigarettes target the lungs primarily. But with the lack of systemic oxygen, any other weak link in the body from genetics or from life will be involved. Thus stress reduction is a universal therapy for all diseases. Reductionism of diseases via inaccurate and expensive current medical diagnostic means, are archaic, inaccurate, overly complex, non-productive, expensive, unsafe, risky and most often ineffective. Add to this the side effects from Synthetic drugs and we see the poor history of medicine. Nelson and Selye have plotted out a safe, inexpensive and effective new modern medicine.
The EPFX is a WINDOW to the Unconscious through the Body Electric

The two body problem is easily solvable. This has been used by science for hundreds of years. A ball falls to earth, and we can calculate the two forces and get a good result. But when there are three bodies (ball, earth, moon) it gets very difficult, but still solvable, and when there are more bodies there is an unsolvable result. Science has struggled to reduce everything to the two body problem. This is called reductionism. So to test a drug they reduce the human to just one variable like blood pressure, give a drug and measure the change in blood pressure. Advanced Science has learned that complex systems such as the human body are fractal in nature and reductionism fails, so they have developed CHAOS theory. When more and more variables are measured we observe that there is complex results. Things never repeat, and some small stimulus can have large effects. This is called the butterfly effect. The EPFX device uses fractal chaos theory and was called the butterfly device in a English medical journal in 1990. Reductionism is an useless exercise of the small mind. All of science has no developed more non-linear analytical systems, all except medicine, which depends on reductionism to sell patent SINthetic drugs.

There are over one hundred trillion cells in the human body. Each cell is doing fantastic incomprehensible mathematical procedures. There is an innate intelligence beyond our comprehension to which we must be humble. So ten billion sextillion bits of data are being transported to the brain, and the reticular formation filters them so that less than a million can go to the verbal brain. So the verbal brain is only aware of one percent of one percent of one percent of one percent of one percent of one percent of one percent of one percent of one percent of one percent of the happenings in the body. The non-verbal body electric is aware of the total. And there is a non-verbal unconscious that directs us. It is electrically reactive and it is the heart of our lives. It takes us places and our verbal minds make up reason to explain why we are there. Many people are completely unaware of their unconscious and they struggle with every action. Others are more in tune and understand most of their actions. Only a small few are really in tune and live harmonious lives.

But the unconscious body electric is a very complex fractal and it is not a machine. What it will react to is sometimes not understood. A woman inhales a piece of a potato chip, she gets a cough. Takes a cough suppressant, the body develops a cyst around the chip in the lungs, the chip is exposed to smoke toxins and or viruses and the cyst goes cancerous as the machine last attempt to remove the toxic chip. The unconscious might see the problem is the chip not the cancer. The body electric might see the cancer as a helper mechanism of detox. The EPFX allows a insight to the non-verbal body electric.

There is Adaptation response to the EPR and there is a variety of fractal reasons why the Xroid results are not 95% accurate. The best results are 85%, and this is not enough to establish a confident status. So the Xroid scores are disclaimed as not being diagnostic, but they are interesting. So the EPFX device is only sold to professionals, with the training to know that the Xroid results are interesting and need to be more traditionally explored.
ELECTRO-SENSE

Everything is made of atoms with electrical fields. Every cell is an electrical dynamo of energetic photonic, quantic electro-magnetic-static activity. The Angel researches the Electro-Sense of humans and the body electric to make a complete energetic medicine device to help save the world, the EPFX / SCIO.

We can take the QQC Voltammetric patterns of different vitamins, homeopathics, nosodes, sarcodes, allersodes. Then amplify them over 10 million times and send them into the body as a safe micro current stimulation. Using a recognized proven scientific method of electro analytical modern chemistry “Transcutaneous Voltammetric Evoked Potential” the biofeedback device EPFX is for over two decades registered around the world as medically safe effective and drugless with no side effects.

And this is the reason the powerful Drug Co. hate and fear the messenger Angel, Desireé.

SHARK SENSES ELECTRICITY

by Mary Ann Badavi & Stephanie Parker

A shark’s ampullae of Lorenzini are able to feel electric currents at short ranges.

All living things emit a small electrical current, a shark can feel it from 0–8 Hz.

The electro-sense in humans has evolved into the Olfaction shape detection sense. Voltammetric shape readings of various homeopathics are used to measure the Electro-Physiological-Reactivity (EPR) of patients.

The electro field of fish
We are taught chemistry with a poor rod and ball analogy. There are no rods and no balls, there are quantic energy fields. The Rods and Balls faulty analogy misleads us into a perception that Synthetic Chemistry can assemble new molecules. The energy state of these molecules is different in nature than in the synthetic world. The Angel discovered this in 1982 and published the first book on Quantum Biology the Promorphes proving the incompatibility of the Synthetic Chemicals in Biology.

**There are no Rods and no Balls!!!**

**Just energy fields**

The Angel discovered that Quantum Electro Dynamics ability to describe the photon electron and proton interaction, means that the energy state of a natural made substance is different from the petrochemical Synthetic Chemistry of the Drug Co.

Modern science has de-emphasized the energy states of the electrons in glucose and the QED connection largely because it refutes the idea of Synthetic chemistry but the Angel noted the hypocrisy and has made a new medicine to help people. For this, the Drug Co. have attacked her.

Plants take in water, carbon dioxide, nutrients and photon energy (light). They give off organic material and oxygen.

Animals take in the organic material and oxygen. They give off fertilizer nutrients carbon dioxide, water and photon energy (body heat)

The Photosynthetic Organism can use the energy of sunlight to take electrons to higher energy states.

**Sunlight +**

\[ \text{H}_2\text{O} + \text{CO}_2 + \text{Nutrients} \]

**Body Heat**

\[ \text{CH}_3\text{O}^+ + \text{O}_2 \]

Water  Carbon  Nitrate NO,  Organic  Oxygen
Dioxide  Phosphate PO4  matter
Iron  Sillicic

The Sunlight comes in at wavelengths of 400 to 700 nm and the body gives off heat radiation at wavelengths 90 to 350 cm. The difference is the energy used for the DNA gives off radiation and receives radiation in the infrared and visible light with just a touch of UV.

Desire used this advanced science for good.
To Make Medicine Safer the Angel has Made

The Quantum Quality Control Electro-Chemistry Analyzer for the Analysis of the Trivector electrical signature of a biological or anto-biological substance.

Everything is made up of atoms with mostly electrons and protons. Everything has an electrical field and an electrical interaction with its environment. This 3D interaction can be measured with Voltammetry.

John Edward Brough Randles gave Desi inspiration and advice on the VoltAmmetric QQC
Atoms all have Protons and possibly Neutrons in the center with Electrons around the large Electrical-Magnetic-Static Charge they have that repels each other. Atoms join to make Molecules by the need to fill the Outer Quantic Valency Shell. If they have low energy electrons in the outer shell they make simple IONIC bonds such in the Mineral Kingdom. The Electrons of each atom making up a Molecule never touch each other because they repel each other.

What holds together the atoms and the molecules are Quantic Valency Attraction forces and Electron-Magnetic-Static fields. There is undeniable inarguably an energetic field around all Atoms and Molecules.

All Molecules interact with each other through their fields. The outer Electrons never touch, they repel to each other. All of biology is a study in filed interaction. This is a basic scientific fact.

Volutametry (Electro-Analytical-Chemistry) is the study the nature of the field of a substance and the shape of the interactive field.

Field lines of the van der Waals force between two atoms or molecules.
The van der Waals force usually causes things to stick; the force is attractive; and it acts only across short ranges.

This is a basic universally accepted form of science.

The Body Electric has many global important measures. These include Volts, Amperes, Resistance, Hydrations, Oxidations, and Proton and Electron pressure. There are oscillatory norms of these values as well. The electrical vital signs. These are all easily measured and easily corrected in a cybernetic biofeedback loop. By interfacing with the body electric thus stimulate, response, correction and re-stimulation, we can try to normalize and stabilize the body electric. If we can reduce the causes of disease with behavioral medicine, provide good nutrition to supply needed homeostasis, repair the damage to organs, and unblock the blockages to energy flow, we have the start of a good truly modern medicine. Selvy has proved that by reducing stress and the stressors we can advert the early progression of disease, and dramatically reduce degenerative disease. But this is dangerous and threatening to the profits of the drug companies. We need in order people over profit.

The over emphasis on drugs (Synthetic drugs) and surgery and the under emphasis on lifestyle has created a monster. The regulatory bodies, FDA, let Big Tobacco, Big Sugar, Big Pharma, run rampant while spending time and money on attacking safe, scientific, tested and effective natural medicines. This is a tragedy of modern times and profit corporations out of control.

We were all taught in Grade School that all things are made of atoms. They used the Rods and Balls analogy to teach us, but there are definitely no rods and no balls, just quantic energy states.

There are energies that holds together all substances.

Everything is made mostly of electrons and protons. Thus everything has an Electrical Nature.

This computer-generated graphic shows how electronic charges are distributed across the surface of a molecule made of two identical atoms.

Empty space is not empty, but is filled with the quantum vacuum, with endless virtual processes. The energy of the quantum vacuum, the zero-point energy is infinite according to our present theories. Clearly, this infinity is an artifact. It would make the electromagnetic field infinitely massive, because energy and mass are related according to Einstein’s E=mc^2. The empty electromagnetic field would collapse under the weight of its own gravity. Some unknown mechanism beyond quantum electromagnetism must regularize the infinity of the electromagnetic vacuum energy. Nevertheless, the zero-point energy resides in perfectly finite and experimentally confirmed facts, for example the Casimir force.
23. WE NEED A CYBERNETIC LOOP OF MEASURE, STIMULATE, MEASURE AND CORRECT STIMULATION

The Body Electric has many global important measures. These include Volts, Amps, Resistance, Hydration, Oxidation, and Proton and Electron pressure. There are oscillatory norms of these values as well. The electrical vital signs. These are all easily measured and easily corrected in a cybernetic biofeedback loop. By interfacing with the body electric thru stimulus, response, correction and re-stimulation, we can try to normalize and stabilize the body electric. If we can reduce the causes of disease with behavioral medicine, provide good nutrition to supply needed homeostasis, repair the damage to organs, and unblock the blockages to energy flow, we have the start of a good truly modern medicine. Selye has proved that by reducing stress and the stressors we can advert the early progression of disease, and dramatically reduce degenerative disease. But this is drugless and threatening to the profits of the drug companies. We need to prefer people over profit. We need to become aware of the science and look through the sensational tabloid press to make an informed choice.

The over emphasis on drugs (SINthetic drugs) and surgery and the under emphasis on lifestyle has created a monster. The regulatory bodies, FDA, let Big Tobacco, Big Sugar, Big Pharma, run rampant while spending time and money on attacking safe, scientific, tested and effective natural medicines. This is a tragedy of modern times and profit corporations out of control.
So to end Degenerative Disease we must

1. Make Big Tobacco pay for the damages they incur
2. Must stop sales of cigarettes
3. Make Big Sugar pay for the damages they incur
4. Make Big Pharma pay for the damages they incur
5. End Allopathic philosophy and develop a new stressor reducing based medicine
6. Avoid Bad white processed sugars. Eat Good Sugars from fresh fruit. Avoid bad oils cooked or saturated. Eat good oils from fresh and raw vegetable and uncooked low temperature made oils.
8. Safe forms of early intervention medicine such as energetic biofeedback
9. Recognize the powers of the mind such as in the EPFX/SCIO system.
10. Recognize the need for an energetic medicine to safely evaluate the body electric and balance the aberrations of the body electric. We need to use a more modern medicine utilizing the body electric without emphasis on synthetic chemistry.
11. Recognize that the SINthetic experiment has failed and we should be using the synthetics only in extreme cases when the natural remedies fail. Quantum Electrodynamics has further proven the problem of synthetic chemistry.
12. Allopathy does not work, we must adapt a safer and more extensive theory of medicine.

With these social changes degenerative disease could be so greatly reduced to allow for an inexpensive medicine.
THE MIND CAN DO ANYTHING...

It is not the will to win that makes a winner, it is the will to prepare

*Bobby Knight*

There is one great unknowable, impoderable and ultimate incomprehensible unfathomable secret, the ultimate power of the human mind. But please be *humble*. The mind is like a drop in an ocean. The drop has all of the characteristic of the ocean, but it is a mistake to think it is the same as the ocean...

25. **WITH AN OPEN INTELLIGENT MIND WE NEED TO LOOK AT THE EVIDENCE OF HOMEOPATHY, ANATOMY, PHYSIOLOGY, ELECTRO-ACUPUNCTURE, VACCINATION, BIOPHYSICS, ENLIGHTENMENT AND ALL OF ALTERNATIVE MEDICINE**
We Often Only Remember the "LAST STRAW" NOT the Accumulated Stressors that Really Caused the Diseases we have

Proverbial "Straw That Broke the Camel's Back"

Dr. Selye saw the Effect of Accumulated Stress as the Main Cause of Disease

STRESS
LACK OF AWARENESS OR LACK OF EDUCATION
HEREDITY
MENTAL FACTORS (Greed, anger, delusion arrogance ETC)
ALLERGY
BAD POSTURE

TOXICITY
TRAUMA INJURY
PATHOGENS (microorganisms, bacteria, fungus, virus, prions, worms, etc.)
PERVERSE ENERGY (heat, cold, wind, dryness, radiation, magnetic, etc.)
DEFICIENCY OR EXCESS OF NUTRIENTS

Do the SOC Index
Dr Selye found that Accumulated Stress Weakens the Immune and Nervous Systems so all Diseases become more Prevalent. Everyone in the World Knows that Accumulated Stress Causes and or Aggravates all Diseases and By Reducing the Stressors of Life we can Improve our Health and Wellness. Biofeedback thus becomes a very Integral and Important part of Medicine.

The Future of Medicine

János (Hans) Selye (Hungarian: Jan 26, 1907 – Oct 16, 1982) was a pioneering endocrinologist. He conducted the very important scientific work on the hypothetical non-specific response of an organism to stressors. He was the first to demonstrate the existence of biological stress and how accumulated stress is the major cause of disease. His Genius was inspirational and he is referred to as the Einstein of Medicine.
If Stressor Continues the Body Adapts to the Stressor

Stress resistance

Energy devoted to adaption and resistance runs out

"BEING SYMPTOM FREE IS NOT AN INDICATOR OF HEALTH"

The body's resistance to stress can only last so long before exhaustion sets in.

Adaptation Stage (The Symptom ends but disease goes deeper)

Phase 1: Alarm reaction (mobilize resources)
Phase 2: Resistance (cope with stressor)
Phase 3: Exhaustion (reserves depleted)

THE SYMPTOM CAN GO AWAY AND THE DISEASE GROW DEEPER

Stressor makes an Alarm Reaction that is the initial Symptom

We are made to chop wood and carry water, we need stress to live a good life but too much and our systems wear down from accumulated Stress.
Biofeedback Equipment

People have been interested in personal development throughout history. But, what is interesting is what is happening today. Never in history has there been as much interest in personal development and self help material as there has been in all history!

Before the printing press was invented by Gutenberg being into self help was not what almost all of the people were interested in. In those times it was difficult to find places or people with good personal development information.

A real therapist is not just a button pusher. A real therapist must know how to interact with a patient to protect them and to inform them. Answering questions is a key ability of a therapist. You do not need to immediately know the answer to all questions, but you need to know how to get answers in timely fashion. If you do not have an answer to a question ASK the question on the ASK and It will be revealed to you site. [https://www.facebook.com/groups/askandreveal/](https://www.facebook.com/groups/askandreveal/)

To become a GS RtDCs Therapist you need to use this site.

On this site is the key information you need to become very familiar with. Most of the key questions are covered in the pdfs accessible on the site.
Get all of these pdfs and study them. Here is the needed information for you to be professional.

IMUNE is a Fully Accredited International Medical Univ
Everyone is entitled to MY LOVE. Everyone is entitled to GOD’s LOVE.

The sun shines on all of us, the earth gives us all gravity to hold us from flying away. The earth does not hold back gravity from a criminal nor does the sun hold back sunshine.

So neither do I hold back my love. But sometimes my love is tough love. When my child tried to smoke I had to be stern and say no. When three male beggars tried to miraculously attack me a couple of years ago it was with tough love in my heart I sent two of them to the hospital and with tough love in my heart I chased the third one for 2 blocks.

True love means sometimes saying no, true love means sometimes calling someone an idiot who is acting out. True love is telling criminals to stop their crimes.

We must love the sinner, while hating the sin. Habitual sinners still are entitled to my love no matter what.

But with tough love I need to sometimes show my true love by protesting the crime, reenacting the sin, teaching people respect for the law.

Always done with honor, ethics, and integrity as well as tough love for those who are stubborn.

Everyone is entitled to MY LOVE. My love flows to all as the sunshine and gravity do.
